DESCRIPTION

FIG. 1 is a top, front, and left side perspective view of a fuel dispenser interface showing our new design. FIG. 2 is a front elevational view thereof; and, FIG. 3 is a side elevational view thereof. The bottom, top and rear elevation views of the design are not shown and would not depict any aspect of the invention not already shown in the Figures.

The present Divisional Design Application comprises, essentially, an interface for fuel dispensers. The broken-line disclosure of a fuel dispenser and portions thereof in the views is for environmental purposes only and forms no part of the claimed design.
