[57] **CLAIM**

The ornamental design for a retractable desk, as shown and described.

FIG. 1 is a front perspective view of the retractable desk of the present invention with accompanying work surface in the opened position and accompanying bottom doors in the closed position;

FIG. 2 is a front elevational view thereof with accompanying work surface in the opened position and accompanying bottom doors in the closed position;

FIG. 3 is a right side elevational view thereof with accompanying work surface in the opened position and accompanying bottom doors in the closed position, the left side being a mirror image thereof;

FIG. 4 is a top plan view thereof with accompanying work surface in the opened position and accompanying bottom doors in the closed position;

FIG. 5 is a bottom plan view thereof with accompanying work surface in the opened position and accompanying bottom doors in the closed position;

FIG. 6 is a front elevational view thereof with accompanying work surface and bottom doors in the closed position;

FIG. 7 is a right side elevational view thereof with accompanying work surface and bottom doors in the closed position, the left side being a mirror image thereof;

FIG. 8 is a top plan view thereof with accompanying work surface and bottom doors in the closed position;

FIG. 9 is a bottom plan view thereof with accompanying work surface and bottom doors in the closed position; and,

FIG. 10 is a bottom perspective view thereof with accompanying work surface and bottom doors in the opened position.

The surface(s) or portion(s) of the article not shown in the drawing or described in the specification form(s) no part of the claimed design.

The broken lines shown are for illustrative purposes only and form no part of the claimed design.
