(57) **CLAIM**

The ornamental design of a lighting control, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevational view of the first embodiment of

a lighting control of the design according to the invention (a faceplate, which does not form part of the invention, is shown in phantom);

FIG. 2 is a top plan view of the lighting control of FIG. 1 (a faceplate and back cover, which do not form part of the invention, are shown in phantom);

FIG. 3 is a bottom plan view of the lighting control of FIG. 1 (a faceplate and back cover, which do not form part of the invention, are shown in phantom);

FIG. 4 is a left side elevational view of the lighting control of FIG. 1 (a faceplate and back cover, which do not form part of the invention, are shown in phantom);

FIG. 5 is a right side elevational view of the lighting control of FIG. 1 (a faceplate and back cover, which do not form part of the invention, are shown in phantom);

FIG. 6 is an isometric projection of the lighting control of FIG. 1 (a faceplate, which does not form part of the invention, is shown in phantom);

FIG. 7 is a front elevational view of the second embodiment of a lighting control of the design according to the invention (a faceplate, which does not form part of the invention, is shown in phantom); and,

FIG. 8 is an isometric projection of the lighting control of FIG. 7 (a face plate, which does not form part of the invention, is shown in phantom);

The top plan view, bottom plan view, left side elevational view, and the right side elevational view of the lighting control of FIG. 7 are the same as FIG. 2, FIG. 3, FIG. 4, and FIG. 5 respectively;

The rear part of each of the foregoing embodiments does not constitute part of the invention and, therefore, has been omitted from the drawings.
