(57) **CLAIM**

The ornamental design for a surface configuration of a vehicle body and/or toy, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a first embodiment of a surface configuration of a vehicle body and/or toy according to my novel design;

FIG. 2 is a left, front perspective view of the first embodiment of the surface configuration of a vehicle body and/or toy according to my novel design, the right, front perspective view being mirror symmetrical;

FIG. 3 is a left side view of the first embodiment of the surface configuration of a vehicle body and/or toy according to my novel design, the right side view being mirror symmetrical;

FIG. 4 is a left, rear perspective view of the first embodiment of the surface configuration of a vehicle body and/or toy according to my novel design, the right, rear perspective view being mirror symmetrical;

FIG. 5 is a rear view of the first embodiment of the surface configuration of a vehicle body and/or toy according to my novel design;

FIG. 6 is a top view of the first embodiment of the surface configuration of a vehicle body and/or toy according to my novel design;

FIG. 7 is a front view of a second embodiment of the surface configuration of a vehicle body and/or toy according to my novel design;

FIG. 8 is a left, front perspective view of the second embodiment of the surface configuration of a vehicle body and/or toy according to my novel design, the right, front perspective view being mirror symmetrical;

FIG. 9 is a left side view of the second embodiment of the surface configuration of a vehicle body and/or toy according to my novel design, the right side view being mirror symmetrical;

