[57] **CLAIM**

The ornamental design for an end cap for a door exit device push pad, as shown and described.

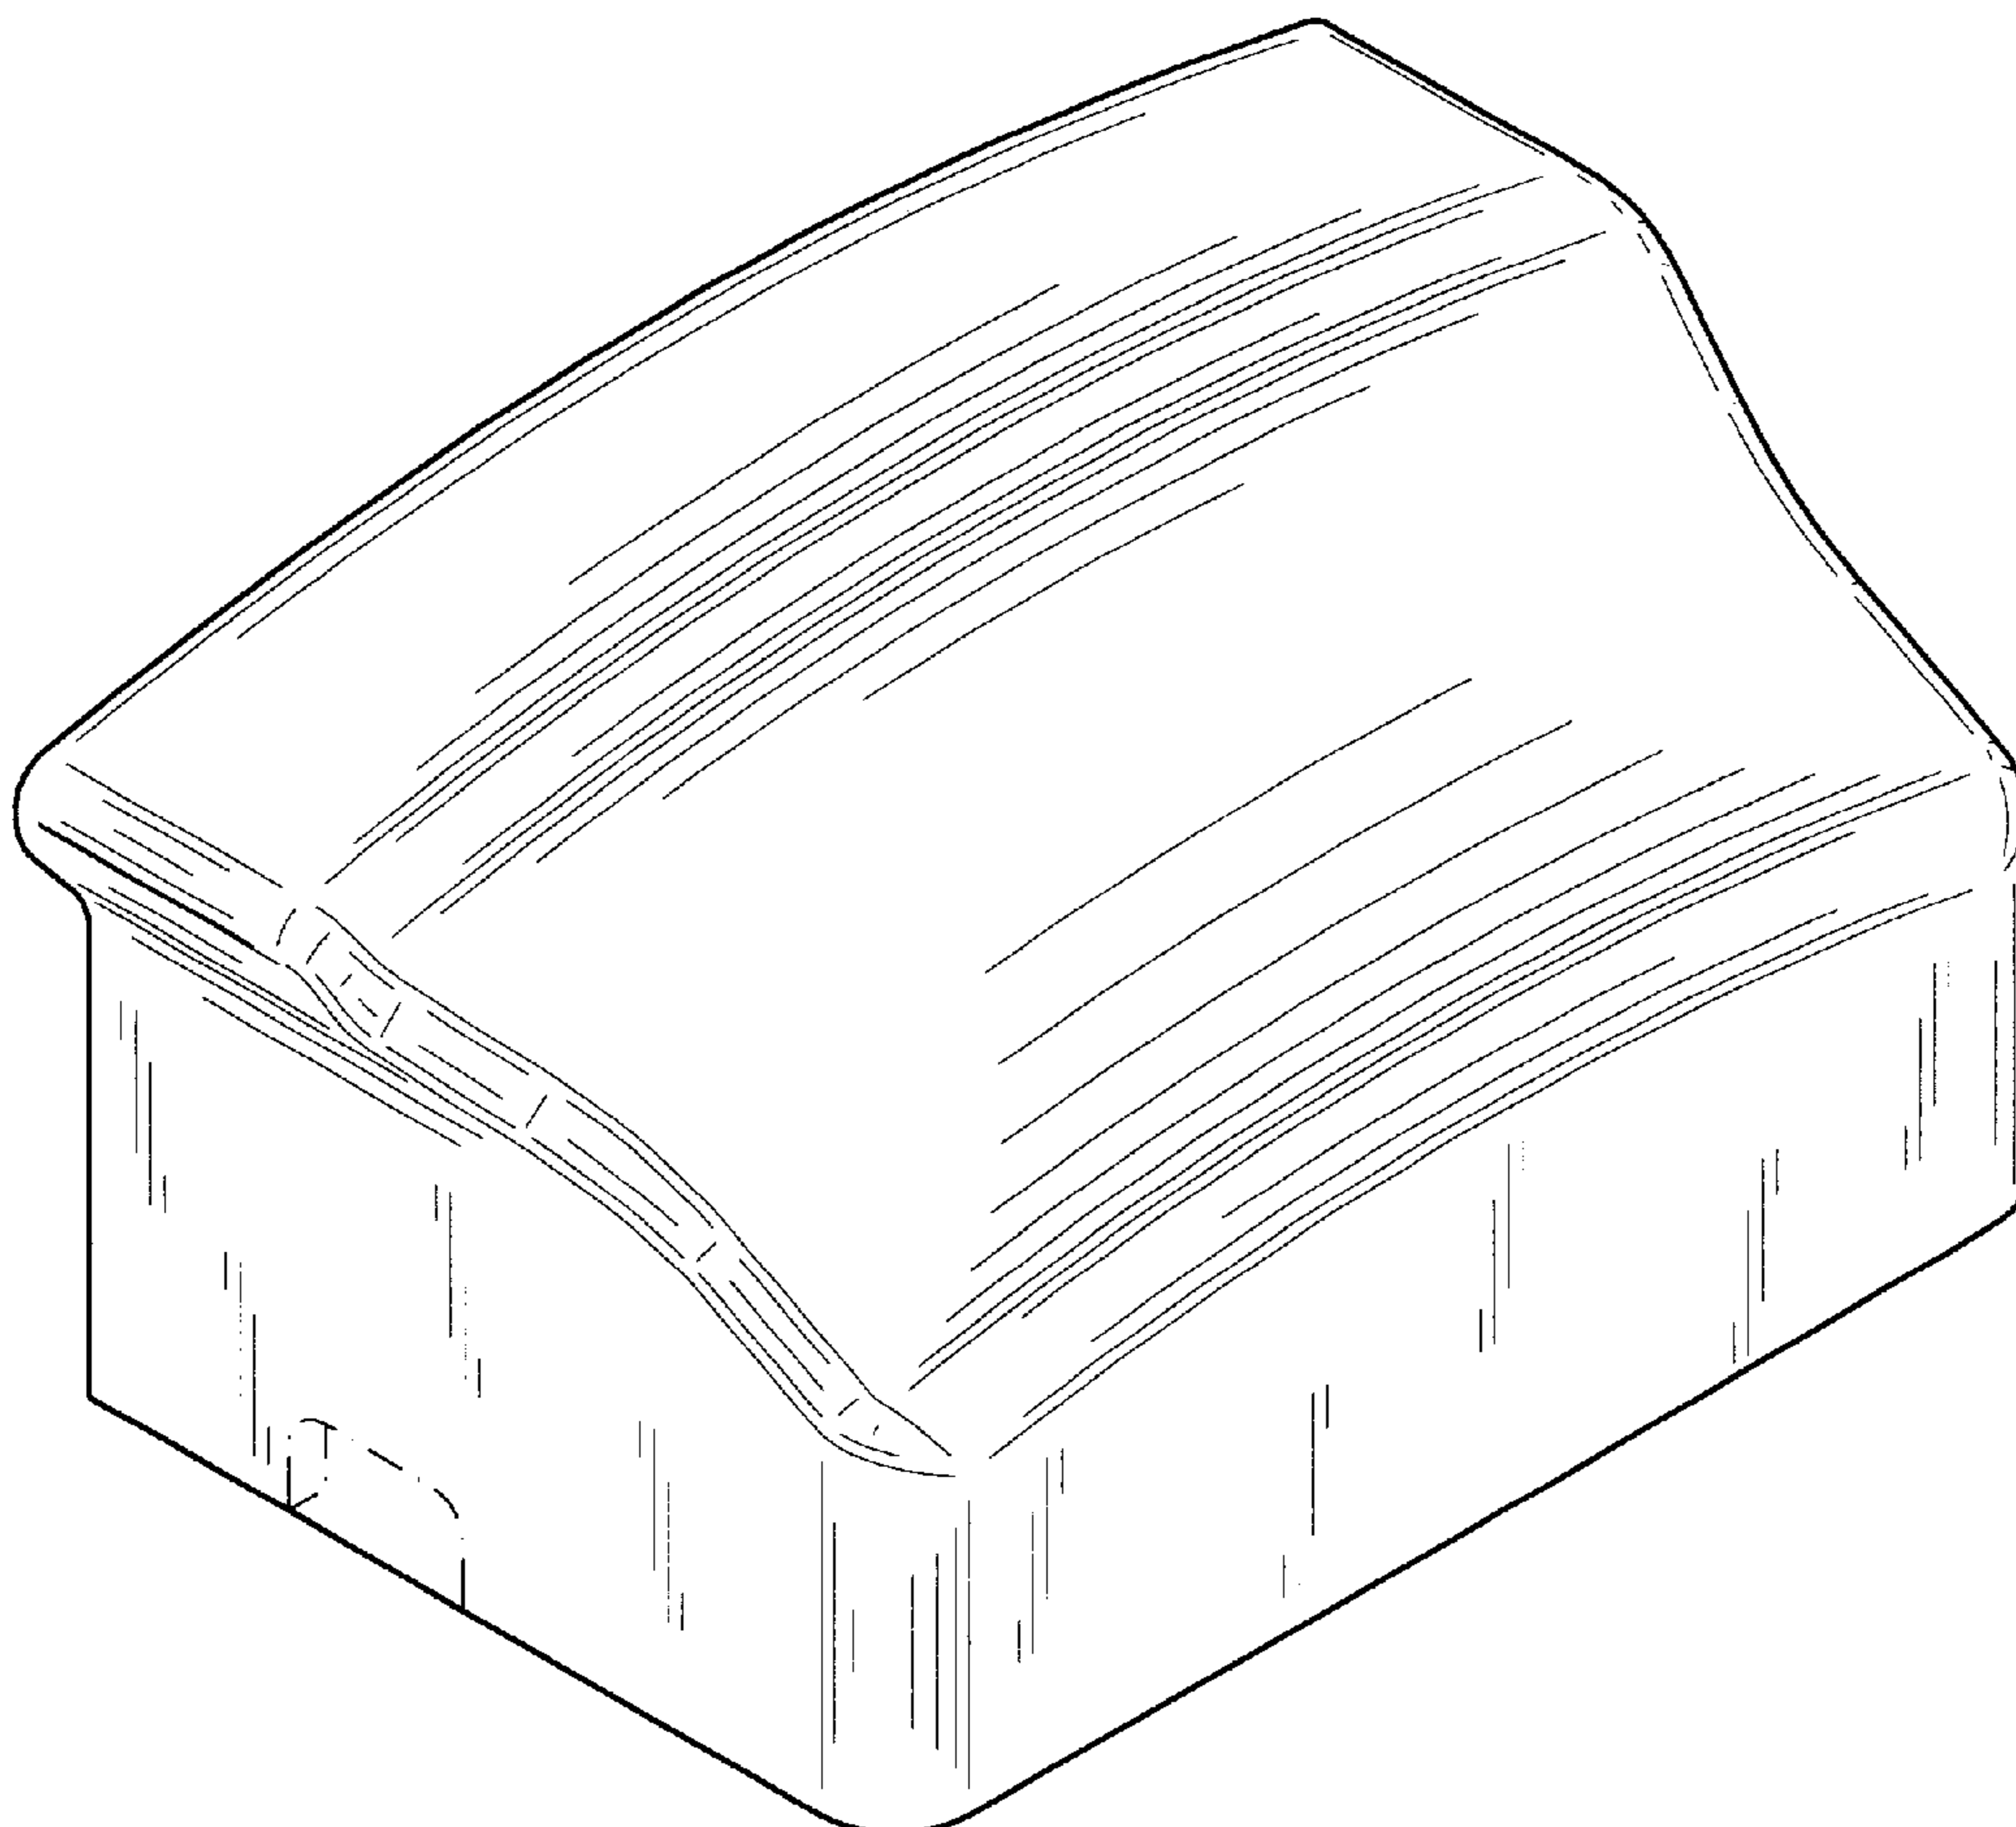

**DESCRIPTION**

FIG. 1 is a perspective view of an end cap for a door exit device push pad showing our new design; FIG. 2 is a front view of the design of an end cap for a door exit device push pad according to the present invention; FIG. 3 is a bottom view of the design of an end cap for a door exit device push pad according to the present invention, the top being a mirror image of the bottom; and, FIG. 4 is a right side view of the design of an end cap for a door exit device push pad according to the present invention.

The surface(s) or portion(s) of the article not shown in the drawing or described in the specification form(s) no part of the claimed design.

The broken line disclosure is for illustrative purposes only and forms no part of the claimed design.
