(57) **CLAIM**

The ornamental design for a communication interface cover, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view, from the front and above, of a communication interface cover in accordance with the present invention.

FIG. 2 is a front elevational view of the communication interface cover of FIG. 1.

FIG. 3 is a top plan view of the communication interface cover of FIG. 1.

FIG. 4 is a rear elevational view of the communication interface cover of FIG. 1.

FIG. 5 is a bottom plan view of the communication interface cover of FIG. 1.

FIG. 6 is a left side elevational view of the communication interface cover of FIG. 1.

FIG. 7 is a right side elevational view of the communication interface cover of FIG. 1.

FIG. 8 is an isometric view, from the front and above, of an alternative embodiment of the communication interface cover in accordance with the present invention.

FIG. 9 is a front elevational view of the communication interface cover of FIG. 8.

FIG. 10 is a top plan view of the communication interface cover of FIG. 8.

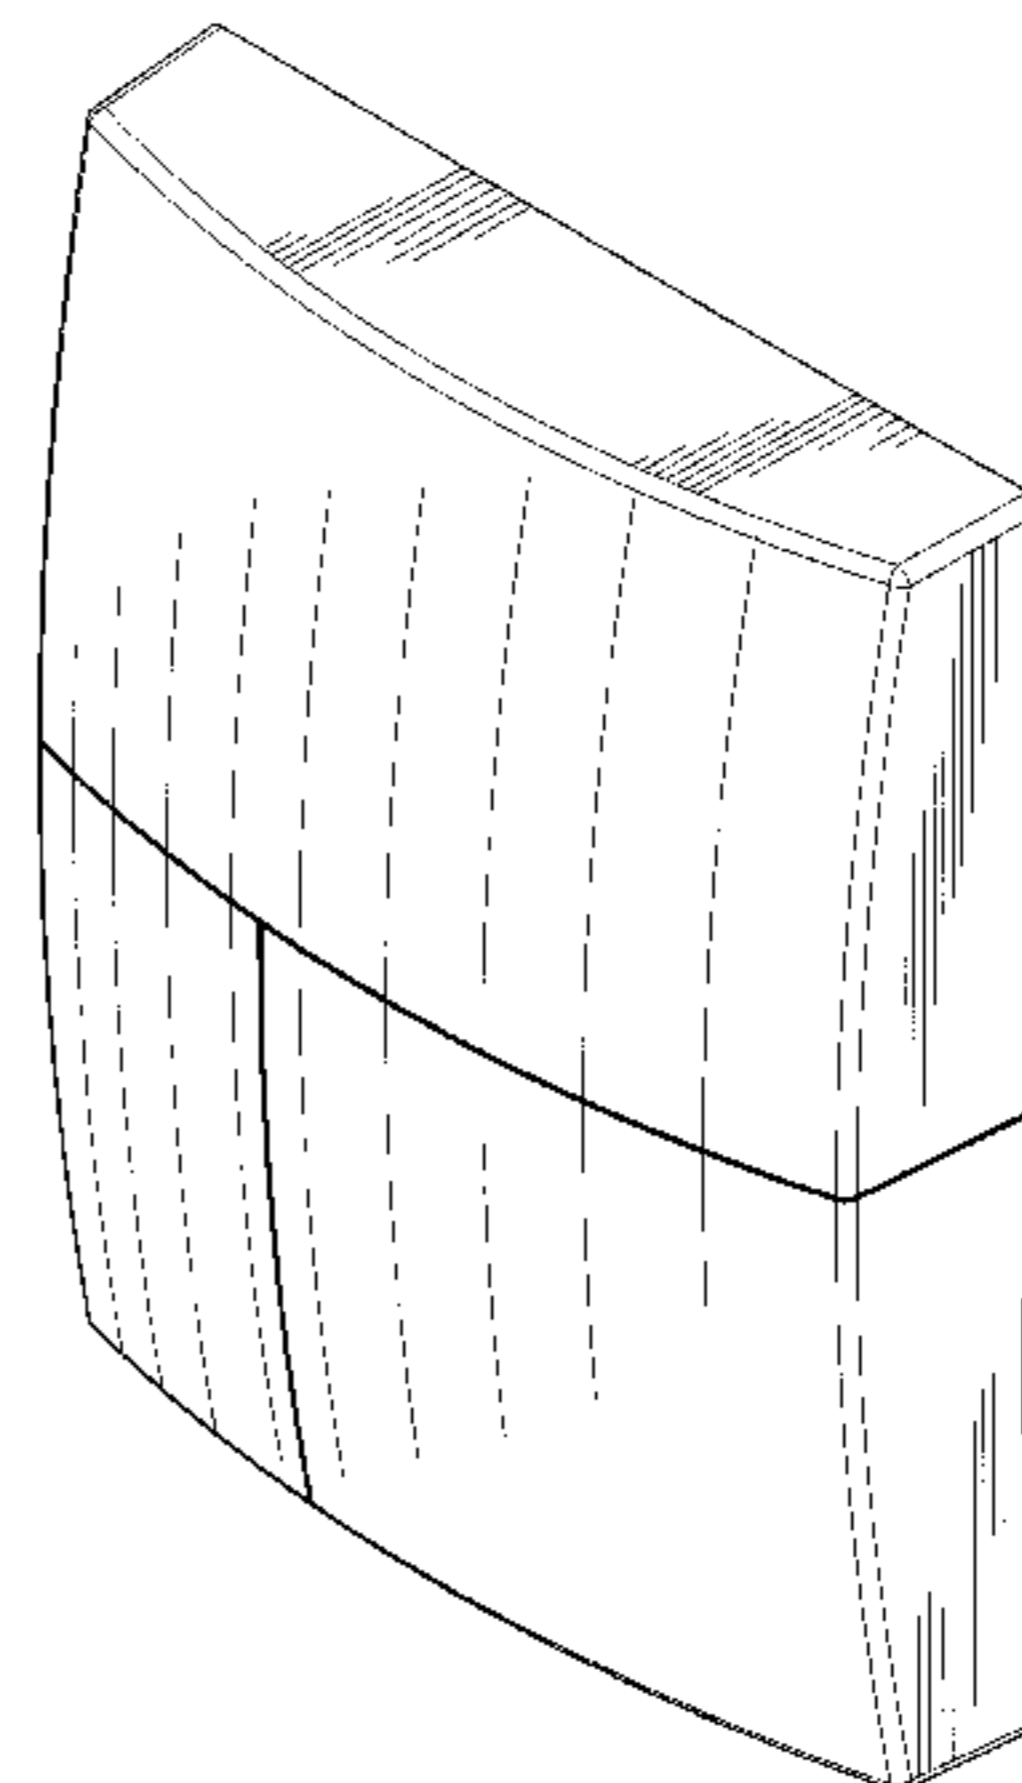

