### [57] CLAIM

The ornamental design for an electronic still camera face, as shown and described.

### DESCRIPTION

FIG. 1 is a front perspective view of an electronic still camera face showing the new design, with the broken lines being for illustrative purposes only and forming no part of the claimed design;

FIG. 2 is a front view thereof;

FIG. 3 is a rear view thereof;

FIG. 4 is a top view thereof;

FIG. 5 is a bottom view thereof;

FIG. 6 is a left side view thereof;

FIG. 7 is a right side view thereof;

FIG. 8 is a front referential perspective view thereof where the electronic still camera face has been equipped with a stroboscope;

FIG. 9 is a rear referential perspective view thereof where the electronic still camera face has been equipped with a stroboscope;

FIG. 10 is a front referential perspective view thereof where the electronic still camera face has been equipped with an adapter;

FIG. 11 is a rear referential perspective view thereof where the electronic still camera face has been equipped with an adapter; and,

FIG. 12 is a front referential perspective view thereof where the electronic still camera face has been equipped with an adapter and stroboscope.

The broken line showing of a stroboscope and adapter is for illustrative purposes only and forms no part of the claimed design.
