(57) **CLAIM**

The ornamental design for a boot, as shown and described.

DESCRIPTION

FIG. 1 is a lateral side elevational view of a boot showing my new design;
FIG. 2 is a front view of the boot; and,
FIG. 3 is a top view of the boot.
The broken away showing of the boot lace in the Figures indicates that it is of indeterminate length.
The partial rendering of the cross hatching in the Figures is for ease of illustration. It is understood that the cross hatching continues throughout the surfaces on which it is only partially shown.
The surfaces of the article not shown in the drawing or described in the specification form no part of the claimed design.
