FIG. 5 is a bottom elevational view of the billiard ball holder of the present invention; and,

FIG. 6 is a top elevational view of the billiard ball holder of the present invention.

The right side elevational view shown in FIG. 4 is a mirror image of the left side and rear of the billiard ball holder of the present invention. Those elements that are shown in the above drawings in phantom lines do not form a part of the design sought to be patented. As shown in FIG. 1, the claimed billiard ball holder design may form a removable part of a billiard cue rack.
