[57] **CLAIM**

The ornamental design for a facade for a paper-making machine, as shown and described.

**DESCRIPTION**

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawing(s) will be provided by the Patent and Trademark Office upon request and payment of the necessary fee.

FIG. 1 is a perspective view of a facade for a paper-making machine, taken from the front and left sides thereof, showing our new design;

FIG. 2 is an enlarged perspective view thereof, showing the left side of our design of a facade for a paper-making machine and the left portion of the front side of our design of a facade for a paper-making machine;

FIG. 3 is an enlarged perspective view thereof, showing the left portion of the front side of our design of a facade for a paper-making machine;

FIG. 4 is an enlarged perspective view thereof, showing a part of an intermediate portion of the front side of our design of a facade for a paper-making machine;

FIG. 5 is an enlarged perspective view thereof, showing a part of a right portion of the front side of our design of a facade for a paper-making machine;

FIG. 6 is an enlarged perspective view thereof, showing a part of another intermediate portion of the front side of our design of a facade for a paper-making machine;

FIG. 7 is an enlarged perspective view thereof, taken from the front and right sides of our design of a facade for a paper-making machine; and,

FIG. 8 is an enlarged perspective view thereof, showing the right side of our design of a facade for a paper-making machine and the right portion of the front side of our design of a facade for a paper-making machine.

