(57) **CLAIM**

The ornamental design for a trash cup, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a trash cup showing my new design.
As the decision of *In re Zahn*, 617 F.2d 261, 204 USPQ 988 (CCPA 1980), holds that an ornamental design may be embodied in less than a complete article, it is understood that the surface(s) or portion(s) of the article that would normally be visible but are not shown in the drawing or described in the specification of the present application form(s) no part of the claimed design. Therefor, the determination of the patentability of the claimed design is based on the views of the article shown in the drawing and the description in the specification.

1 Claim, 1 Drawing Sheet
