[57] CLAIM

The ornamental design for a radio communication device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a radio communication device;
 FIG. 2 is a left side view of the radio communication device of FIG. 1;
 FIG. 3 is a front view of the radio communication device of FIG. 1;
 FIG. 4 is a bottom view of the radio communication device of FIG. 1;
 FIG. 5 is a top view of the radio communication device of FIG. 1;
 FIG. 6 is a right side view of the radio communication device of FIG. 1;
 FIG. 7 is a rear view of the radio communication device of FIG. 1;
 FIG. 8 is a bottom, right and front perspective view of the portable radio communication device shown in FIG. 1 without the broken line showings;
 FIG. 9 is a left side elevational view of the portable radio communication device shown in FIG. 1 without the broken line showings;
 FIG. 10 is a top elevational view of the portable radio communication device shown in FIG. 1 without the broken line showings; and,
 FIG. 11 is a rear elevational view of the portable radio communication device shown in FIG. 1 without the broken line showings.

The broken line matter shown in FIGS. 1-7 is for illustrative purposes only and forms no part of the claimed design.
