(57) **CLAIM**

The ornamental design for a weighing platform for a scale, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a first embodiment of the weighing platform for a scale according to the invention, the broken-line portion of the figure illustrating the scale being for illustrative purposes only and forming no part of the claimed design.

FIG. 2 is a right side elevational view of the first embodiment, the left side elevational view being the same.

FIG. 3 is a top plan view of the first embodiment.

FIG. 4 is a front side elevational view of the first embodiment, the back side elevational view being the same.

FIG. 5 is a bottom plan view of the first embodiment.

FIG. 6 is a perspective view of a second embodiment of the weighing platform for a scale according to the invention, the broken-line portion of the figure illustrating the scale being for illustrative purposes only and forming no part of the claimed design.

FIG. 7 is a front side elevational view of the second embodiment, the back side elevational view being the same.

FIG. 8 is a top plan view of the second embodiment.

FIG. 9 is a right side elevational view of the second embodiment, the left side elevational view being the same; and,

FIG. 10 is a bottom plan view of the second embodiment.
