(57) **CLAIM**

The ornamental design for an adjustable shower fixture, as shown and described.

DESCRIPTION

In a preferred embodiment, the nature of this product is as a plumbing fixture primarily useful for washing the body of humans.

FIG. 1 is a right, top, front perspective view of an adjustable shower fixture embodying my new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a left side elevational view thereof (and of the FIG. 8 embodiment), the right side elevational view thereof (and of the FIG. 8 embodiment) being a mirror image of the left side shown;

FIG. 4 is a top plan view thereof;

FIG. 5 is a rear elevational view thereof;

FIG. 6 is a front elevational view thereof showing the adjustable horizontal nozzles in a different position;

FIG. 7 is a front elevational view thereof showing the adjustable curved nozzle stanchions in a different position;

FIG. 8 is a front elevational view of a second embodiment that is identical to the first except that one of the cane spouts has been removed and the other centered; and,

FIG. 9 is a view of the second embodiment identical to FIG. 8, but showing the spout rotated somewhat.

The broken line representations of plumbing fittings in FIGS. 1-4 and 6-9 are for the purpose of illustration only, and form no part of the claimed design.
