[57] **CLAIM**

The ornamental design for a portable computing device having a leather grain top, as shown and described.

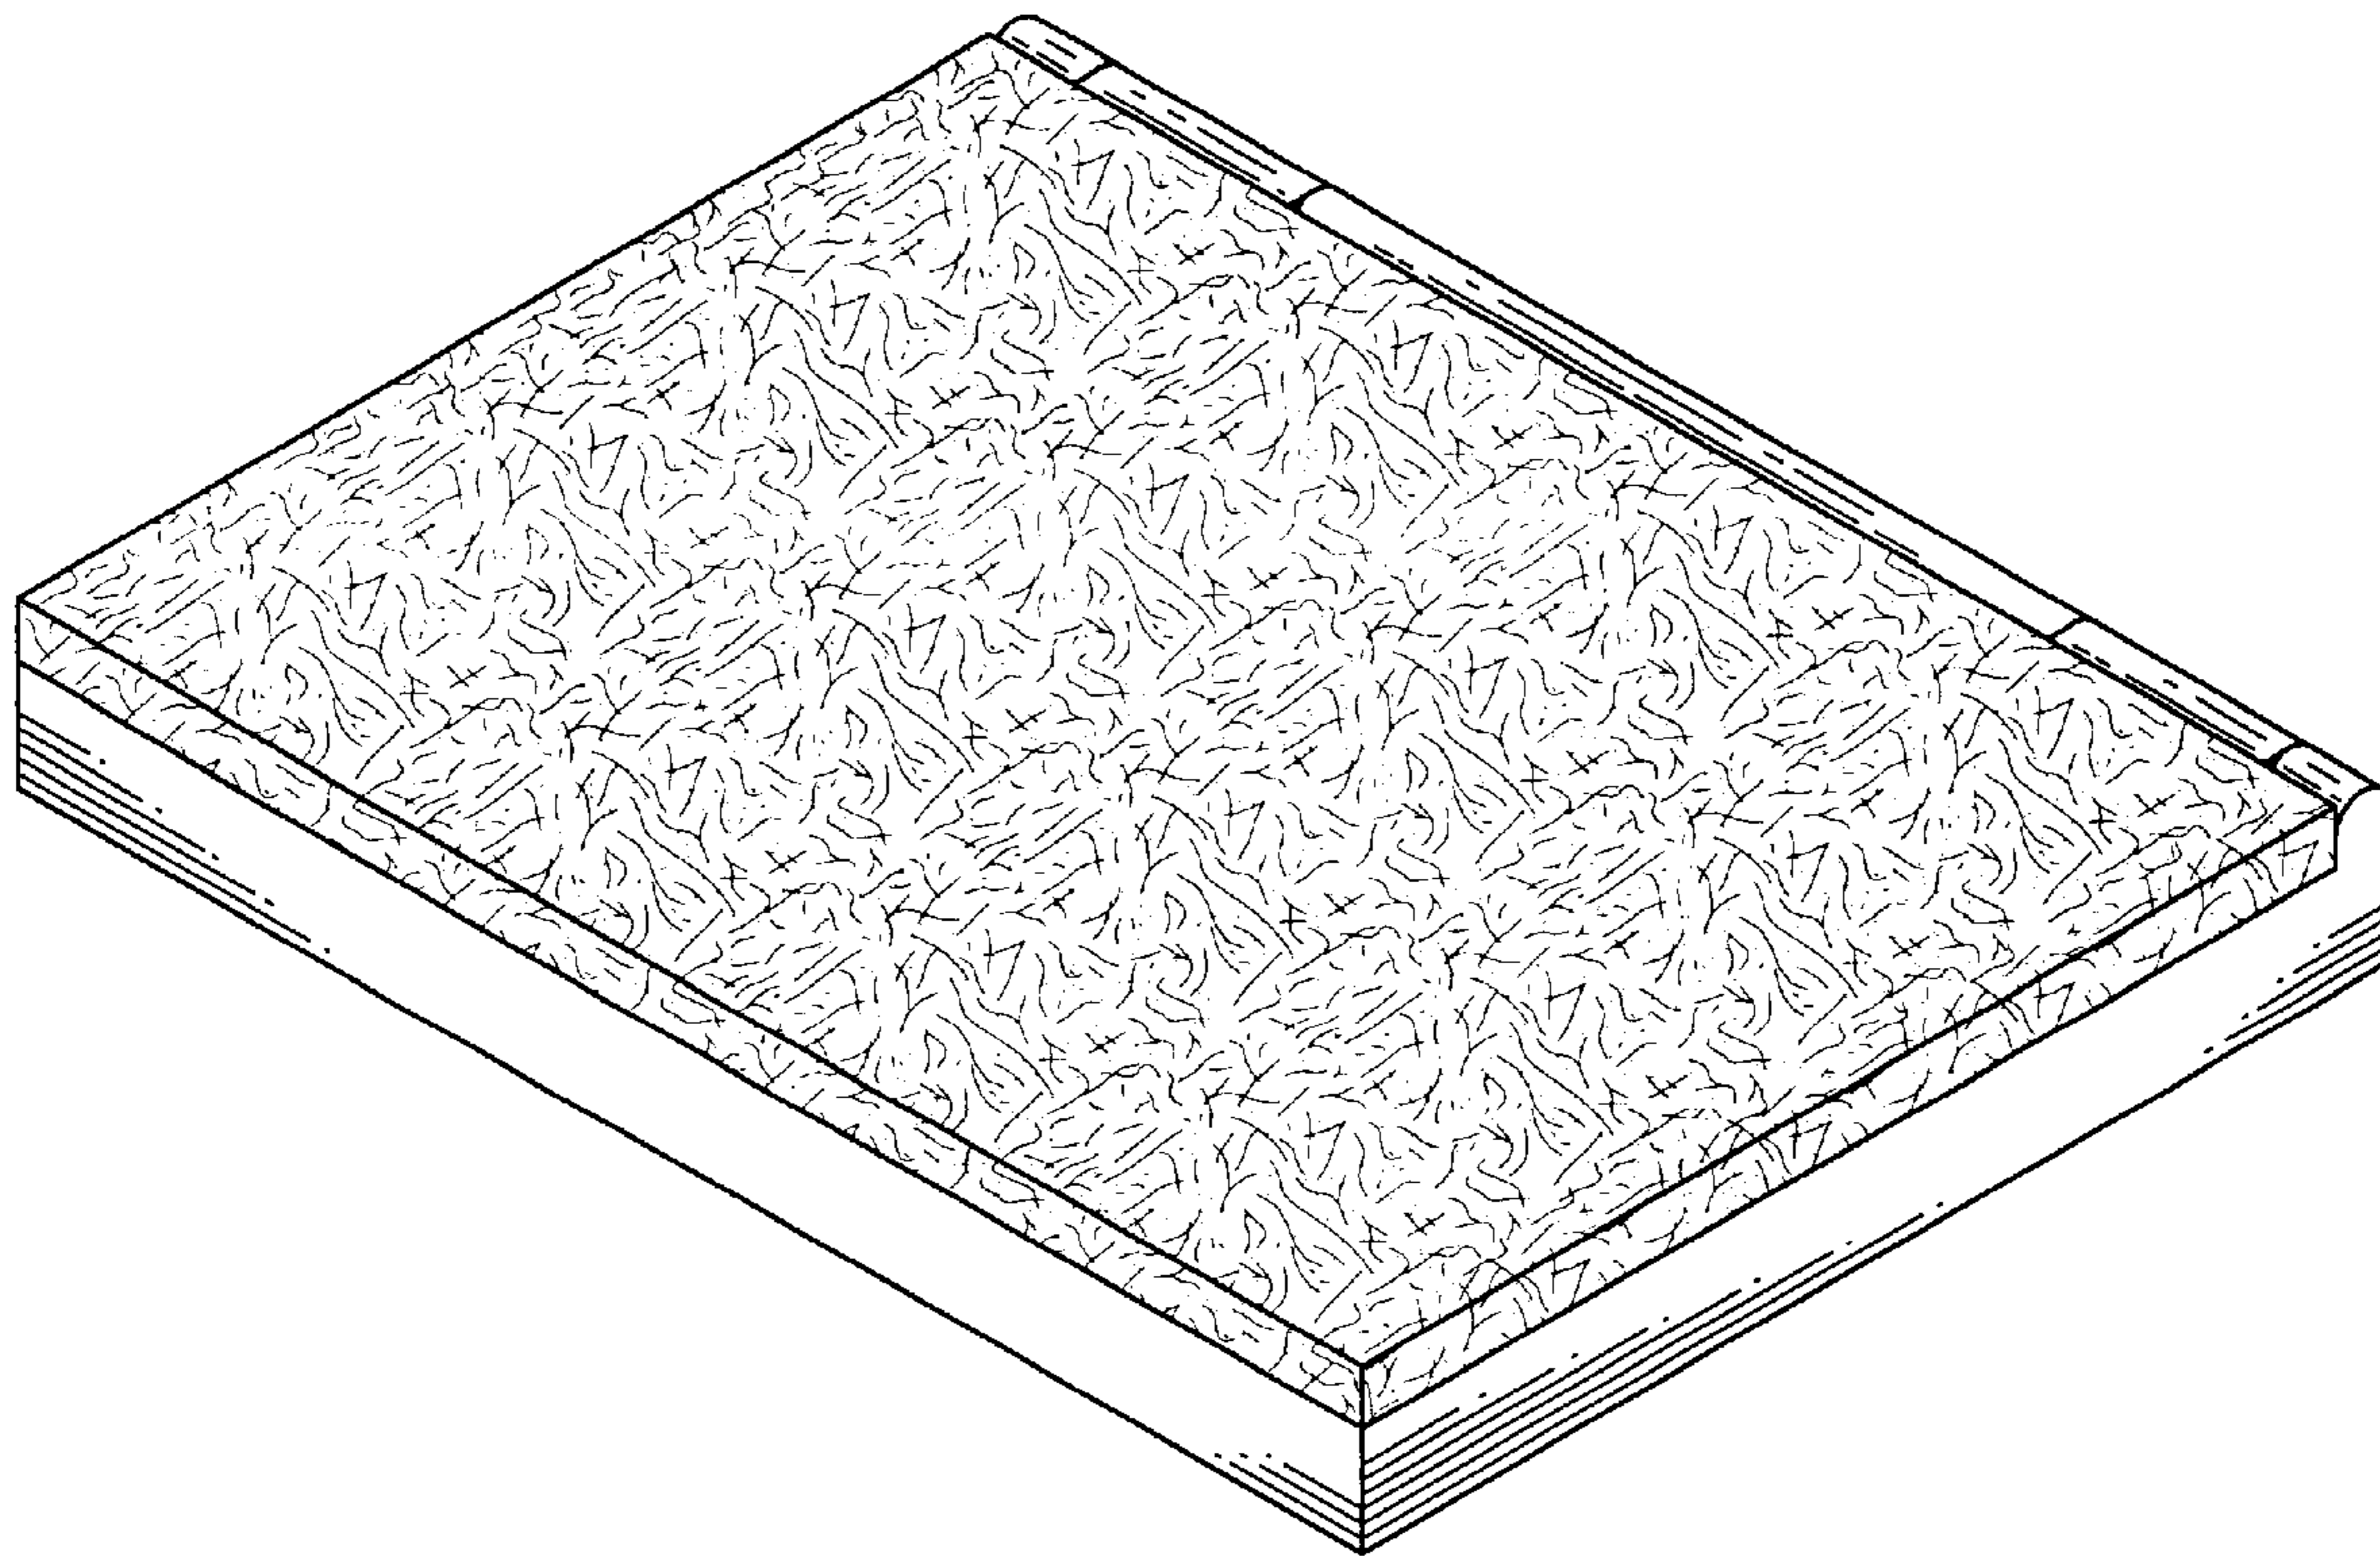

DESCRIPTION

FIG. 1 is a top front and right side perspective view of a portable computing device having a leather grain top, showing my new design, the undisclosed bottom and back side views are not being claimed as part of the design, the left side, being a mirror image of the right side, is also not shown;

FIG. 2 is a second embodiment of a portable computing device having a leather grain top, showing my new design, the undisclosed bottom and back side views are not being claimed as part of the design, the left side, being a mirror image of the right side, is also not shown; and,

FIG. 3 is a third embodiment of a portable computing device having a leather grain top, showing my new design, the undisclosed bottom and back side views are not being claimed as part of the design, the left side, being a mirror image of the right side, is also not shown.
