[57] CLAIM

The ornamental design for a three-way, mitered, drywall corner-trimming device, as shown and described.

DESCRIPTION

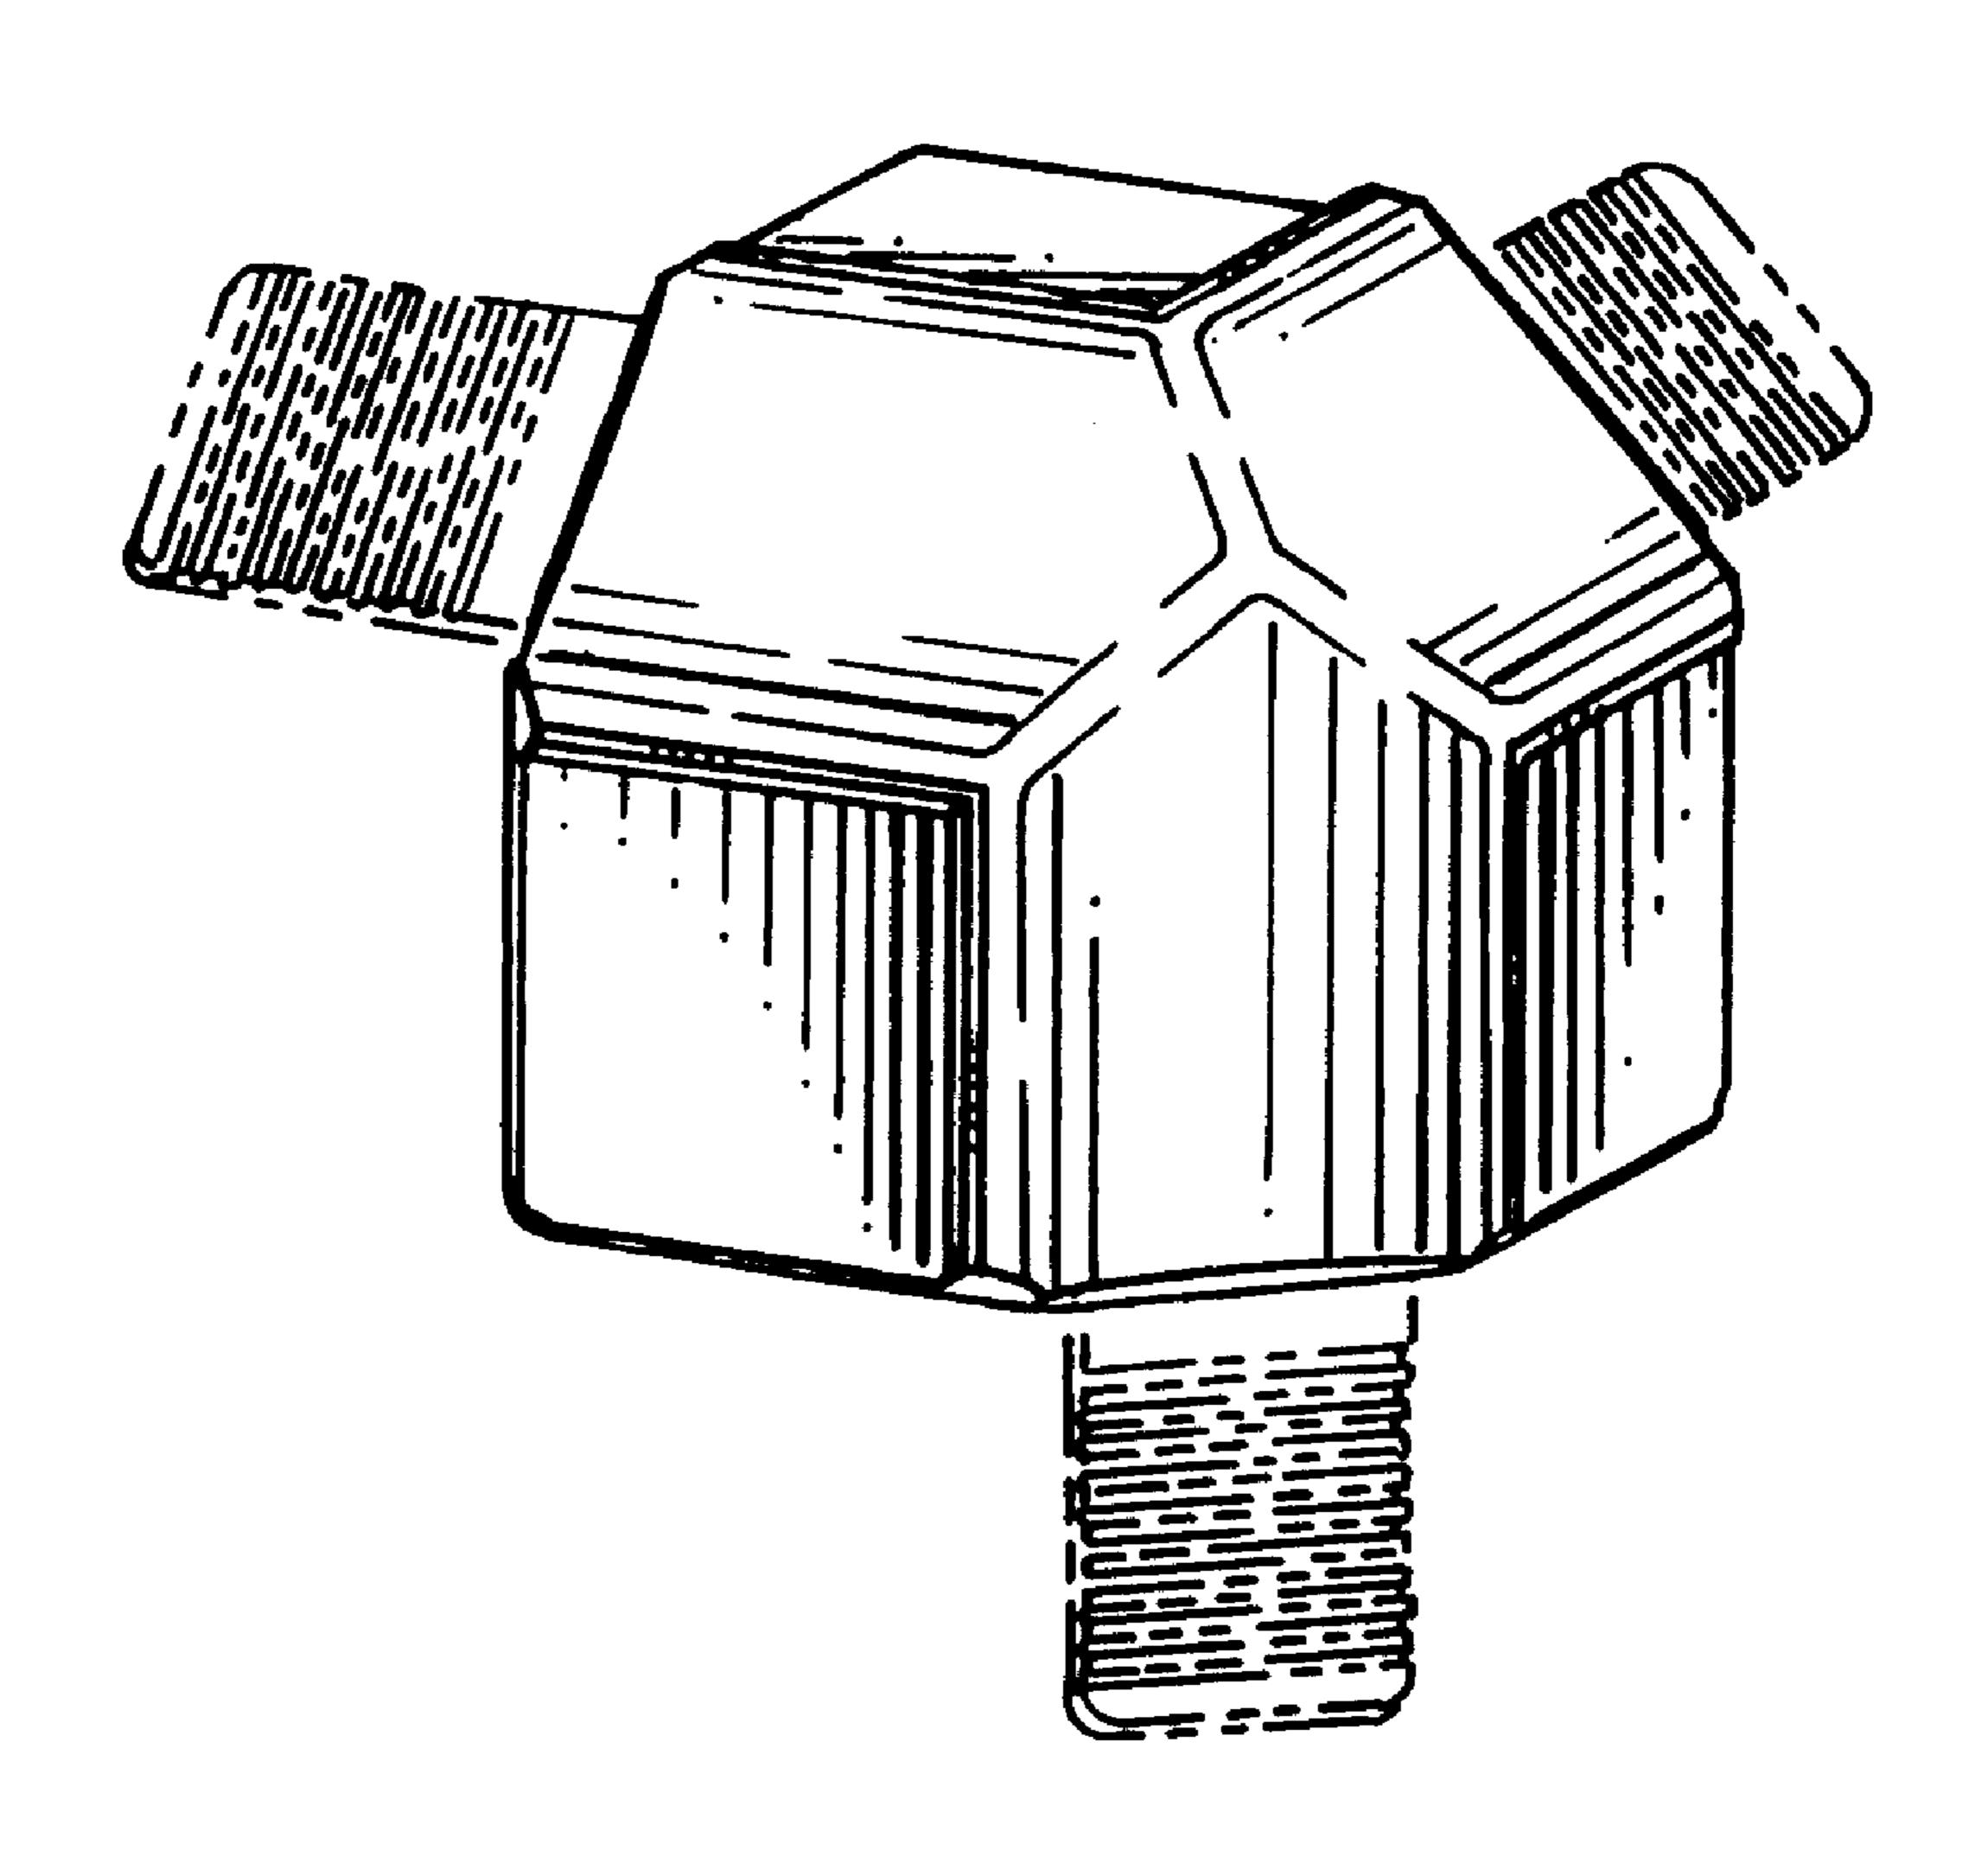

FIG. 1 is an exterior, perspective view of a three-way, mitered, drywall corner-trimming device, showing our new design;

FIG. 2 is an exterior, elevational view thereof, as seen along one of three mutually orthogonal axes, the exterior, elevational views thereof being identical but rotated, as seen along the other said axes; and,

FIG. 3 is an interior, elevational view thereof, as seen along one of three mutually orthogonal axes, the interior, elevational views thereof being identical but rotated, as seen along the other said axes.

Broken-line showings of tabs extending from the device are illustrative only and form no part of the claimed design.
