(57) **CLAIM**

We claim the ornamental design for a billiard cue rack, as shown.

DESCRIPTION

FIG. 1 is a perspective view showing the front, top, and a first side of a billiard cue rack constructed in accordance with a first embodiment of the present invention;

FIG. 2 is a top elevational view of the billiard cue rack constructed in accordance with the first embodiment of the present invention;

FIG. 3 is a side elevational view of a second side of the billiard cue rack constructed in accordance with the first embodiment of the present invention;

FIG. 4 is a bottom elevational view of the billiard cue rack constructed in accordance with the first embodiment of the present invention;

FIG. 5 is a side elevational view of the first side of the billiard cue rack constructed in accordance with the first embodiment of the present invention;

FIG. 6 is a front elevational view of the billiard cue rack constructed in accordance with the first embodiment of the present invention;

FIG. 7 is a rear elevational view of the billiard cue rack constructed in accordance with the first embodiment of the present invention;

FIG. 8 is a perspective view showing the front, top, and a first side of a billiard cue rack constructed in accordance with a second embodiment of the present invention;

FIG. 9 is a top elevational view of the billiard cue rack constructed in accordance with the second embodiment of the present invention;

FIG. 10 is a side elevational view of a second side of the billiard cue rack constructed in accordance with the second embodiment of the present invention;

FIG. 11 is a bottom elevational view of the billiard cue rack constructed in accordance with the second embodiment of the present invention;

FIG. 12 is a side elevational view of the first side of the billiard cue rack constructed in accordance with the second embodiment of the present invention;

FIG. 13 is a front elevational view of the billiard cue rack constructed in accordance with the second embodiment of the present invention; and,

FIG. 14 is a rear elevational view of the billiard cue rack constructed in accordance with the second embodiment of the present invention.
