(57) **CLAIM**

The ornamental design for a car dash ornament, as shown and described.

**DESCRIPTION**

FIG. 1 is a top, front and side perspective view of a car dash ornament showing my new design;

FIG. 2 is a right-side elevational view thereof;

FIG. 3 is a front elevational view thereof;

FIG. 4 is a left-side elevational view thereof;

FIG. 5 is a rear elevational view thereof; and,

FIG. 6 is a top elevational view thereof taken along lines 6—6 of FIG. 3.

The present application is directed to the design illustrated in the drawings. The broken line portions of the disclosure are for illustrative purposes only and form no part of the claimed design.

The design is not intended to be limited to the particular design for the boots, other than to show that one is bigger than the other.

The bottom view of the design is not a matter of ornamental concern because the bottom view is obstructed by the surface upon which the ornament is positioned. Accordingly, this view has been omitted.
