(57) **CLAIM**

The ornamental design for a relief body, as shown and described.

DESCRIPTION

FIG. 1 is an end view of first embodiment of a relief body according to the present invention;
FIG. 2 is a perspective view of one end of the first embodiment of a relief body according to the present invention;
FIG. 3 is a top view of the first embodiment of a relief body according to the present invention;
FIG. 4 is a side view of the first embodiment of a relief body according to the present invention;
FIG. 5 is a reduced end view of the first embodiment of a relief body according to the present invention;

FIG. 6 is a bottom view of the first embodiment of a relief body according to the present invention;
FIG. 7 is an end view of second embodiment of a relief body according to the present invention;
FIG. 8 is a perspective view of one end of the second embodiment of a relief body according to the present invention;
FIG. 9 is a top view of the second embodiment of a relief body according to the present invention;
FIG. 10 is a side view of the second embodiment of a relief body according to the present invention;
FIG. 11 is a reduced end view of the second embodiment of a relief body according to the present invention;
FIG. 12 is a bottom view of the second embodiment of a relief body according to the present invention;
FIG. 13 is an end view of third embodiment of a relief body according to the present invention;
FIG. 14 is a perspective view of one end of the third embodiment of a relief body according to the present invention;
FIG. 15 is a top view of the third embodiment of a relief body according to the present invention;
FIG. 16 is a side view of the third embodiment of a relief body according to the present invention;
FIG. 17 is a reduced end view of the third embodiment of a relief body according to the present invention;
FIG. 18 is a bottom view of the third embodiment according to the present invention;
FIG. 19 is an end view of a fourth embodiment of a relief body according to the present invention;
FIG. 20 is a perspective view of one end of the fourth embodiment of a relief body according to the present invention;
FIG. 21 is a top view of the fourth embodiment of a relief body according to the present invention;
FIG. 22 is a side view of the fourth embodiment of a relief body according to the present invention;
FIG. 23 is a reduced end view of the fourth embodiment of a relief body according to the present invention;
FIG. 24 is a bottom view of the fourth embodiment of a relief body according to the present invention;
FIG. 25 is and end perspective of a fifth embodiment of a relief body according to the present invention; and,
FIG. 26 is an end view of fifth embodiment of a relief body according to the present invention.