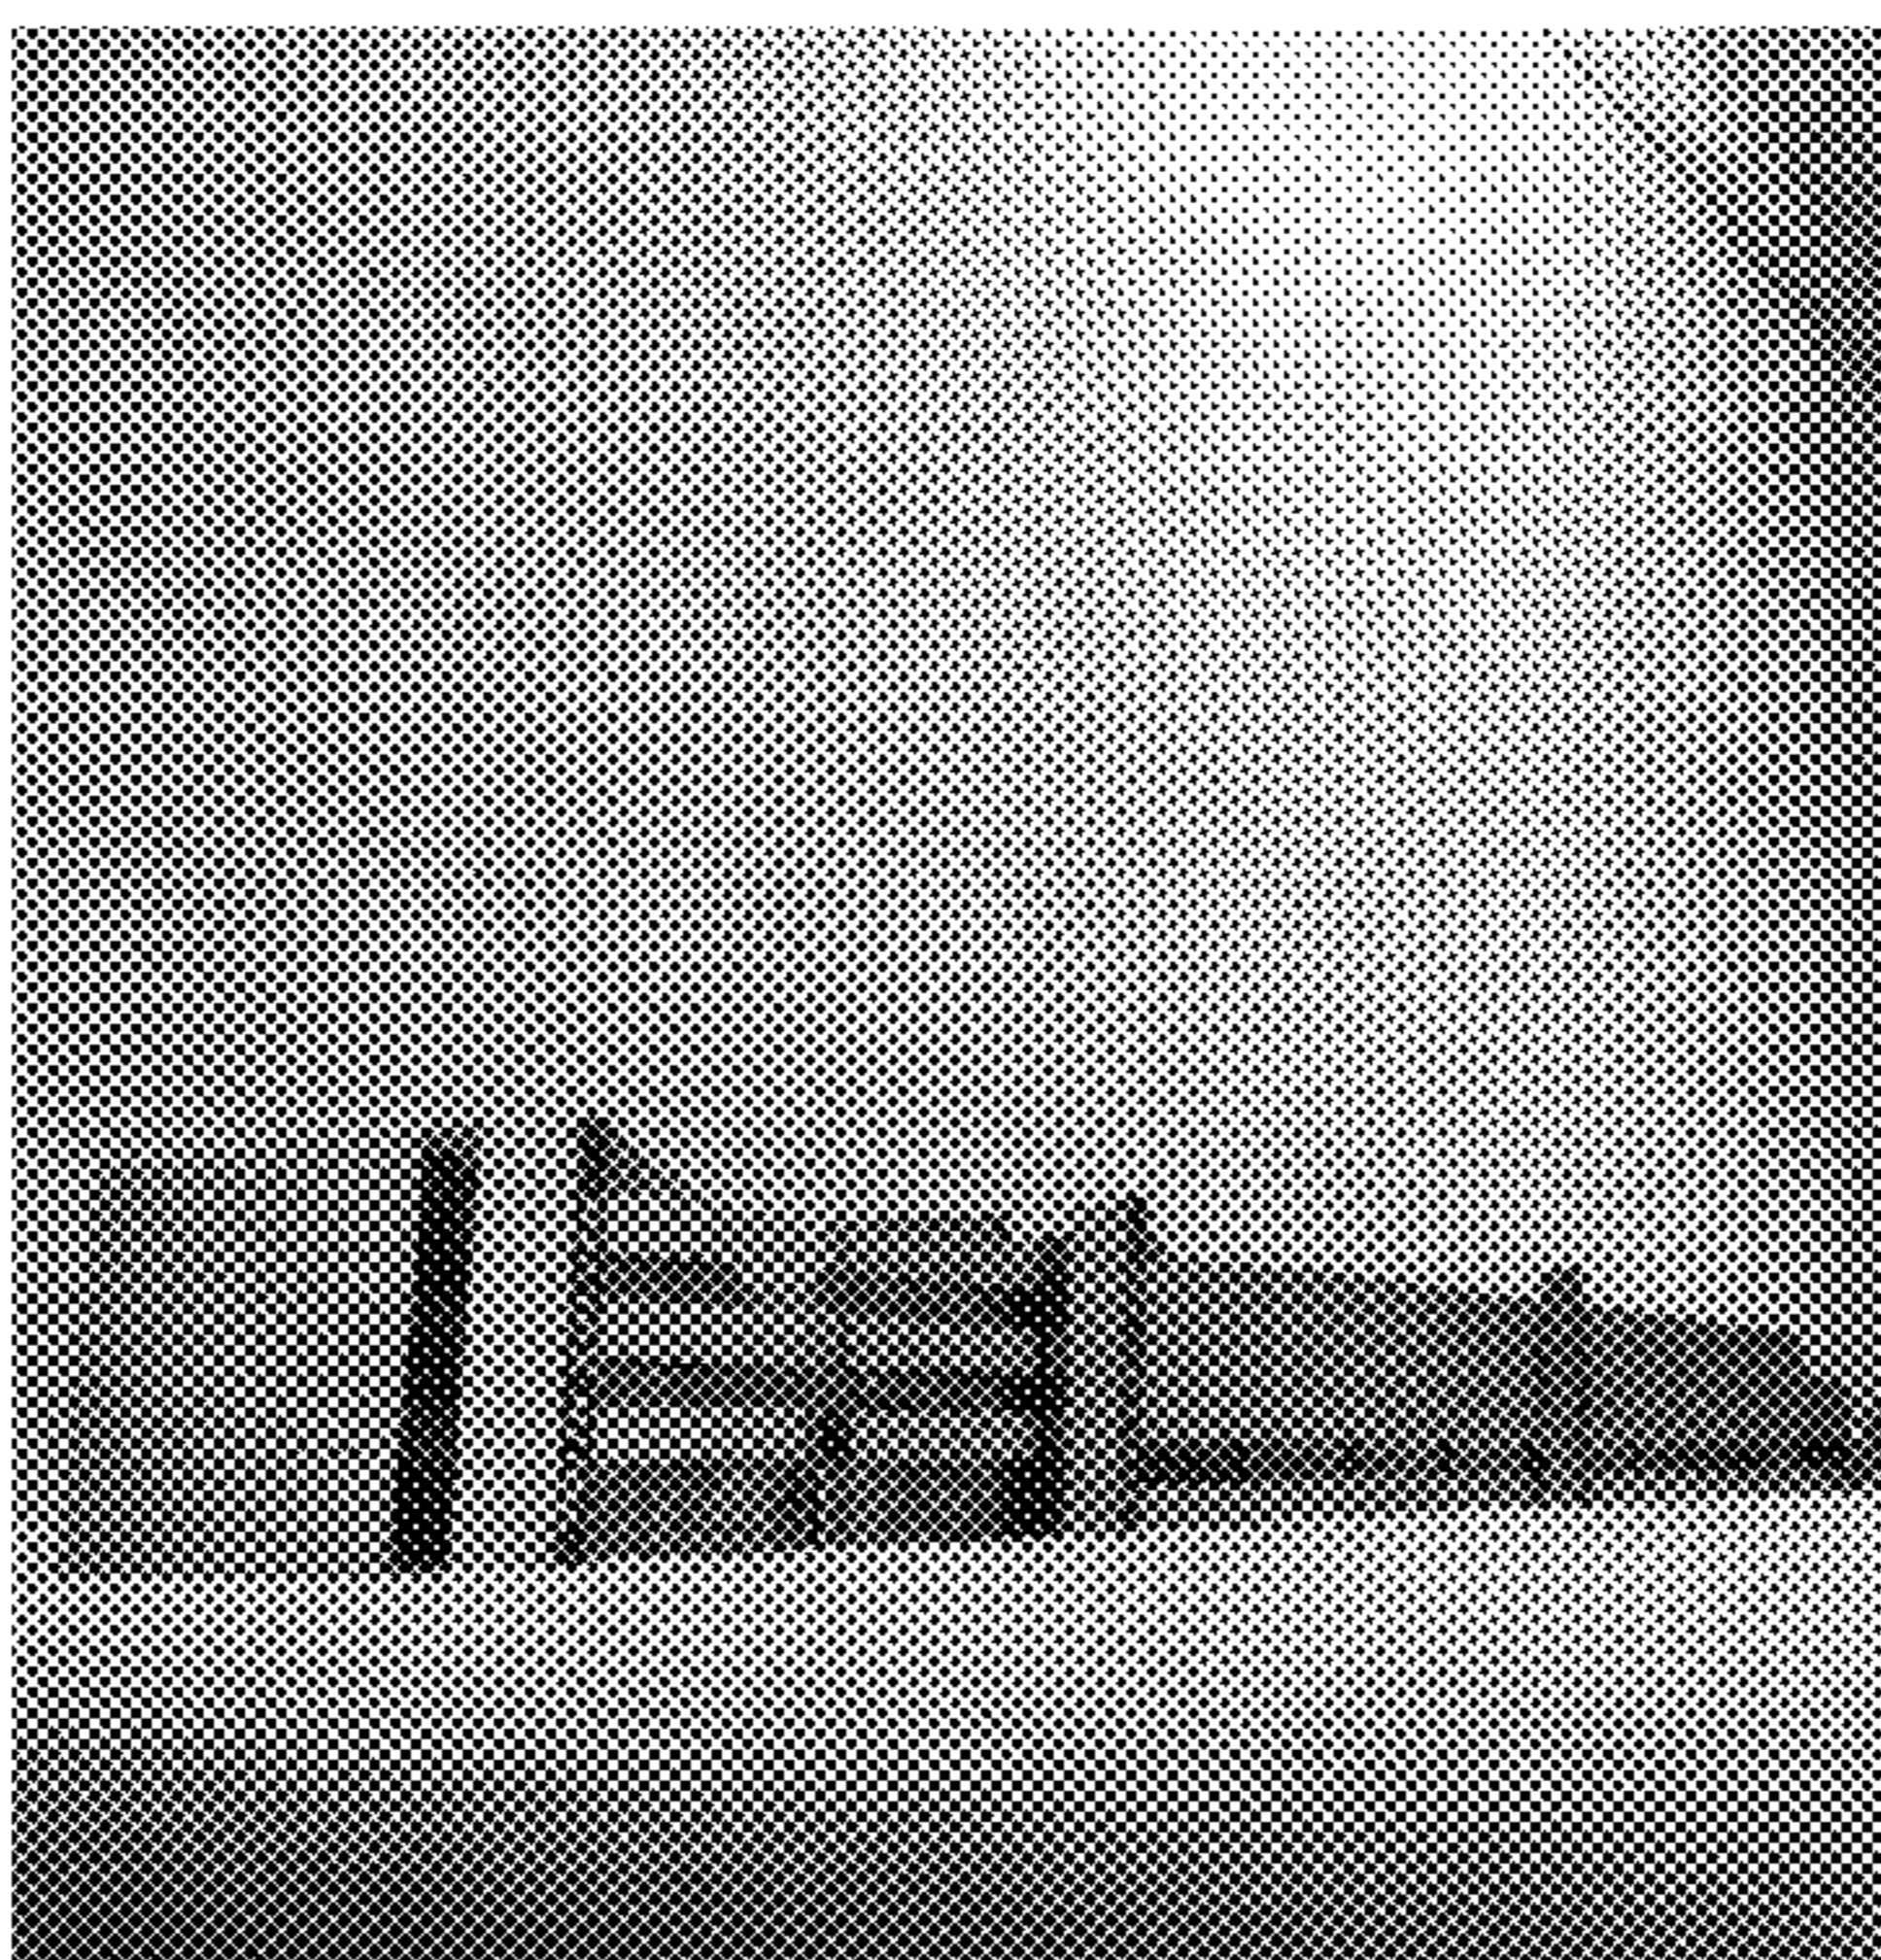

The top, bottom, and rear of our design of a facade for a paper-making machine, to the extent not shown in the photographs above, are not to be considered a part of the claimed design.

All shapes and contrasts that are visible through the transparent windows of our design of a facade for a paper-making machine is not to be considered a part of the claimed design. All rollers and roller supporting structure that is visible behind the front side of our design of a facade for a paper-making machine shown in FIGS. 7 and 8, is not to be considered a part of the claimed design.

All surface indicia, including the words “VOITH SULZER”, that is visible in our design of a facade for a paper-making machine is not to be considered a part of the claimed design.
