(57) **CLAIM**

The ornamental design for an omni-directional camera, as shown and described.

**DESCRIPTION**

The camera design disclosed herein includes an imaging unit, a reflector for providing an omni-directional view to the imaging unit and a housing for mounting and supporting the reflector and providing an arm supporting the imaging unit in an appropriate position and orientation over the reflector. FIG. 1 is a side elevational view of an omni-directional camera showing my new design, the undisclosed opposite view being a mirror image; FIG. 2 is a front elevational view thereof; FIG. 3 is a rear elevational view thereof; FIG. 4 is a top plan view thereof; FIG. 5 is a bottom plan view thereof; FIG. 6 is a top perspective view thereof; and, FIG. 7 is a bottom perspective view thereof.

The broken line showing of the interior underside of the omni-directional camera shown in FIGS. 5 and 7 is for environmental purposes only and forms no part of the claimed design.
