D11/1, 3, 4, 7

The hair band is made by using a piece of clear, elastic band with crystals or beads being attached when strung onto that band. The hair band can be used just like a rubberband or ponytail holder, by looping it two or three times around the hair, until secure.

FIG. 1 is a front elevational view of the crystal or beaded hair band with tails, showing my original design, the view being identical; and,

FIG. 2 is a view as worn in the hair.

The broken line showing of the human form in FIG. 2 is for illustrative purposes only and forms no part of the claimed design.