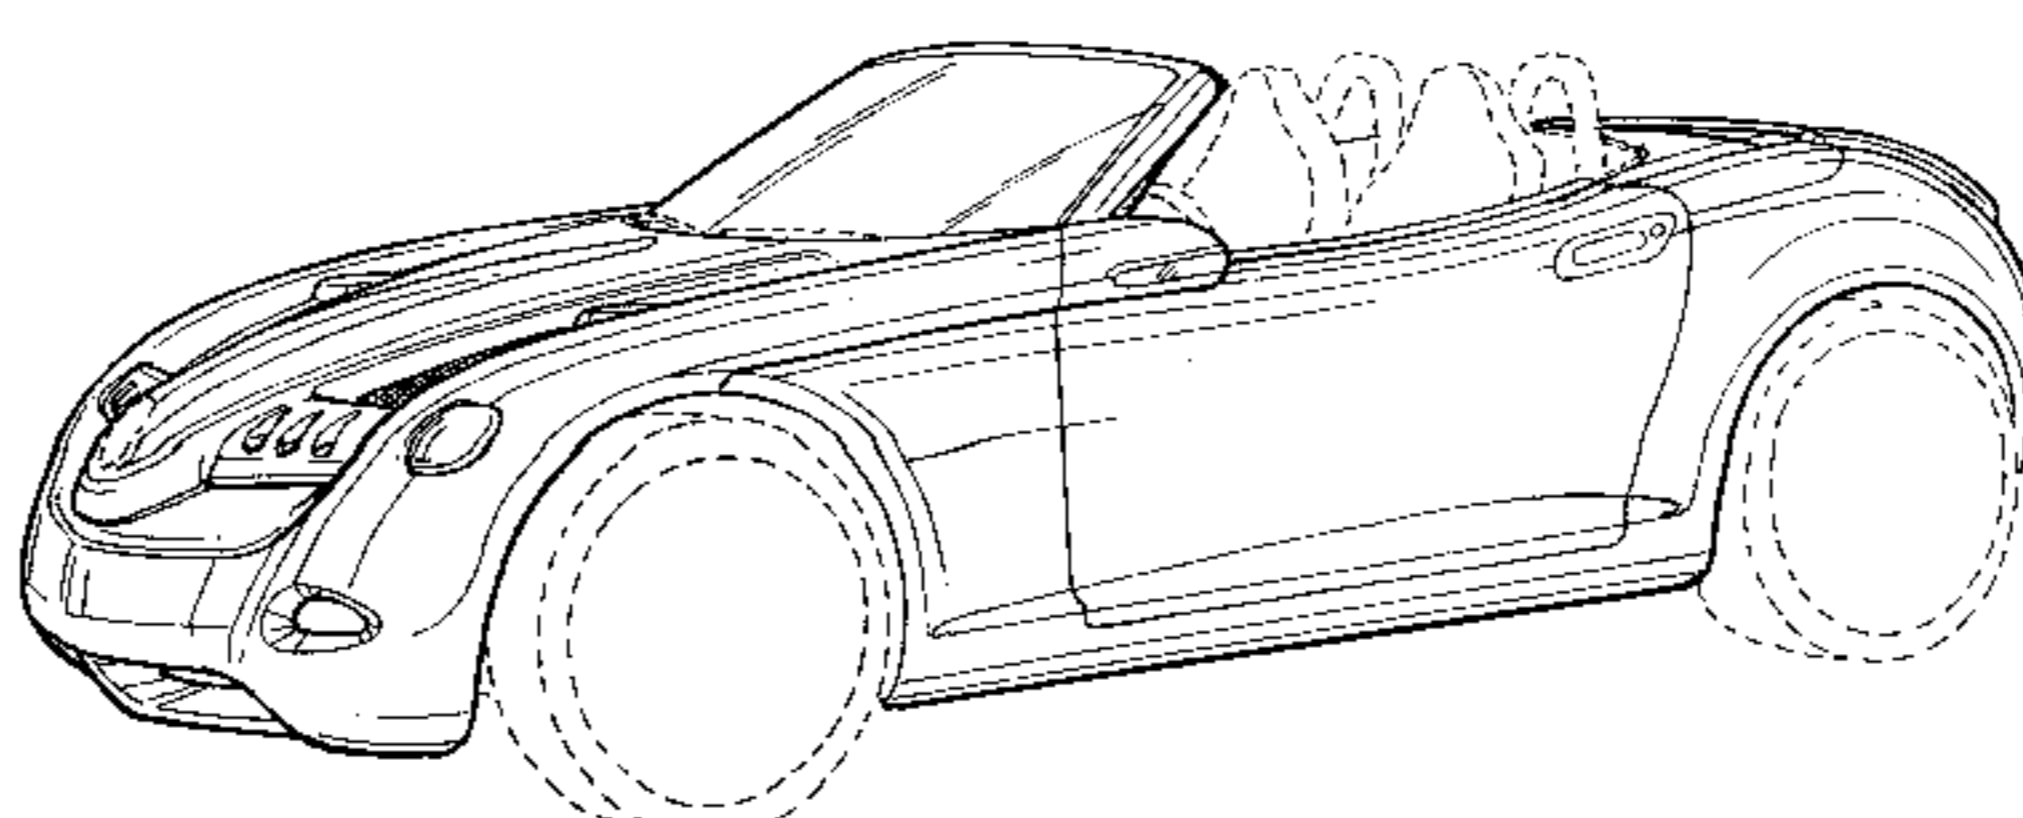

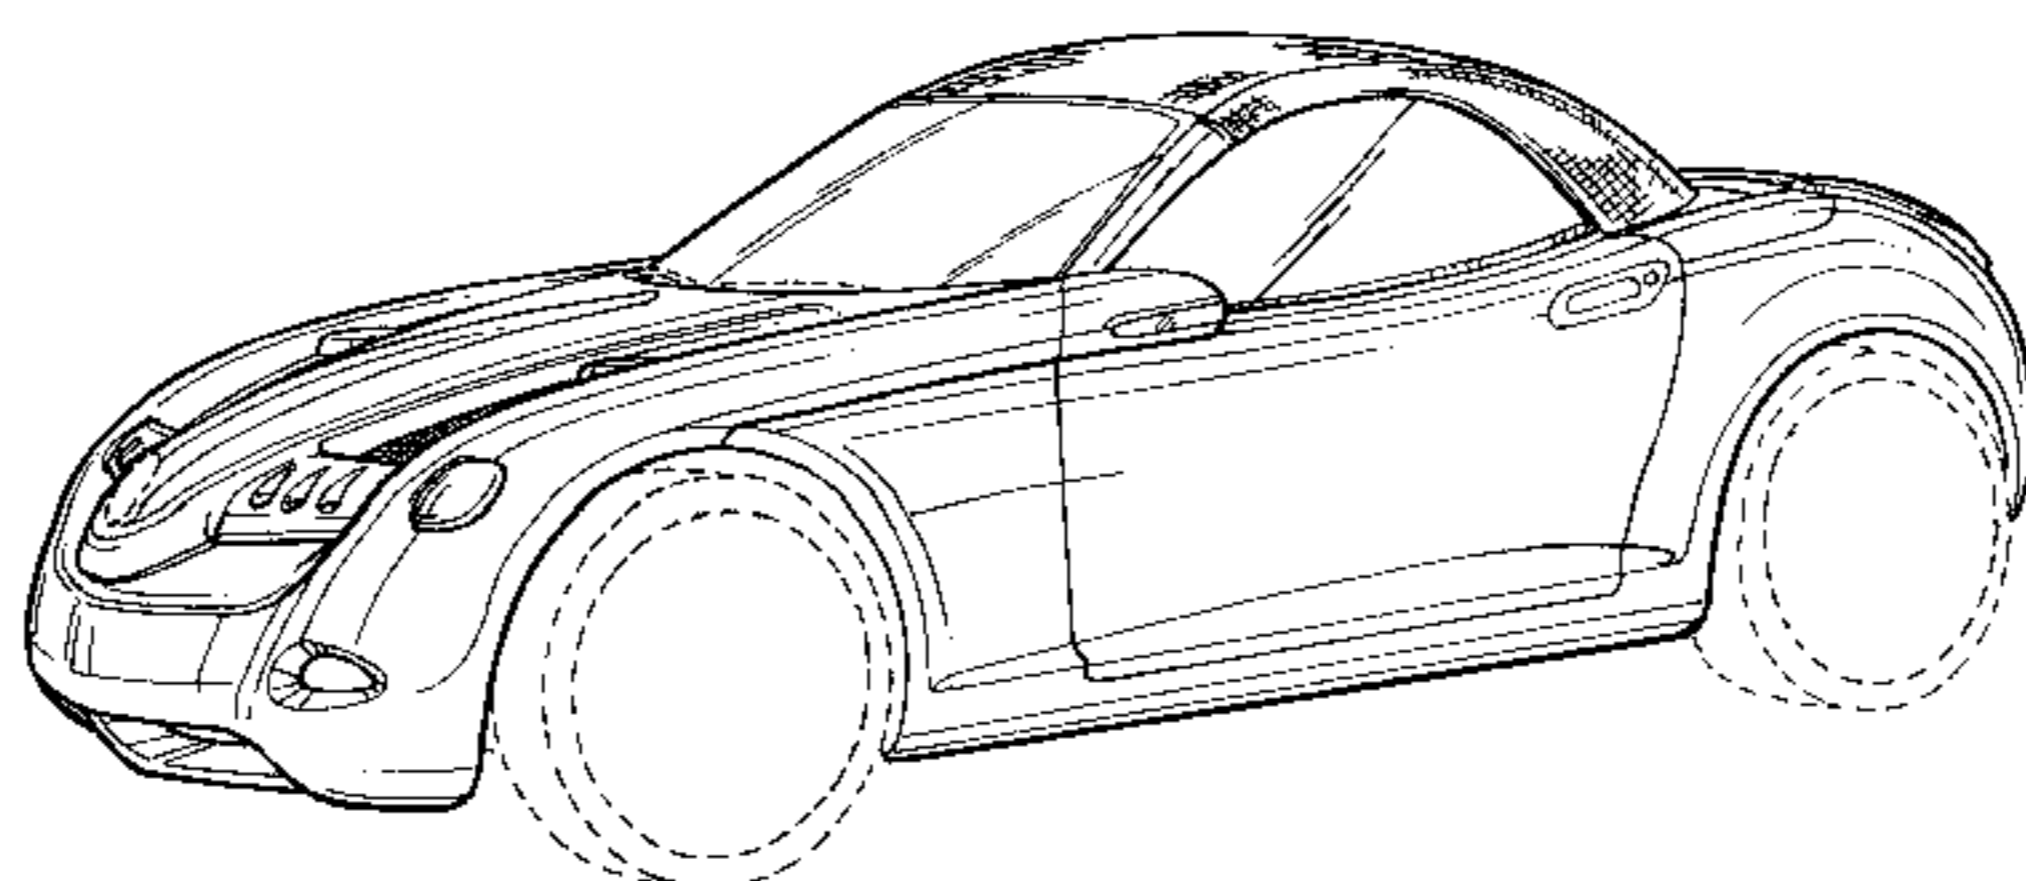

FIG. 10 is a left, rear perspective view of the second embodiment of the surface configuration of a vehicle body and/or toy according to my novel design, the right, rear perspective view being mirror symmetrical;

FIG. 11 is a rear view of the second embodiment of the surface configuration of a vehicle body and/or toy according to my novel design; and,

FIG. 12 is a top view of the second embodiment of the surface configuration of a vehicle body and/or toy according to my novel design.

The broken lines included depict environment and are not part of the claimed design.
