(57) **CLAIM**

The ornamental design for a sunburst window blind, as shown and described.

FIG. 1 is an orthogonal perspective front view of a closed sunburst window blind.

FIG. 2 is an orthogonal perspective back view of the closed sunburst window blind.

FIG. 3 is a front view of the closed sunburst window blind.

FIG. 4 is a top view of the closed sunburst window blind.

FIG. 5 is a bottom view of the closed sunburst window blind.

FIG. 6 is a left side view of the closed sunburst window blind, said left side view of the closed sunburst window blind being symmetrical to a right side view of the closed sunburst window blind.

FIG. 7 is a back view of the closed sunburst window blind.

FIG. 8 is an orthogonal perspective front view of an open sunburst window blind.

FIG. 9 is an orthogonal perspective back view of the open sunburst window blind.

FIG. 10 is a front view of the open sunburst window blind.

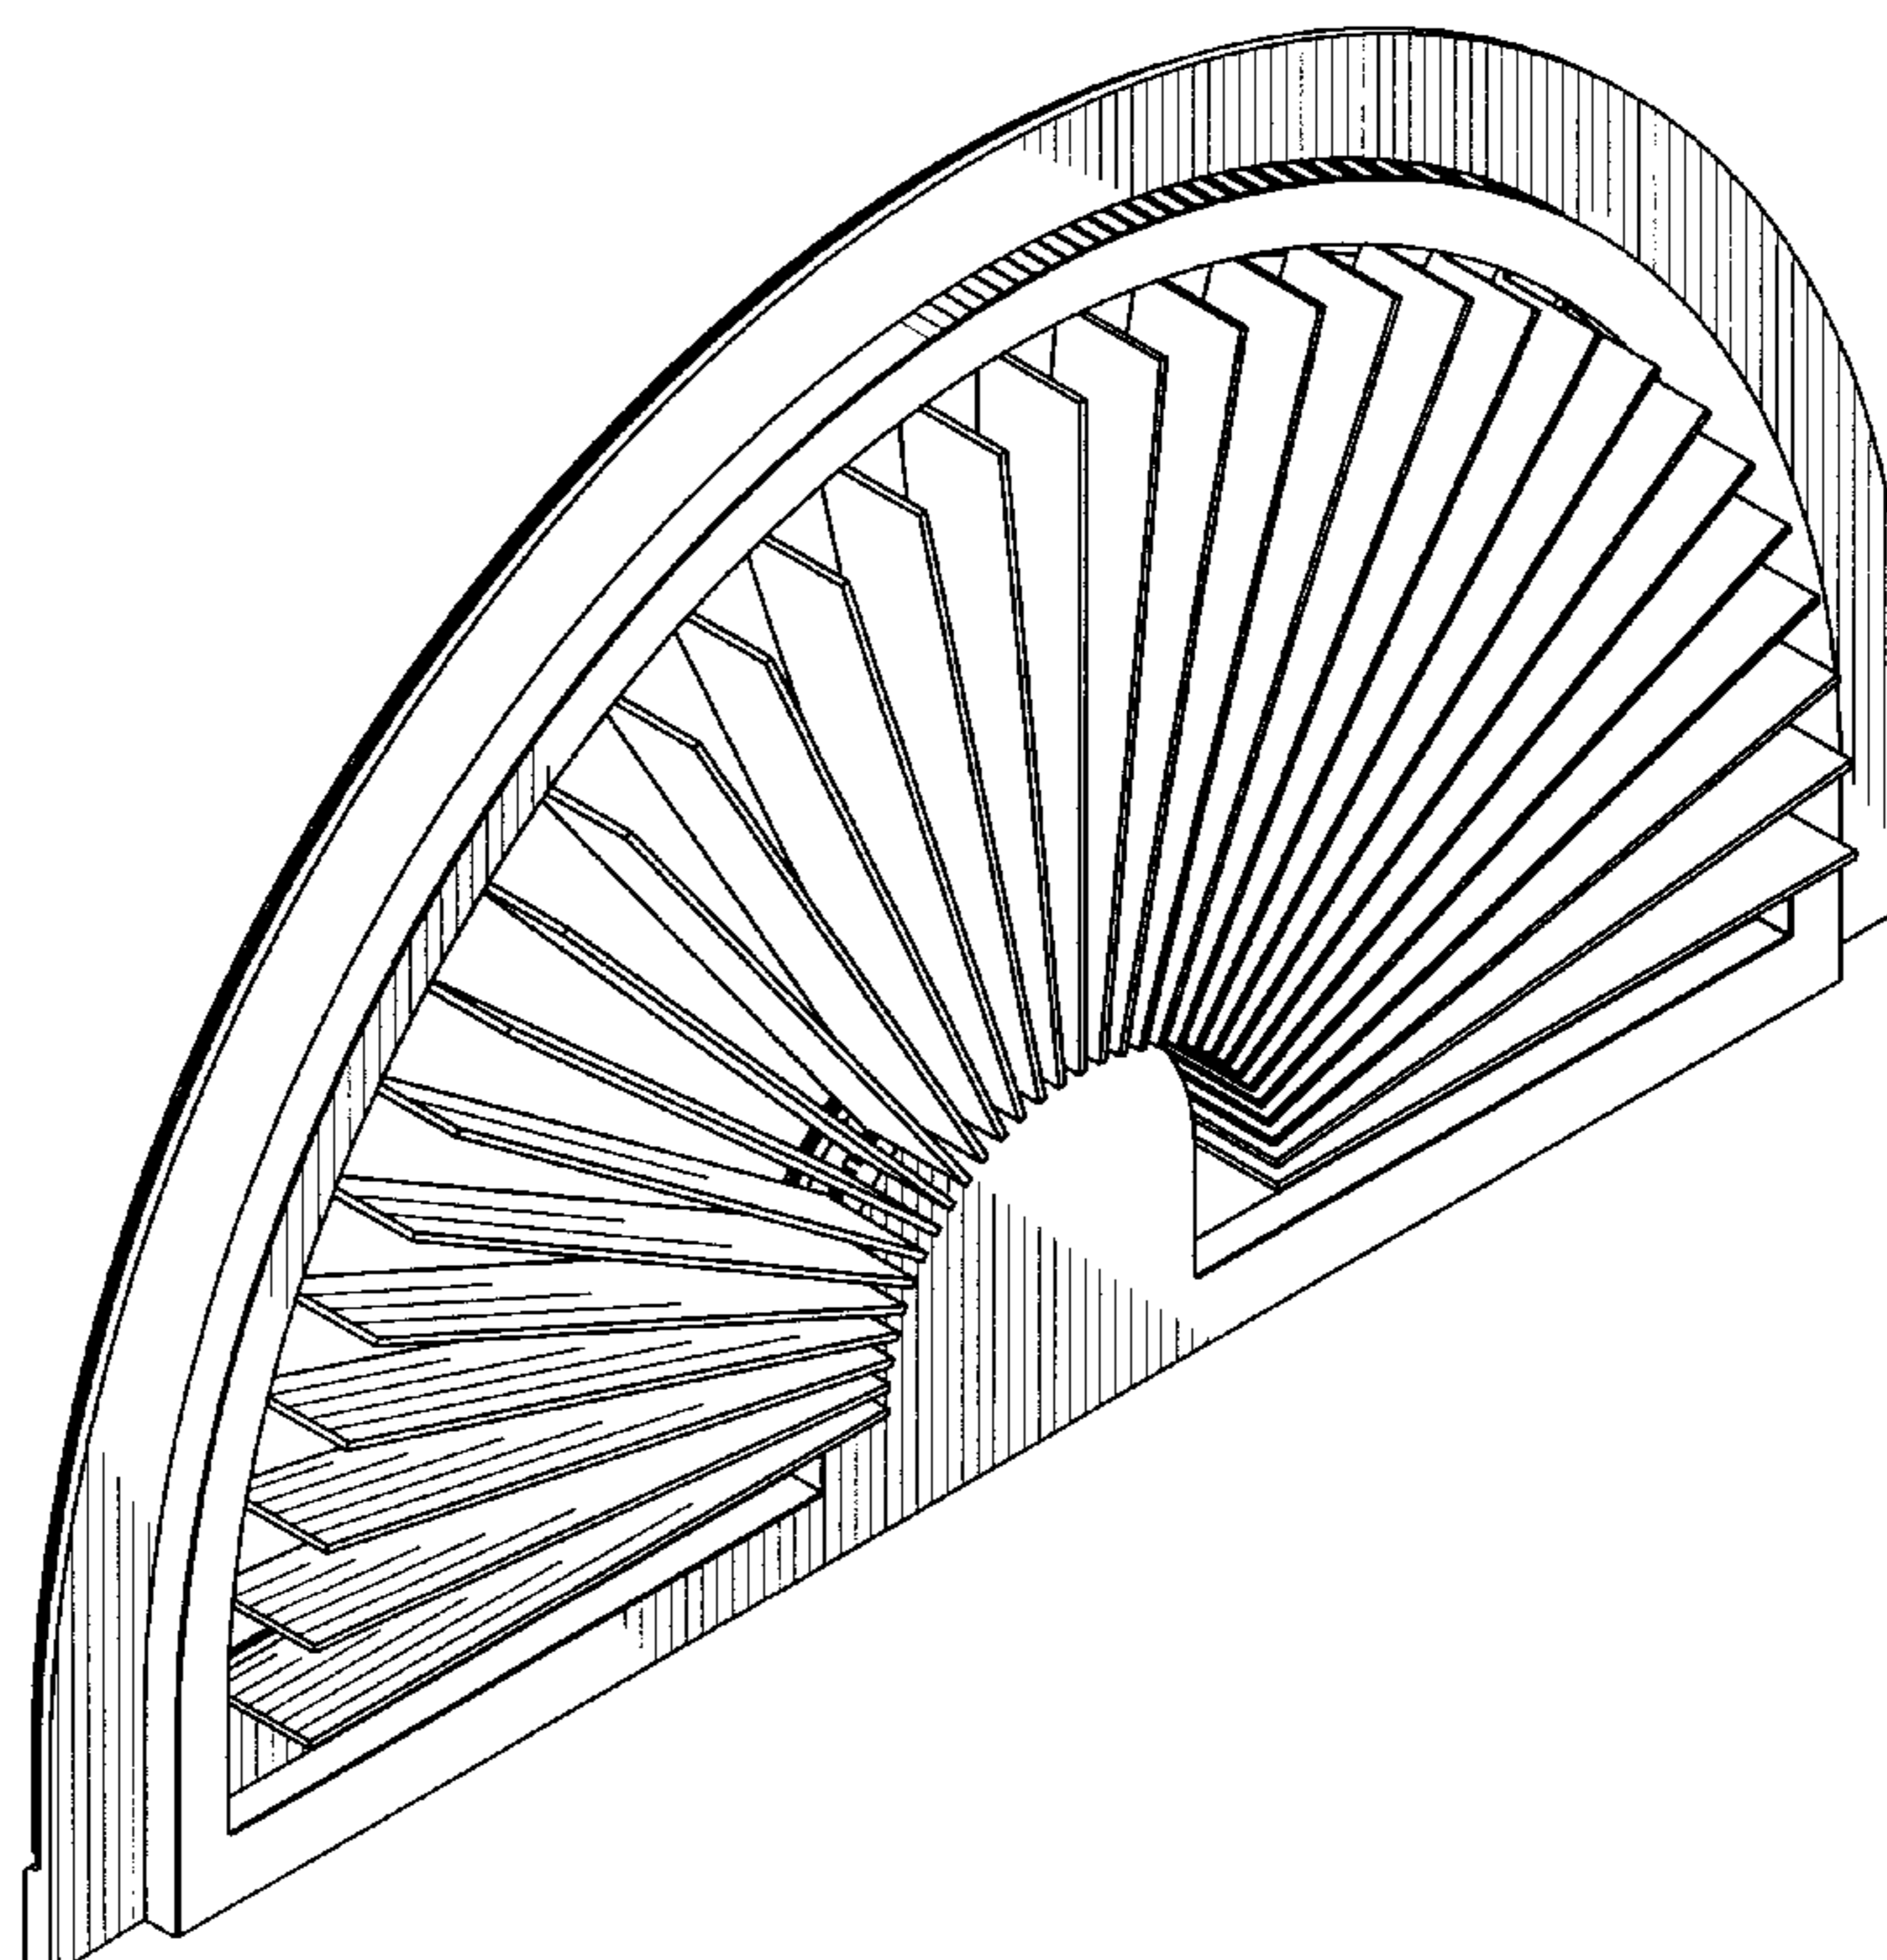

FIG. 11 is a top view of the open sunburst window blind.

