FIG. 2 is a side elevational view of FIG. 1 showing the convertible pillow bag in an empty state;

FIG. 3 is a side elevational view of FIG. 1 showing the convertible pillow bag in a completely filled state;

FIG. 4 is a top plan view of FIG. 1 showing an access to invert convertible pillow bag;

FIG. 5 is a bottom plan view of FIG. 1 showing an access to a pocket;

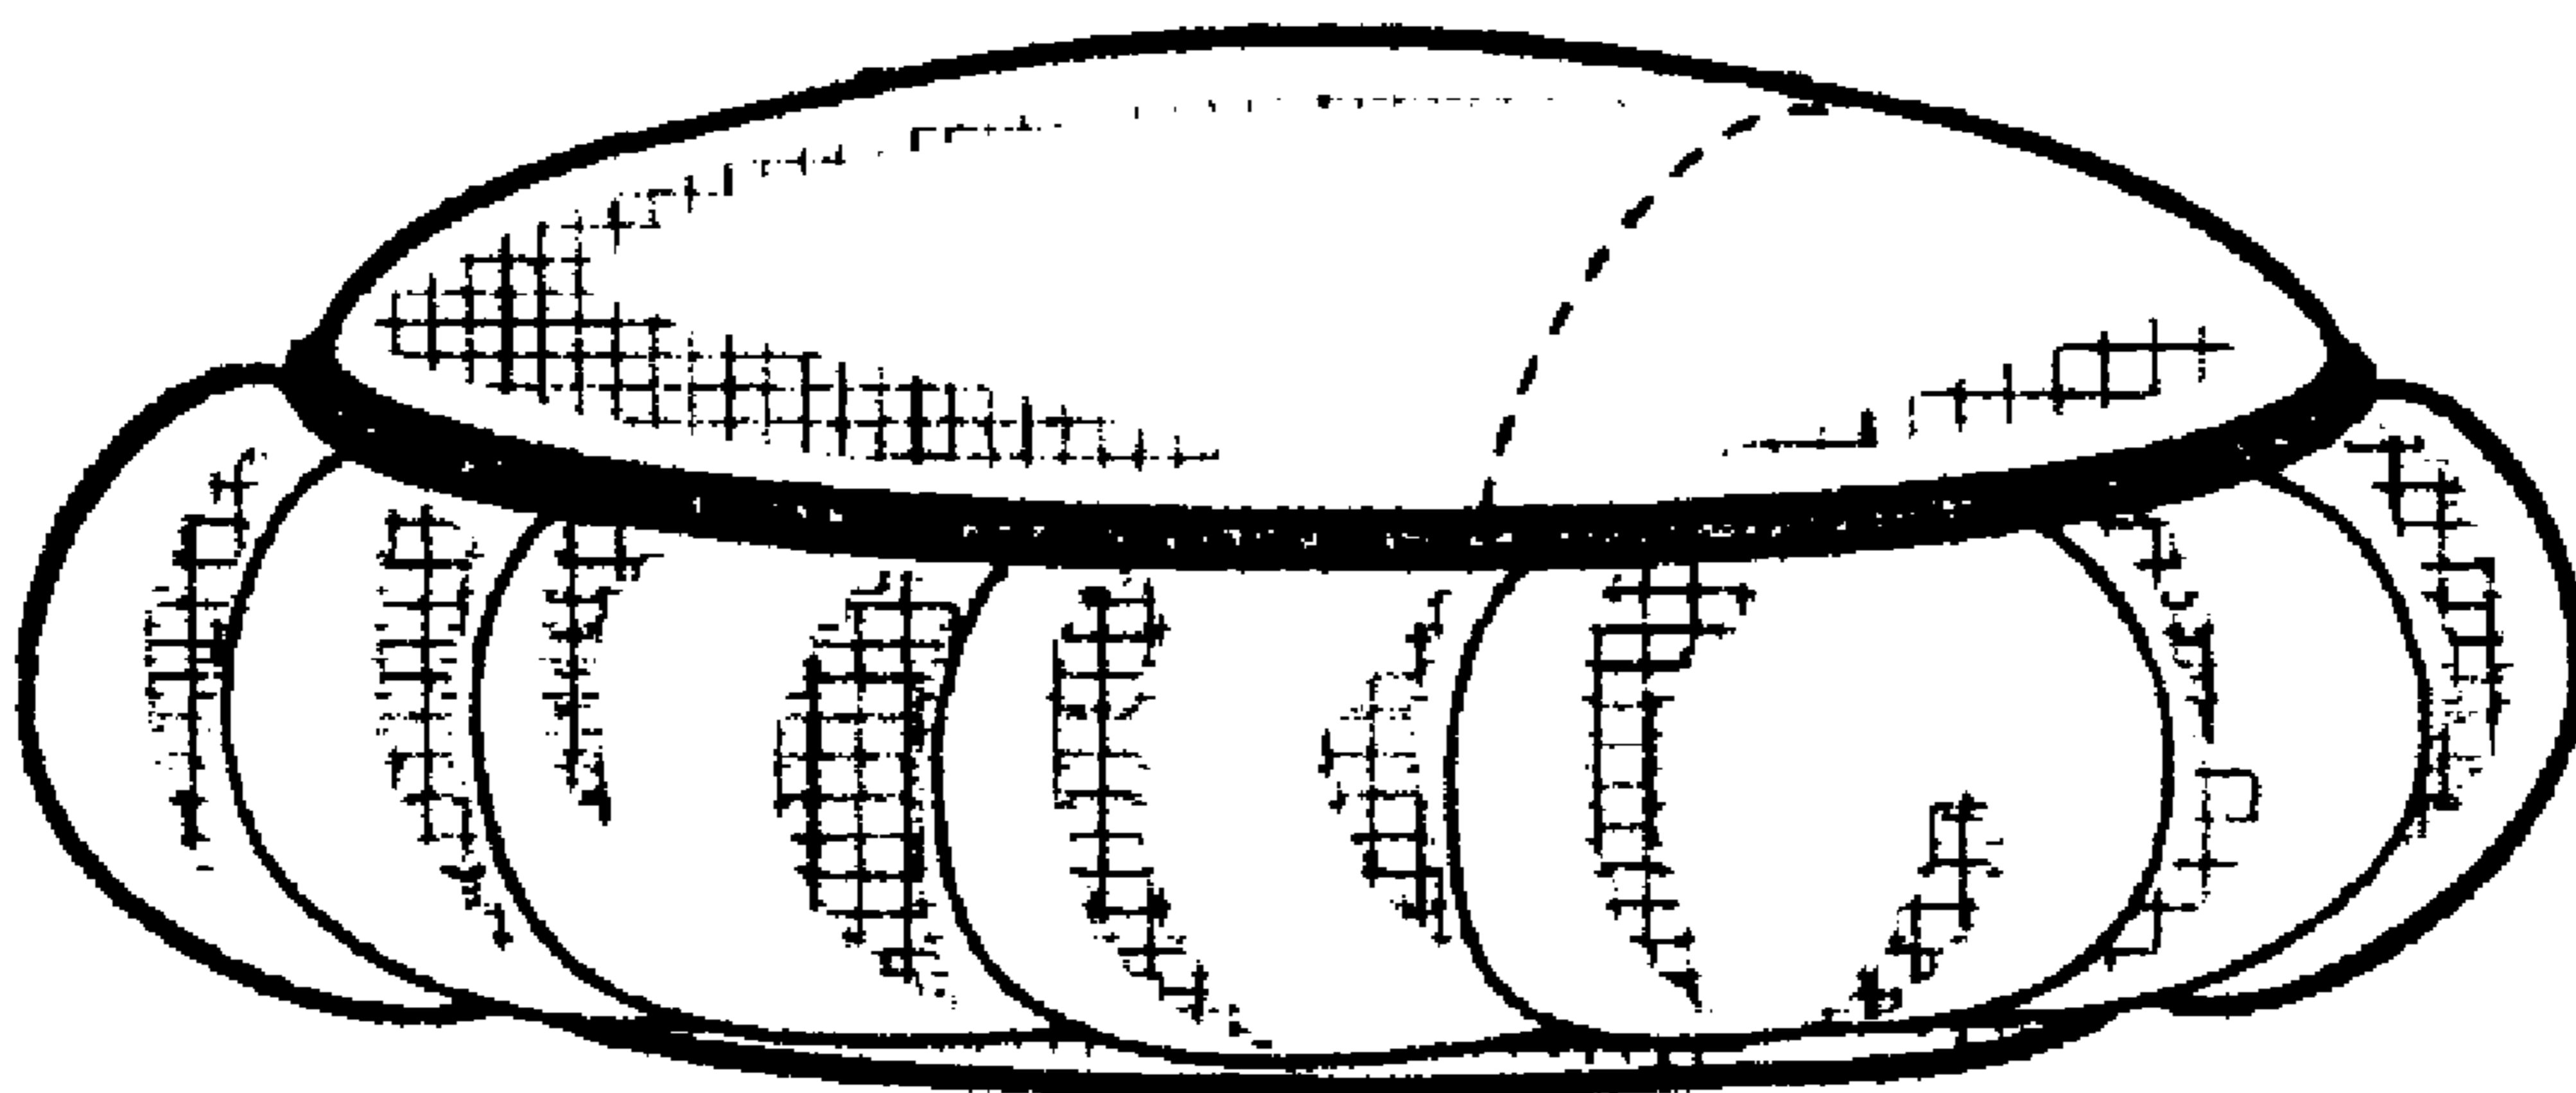

FIG. 6 is a side elevational view of FIG. 1 now shown in an inverted state in which the carry bag is exposed;

FIG. 7 is a bottom view of FIG. 4; and,

FIG. 8 is a top plan view of a modified embodiment of the design shown in FIGS. 1-7 now arranged with the medial binding made from a fabric corresponding to the first preselected fabric.

The broken line showing of the carry bag and carry strap as well as the access to invert the convertible pillow bag and to access the pocket as well as the position of the same relative to the claimed design and any other broken lines are to show the environment only and are not part of the claimed design.