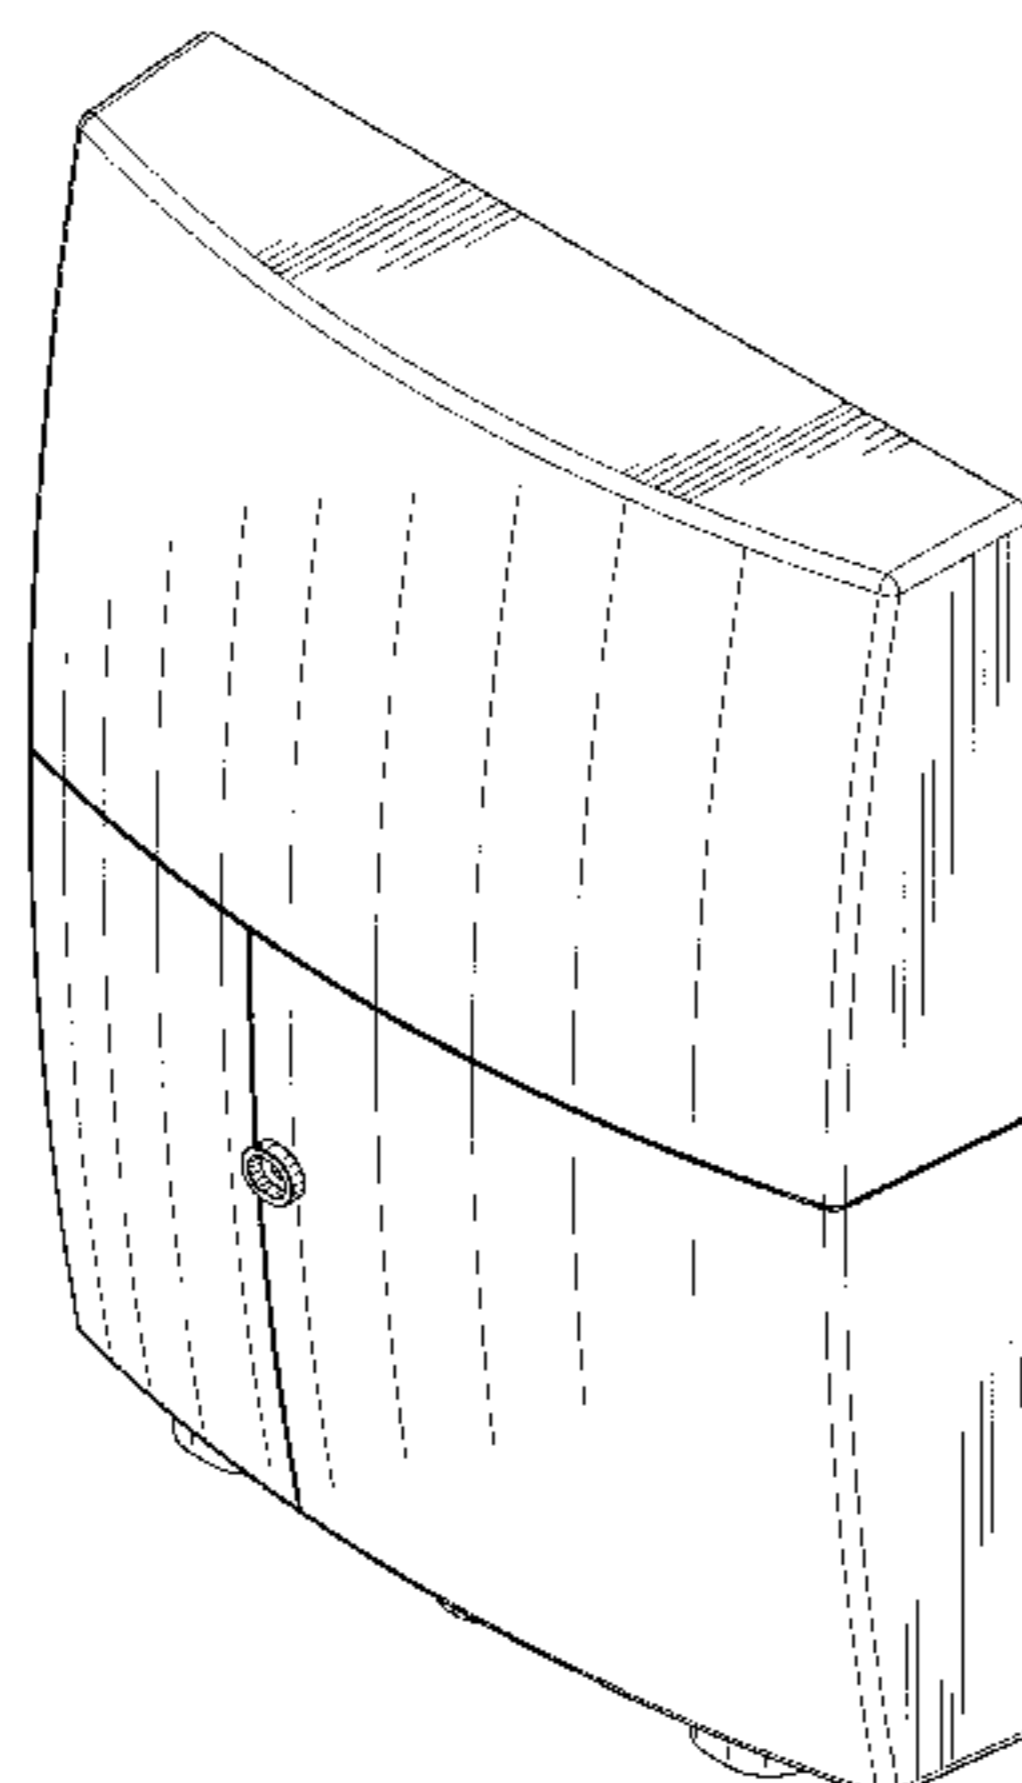

FIG. 11 is a rear elevational view of the communication interface cover of FIG. 8.

FIG. 12 is a bottom plan view of the communication interface cover of FIG. 8.

FIG. 13 is a left side elevational view of the communication interface cover of FIG. 8; and,

FIG. 14 is a right side elevational view of the communication interface cover of FIG. 8. The broken lines in the various figures show an environment which the invention may be associated and form no part of the claimed design.