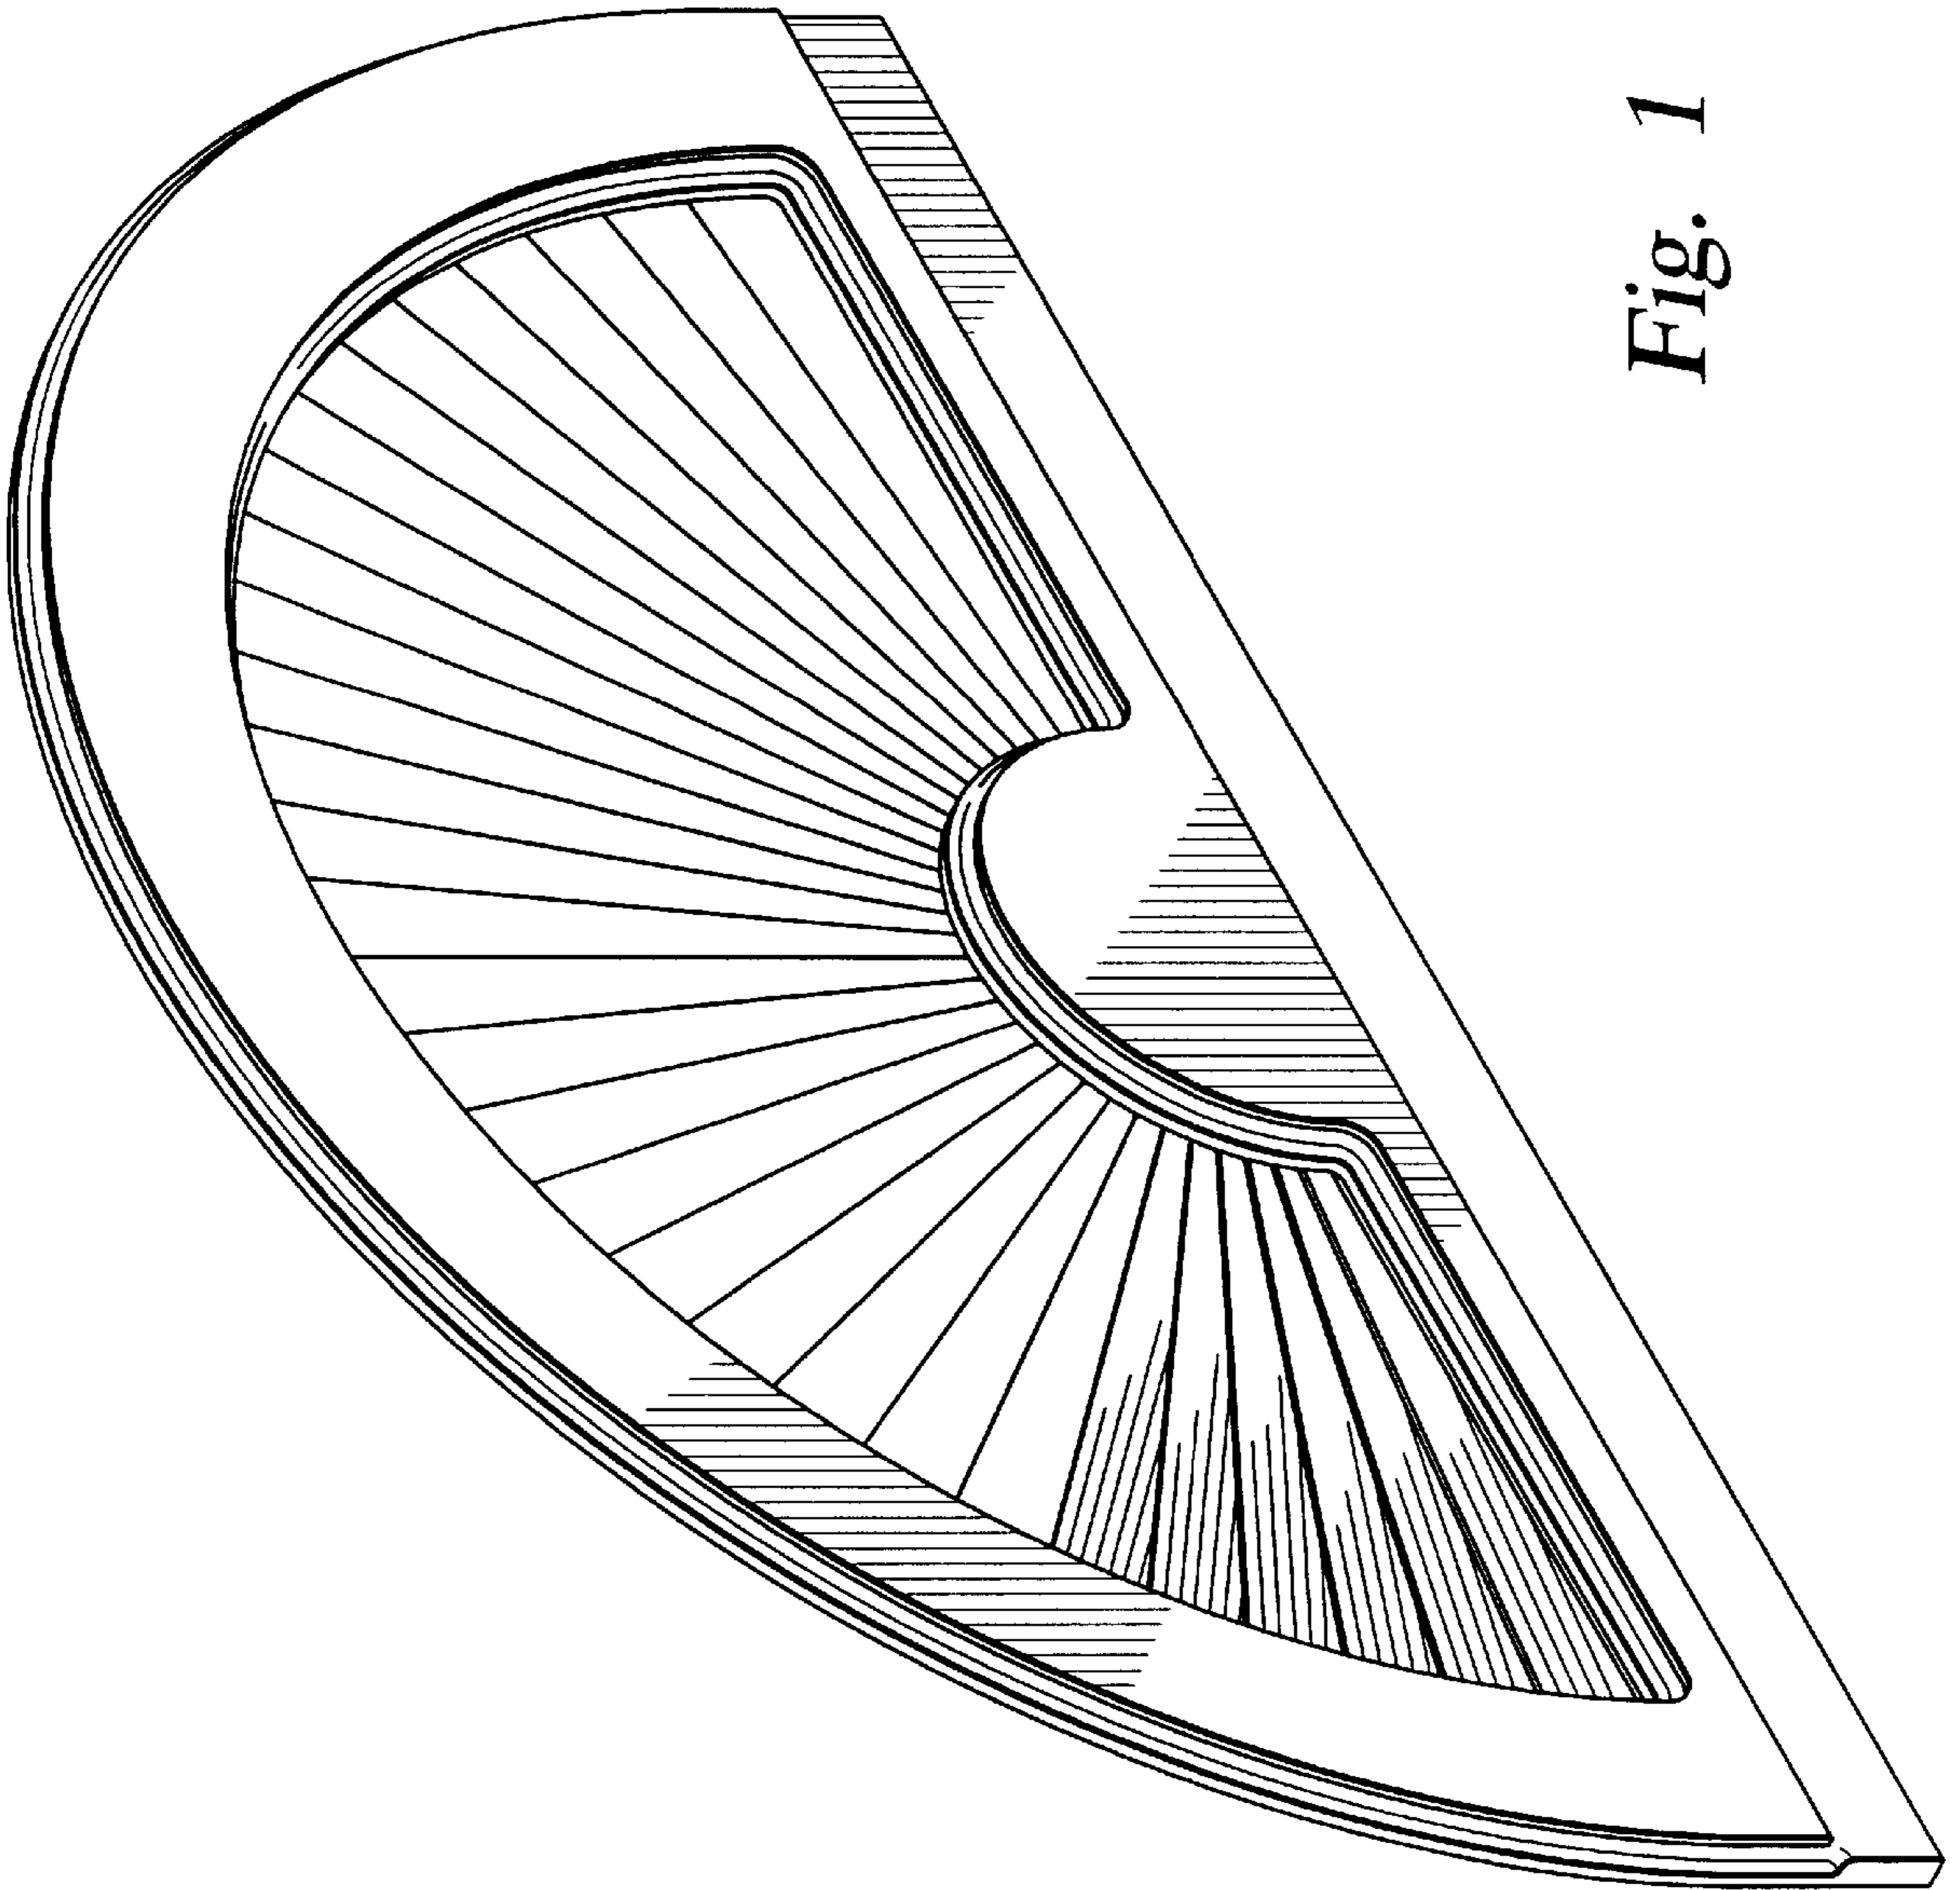

FIG. 12 is a bottom view of the open sunburst window blind.

FIG. 13 is a left side view of the open sunburst window blind, said left side view of the open sunburst window blind being symmetrical to a right side view of the open sunburst window blind; and,

FIG. 14 is a back view of the open sunburst window blind.
