(57) **CLAIM**

The ornamental design for a color illumination unit, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawings will be provided by the Patent and Trademark Office upon request and payment of the necessary fee.

FIG. 1 is a perspective view of a color illumination unit showing our new design;

FIG. 2 is a top plan view thereof;

FIG. 3 is a front view thereof;

FIG. 4 is a bottom plan view thereof;

FIG. 5 is a left side view thereof;

FIG. 6 is a right side view thereof;

FIG. 7 is a back view thereof;

FIG. 8 is an illustrative perspective view showing a color illumination unit according to our new design employed in combination with a like unit, shown in broken lines, mounted inside a translucent shade shown in broken lines, the translucent shade forming no part of the claimed design; FIG. 9 is another illustrative perspective view showing a color illumination unit according to our new design employed in combination with a like unit, shown in broken lines, mounted inside a translucent shade shown in broken lines, the translucent shade forming no part of the claimed design; and,

FIG. 10 is yet another illustrative perspective view showing a color illuminating unit according to our new design employed in combination with a like unit, shown in broken lines, mounted inside a curved translucent shade shown in broken lines, the translucent shade forming no part of the claimed design.
