(57) **CLAIM**

The ornamental design for a stick with detachable jointed elements which form a human skeleton for frozen confectionery product, as shown and described.

DESCRIPTION

FIG. 1 shows a front perspective view of a first embodiment of the stick with detachable jointed elements which form a human skeleton for frozen confectionery product, showing a skull and rib, the rear perspective view being a mirror image; FIG. 2 shows a rear perspective view of FIG. 1; FIG. 3 shows a front perspective view of a second embodiment of the design, showing the bones of a left arm and shoulder blade (the rear perspective view being a mirror image); FIG. 4 shows a rear perspective view of FIG. 3; FIG. 5 shows a front perspective view of a third embodiment of the design, showing the bones of a right arm and shoulder (the rear perspective view being a mirror image); FIG. 6 shows a rear perspective view of FIG. 5; FIG. 7 shows a front perspective view of a fourth embodiment of the design, showing the bones of a left leg from the foot to the knee (the rear perspective view being a mirror image); FIG. 8 shows a rear perspective view of FIG. 7; FIG. 9 shows a front perspective view of a fifth embodiment of the design, showing the bones of a left leg from the foot to the knee (the rear perspective view being a mirror image); FIG. 10 shows a rear perspective view of FIG. 9; FIG. 11 shows a front perspective view of a sixth embodiment of the design, showing a spinal column (the rear perspective view being a mirror image); FIG. 12 shows a rear perspective view of FIG. 11; FIG. 13 shows a front perspective view of a seventh embodiment of the design, showing pelvis and right femur (the rear perspective view being a mirror image); FIG. 14 shows a rear perspective view of FIG. 13; FIG. 15 shows a front perspective view of an eighth embodiment of the design, showing a rib and left femur (the rear perspective view being a mirror image); FIG. 16 shows a rear perspective view of FIG. 15; FIG. 17 shows a front perspective view of a ninth embodiment of the design, showing clavicles and a rib (the rear perspective view being a mirror image); FIG. 18 shows a rear perspective view of FIG. 17; FIG. 19 shows a front perspective view of a tenth embodiment of the design, showing three ribs (the rear perspective view being a mirror image); and, FIG. 20 shows a rear perspective view of FIG. 19.
