[57] CLAIM

The ornamental design for a timepiece casing and bezel, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a timepiece casing and bezel showing our new design;

FIG. 2 is a left side elevational view thereof;

FIG. 3 is a front elevational view thereof;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a top plan view thereof;

FIG. 6 is a bottom plan view thereof;

FIG. 7 is a rear elevational view thereof; and,

FIG. 8 is a top plan view of a timepiece casing and bezel in accordance with an alternate embodiment of our invention.

The left side elevational, front elevational, right side elevational, bottom plan and rear elevational views are similar to those respective views illustrated in FIGS. 2, 3, 4, 6 and 7, except wherein in this alternate embodiment the three side ornamental features have been deleted and the six (6) push buttons have been depicted in broken lines for illustrative purposes only and form no part of the claimed design.
