(57) **CLAIM**

We claim the ornamental design for the multiple outlet power block, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevation view of the multiple outlet power block design with the outlet covers in the closed position;

FIG. 2 is a top plan view of the multiple outlet power block design with the outlet covers in the closed position of FIG. 1;

FIG. 3 is a bottom plan view of the multiple outlet power block design with the outlet covers in the closed position of FIG. 1;

FIG. 4 is a right side view of the multiple outlet power block design with the outlet cover in the closed position of FIG. 1;

FIG. 5 is a cross-sectional view of section 5—5 of the multiple outlet power block design with the outlet cover in the open position of FIG. 1;

FIG. 6 is a cross-sectional view of section 6—6 of the multiple outlet power block design with the outlet cover in the closed position of FIG. 1;

FIG. 7 is a front elevation view of the multiple outlet power block design with the outlet covers removed of FIG. 1;

FIG. 8 is a top plan view of the multiple outlet power block design with the outlet covers removed of FIG. 7;

FIG. 9 is a bottom plan view of the multiple outlet power block design with the outlet covers removed of FIG. 7;

FIG. 10 is a right side view of the multiple outlet power block design with the outlet cover removed of FIG. 7;

FIG. 11 is a cross-sectional view of section 11—11 of the multiple outlet power block design with the outlet cover removed of FIG. 7; and,

FIG. 12 is a cross-sectional view of section 12—12 of the multiple outlet power block design with the outlet cover removed of FIG. 7.
