[57] CLAIM

The ornamental design for a door for refrigerators and freezers, as shown and described.

DESCRIPTION

A first embodiment of a door for refrigerators and freezers is illustrated in the attached drawings:

FIG. 1 is a perspective view of the subject door;

FIG. 2 is a front view of the door of FIG. 1;

FIG. 3 is a top view thereof;

FIG. 4 is a bottom view thereof; and,

FIGS. 5 through 8 are perspective, front, top, and bottom similar views to FIGS. 1–4, respectively, illustrating a second embodiment when applied to 2-door refrigerators and further illustrating a handle assembly.

As illustrated in the figures above, the door is mounted onto refrigerators or freezers, the cabinets of which are represented in phantom, so the rear of the door is not visible and does not form part of the design.
