(57) **CLAIM**

The ornamental design for an accessory adapter for radio communication device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an accessory adapter for radio communication device;
 FIG. 2 is a top view of the accessory adapter for radio communication device of FIG. 1;
 FIG. 3 is a rear view of the accessory adapter for radio communication device of FIG. 1;
 FIG. 4 is a left side view of the accessory adapter for radio communication device of FIG. 1;
 FIG. 5 is a front view of the accessory adapter for radio communication device of FIG. 1;
 FIG. 6 is a right side view of the accessory adapter for radio communication device of FIG. 1; and,
 FIG. 7 is a bottom view of the accessory adapter for radio communication device of FIG. 1.
 The broken line matter shown superimposed on continuous surfaces in FIGS. 1-7 is for illustrative purposes only and forms no part of the claimed design.
