The ornamental design for a double wall slide with integrally formed footing, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view showing the top, front and left side of our new design for a double wall slide with integrally formed footing according to the present design.

FIG. 2 is a right side elevational view of the double wall slide with integrally formed footing of FIG. 1, the opposite side of which is a mirror image;

FIG. 3 is a left side elevational view of the double wall slide with integrally formed footing of FIG. 1.

FIG. 4 is a front elevational view of double wall slide with integrally formed footing of FIG. 1.

FIG. 5 is a rear elevational view of double wall slide with integrally formed footing of FIG. 1.

FIG. 6 is a top plan view of the double wall slide with integrally formed footing of FIG. 1; and,

FIG. 7 is a bottom plan view of the double wall slide with integrally formed footing of FIG. 1.

The broken lines of the double wall slide with integrally formed footing are for illustrative purposes, and form no part of the claimed design.
