(57) **CLAIM**

The ornamental design for the wireless personal digital assistant with finger biometric, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material which is subject to copyright protection. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but otherwise reserves all copyright rights whatsoever.

FIG. 1 is a top perspective view of the wireless personal digital assistant with finger biometric showing our new design;

FIG. 2 is a top view thereof, shown in the open position.

FIG. 3 is a right side elevational view thereof shown in the open position;

FIG. 4 is a rear elevational view showing the device in the open position.

FIG. 5 is a bottom view showing the device in the open position.

FIG. 6 is a left side elevational view thereof.

FIG. 7 is a front elevational view thereof shown in the open position;

FIG. 8 is a top perspective view thereof further showing keypad detail; and,

FIG. 9 is a right side elevational view thereof shown in the open position further showing button detail.

The broken lines are shown in the views for illustrative purposes only and form no part of the claimed design.
