(57) **CLAIM**

The ornamental design for a surface configuration of a bus body and/or toy, as shown and described.

**DESCRIPTION**

FIG. 1 is a right side perspective view of a surface configuration of a bus body and/or toy according to our novel design;

FIG. 2 is a right side view of the surface configuration of a bus body and/or toy according to our novel design;

FIG. 3 is a left side perspective view of the surface configuration of a bus body and/or toy according to our novel design;

FIG. 4 is a left side view of the surface configuration of a bus body and/or toy according to our novel design;

FIG. 5 is a right, front perspective view of the surface configuration of a bus body and/or toy according to our novel design;

FIG. 6 is a left, front perspective view of the surface configuration of a bus body and/or toy according to our novel design; and,

FIG. 7 is a right, rear perspective view of the surface configuration of a bus body and/or toy according to our novel design, the left, rear perspective view being mirror symmetrical.

The broken lines included depict environment and are not part of the claimed design.
