(57) **CLAIM**

The ornamental design for a magnification adjusting ring for a telescope, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a magnification adjusting ring for a telescope, showing our new design, the telescope with which it is intended to be used being shown in broken line and not comprising a part of the present invention;

FIG. 2 is a side elevational view thereof;

FIG. 3 is a side elevational view thereof from the side opposite that shown in FIG. 2;

FIG. 4 is a view thereof from the top of FIG. 2;

FIG. 5 is a view thereof from the bottom of FIG. 2;

FIG. 6 is an end elevational view thereof from the left of FIG. 2; and

FIG. 7 is an end elevational view thereof from the right of FIG. 2.

FIG. 8 is a front perspective view of a second embodiment of a magnification adjusting ring for a telescope showing our new design, the broken line showing of the telescope is for illustrative purposes only and forms no part of the claimed design;

FIG. 9 is a side elevational view thereof;

FIG. 10 is an opposite side elevational view thereof;

FIG. 11 is a top plan view thereof;

FIG. 12 is a bottom plan view thereof;

FIG. 13 is an end elevational view thereof; and,

FIG. 14 is an opposite end elevational view thereof.
