(57) **CLAIM**

The ornamental design for a memory card reader, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view of a memory card reader that incorporates a first embodiment of the new design, showing the reader's top, front side and right side;

FIG. 2 is a front elevational view of the memory card reader first embodiment;

FIG. 3 is a left side elevational view of the memory card reader first embodiment;

FIG. 4 is a rear elevational view of the memory card reader first embodiment;

FIG. 5 is a right side elevational view of the memory card reader first embodiment;

FIG. 6 is a top plan view of the memory card reader first embodiment;

FIG. 7 is a bottom plan view of the memory card reader first embodiment;

FIG. 8 is an isometric view of a memory card reader that incorporates a second embodiment of the new design, showing the reader's top, front side and right side;

FIG. 9 is a front elevational view of the memory card reader second embodiment;

FIG. 10 is a left side elevational view of the memory card reader second embodiment;

FIG. 11 is a rear elevational view of the memory card reader second embodiment;

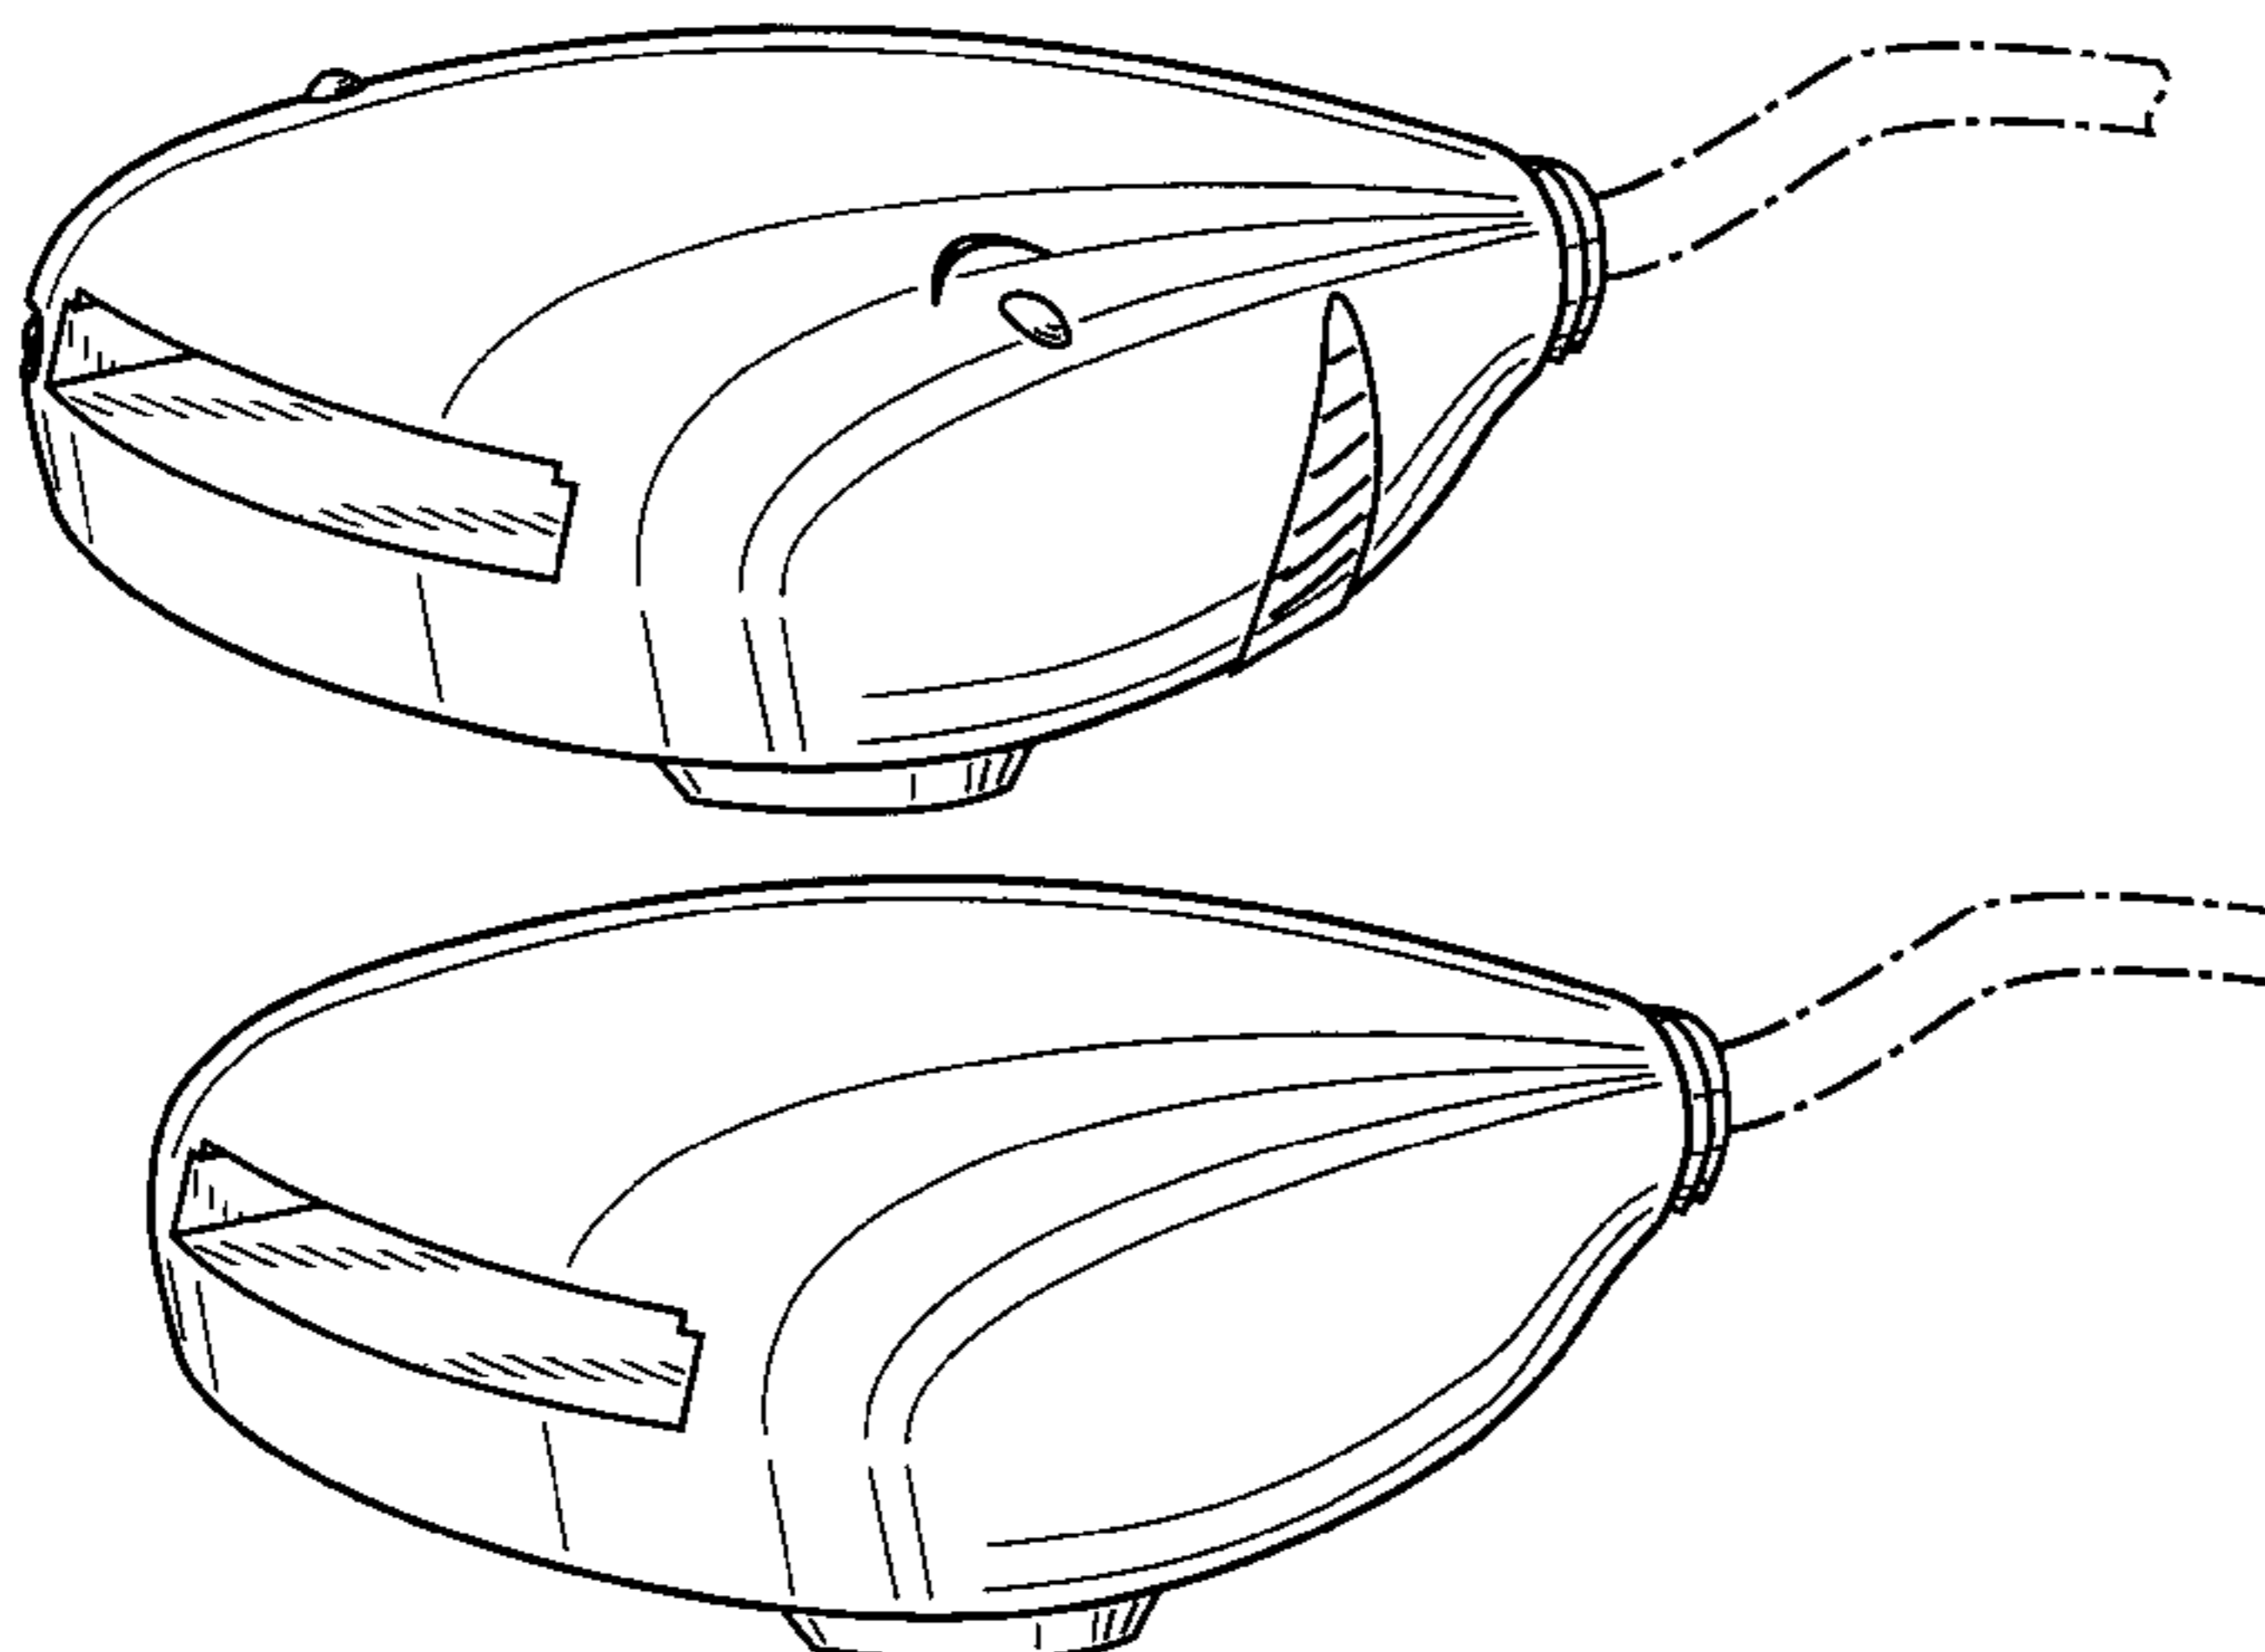

FIG. 12 is a right side elevational view of the memory card reader second embodiment;

FIG. 13 is a top plan view of the memory card reader second embodiment; and,

FIG. 14 is a bottom plan view of the memory card reader second embodiment.

The cord is shown in broken lines in FIGS. 1 and 8 for illustrative purposes only and forms no part of the claimed design.
