(57) **CLAIM**

We claim the ornamental design for a platen for a printing machine, as shown and described.

DESCRIPTION

FIG. 1 is a perspective top view of a platen for a printing machine showing an embodiment of our new design having four recessed areas along front and rear edges;

FIG. 2 is a front view thereof the rear view being identical; FIG. 3 is a left side view thereof the right side view being identical;

FIG. 4 is a top view thereof the bottom view being identical; FIG. 5 is a perspective top view of second embodiment of FIG. 1 having four recessed areas along left and right side edges; and,

FIG. 6 is a perspective top view of a third embodiment of FIG. 1 having two recessed areas along a front edge.
