[57] **CLAIM**

The ornamental design for a lever-style for a door handle, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of the lever-sytle for a door handle in accordance with a first embodiment of the present invention.
FIG. **2** is a front elevational view of the first embodiment of the present invention.
FIG. **3** is a rear elevational view of the first embodiment of the present invention.
FIG. **4** is a top plan view of the first embodiment of the present invention.
FIG. **5** is a bottom plan view of the first embodiment of the present invention.
FIG. **6** is a right side elevational view of the first embodiment of the present invention.
FIG. **7** is a left side elevational view of the first embodiment of the present invention.
FIG. **8** is a perspective view of the lever-style for a door handle in accordance with a second embodiment of the present invention.
FIG. **9** is a front elevational view of the second embodiment of the present invention.
FIG. **10** is a rear elevational view of the second embodiment of the present invention.
FIG. **11** is a top plan view of the second embodiment of the present invention.
FIG. **12** is a bottom plan view of the second embodiment of the present invention.
FIG. **13** is a right side elevational view of the second embodiment of the present invention; and,
FIG. **14** is a left side elevational view of the second embodiment of the present invention.
