FIG. 1 is a front elevational view of the combined wristwatch and stress/heart monitor with warning device of the present invention;

FIG. 2 is a rear elevational view of the combined wristwatch and stress/heart monitor with warning device of FIG. 1;

FIG. 3 is a left side elevational view of the combined wristwatch and stress/heart monitor with warning device of FIG. 1;

FIG. 4 is a right side elevational view of the combined wristwatch and stress/heart monitor with warning device of FIG. 1;

FIG. 5 is a top plan view of the combined wristwatch and stress/heart monitor with warning device of FIG. 1; and,

FIG. 6 is a bottom plan view of the combined wristwatch and stress/heart monitor with warning device of FIG. 1.

The broken lines showing of numbers in FIG. 1 is for illustrative purposes only and form no part of the claimed design. The horizontal hatching in FIG. 1 is representative of the color blue. The cross-sectional hatching in FIG. 1 is representative of the color amber. The vertical hatching in FIG. 1 is representative of the color red.
