(57) **CLAIM**

The ornamental design for a measuring tape for a tape measure, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a measuring tape for a tape measure showing my new design; FIG. 2 is a front elevational view thereof, the rear elevational view being identical; and, FIG. 3 is a left side elevational view thereof, the right side elevational view being identical.

The remaining views are not ornamental. The characteristic feature of my invention resides in the representation of the fractions on a measuring tape and their arrangements relative to their associated fractional line markers.
