(57) **CLAIM**

The ornamental design for a clip for holding eyeglasses, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a clip for holding eyeglasses showing, in dashed lines, the best of the user and eyeglasses held by the clip;

FIG. 2 is a front elevational view of FIG. 1; the right side elevational view not being shown as it is substantially a mirror image of the left side elevational view;

FIG. 3 is a left side elevational view of FIG. 2, the right side elevational view not being shown as it is substantially a mirror image of the left side elevational view;

FIG. 4 is a rear side elevational view of FIG. 2 ;

FIG. 5 is top plan view of FIG. 2;

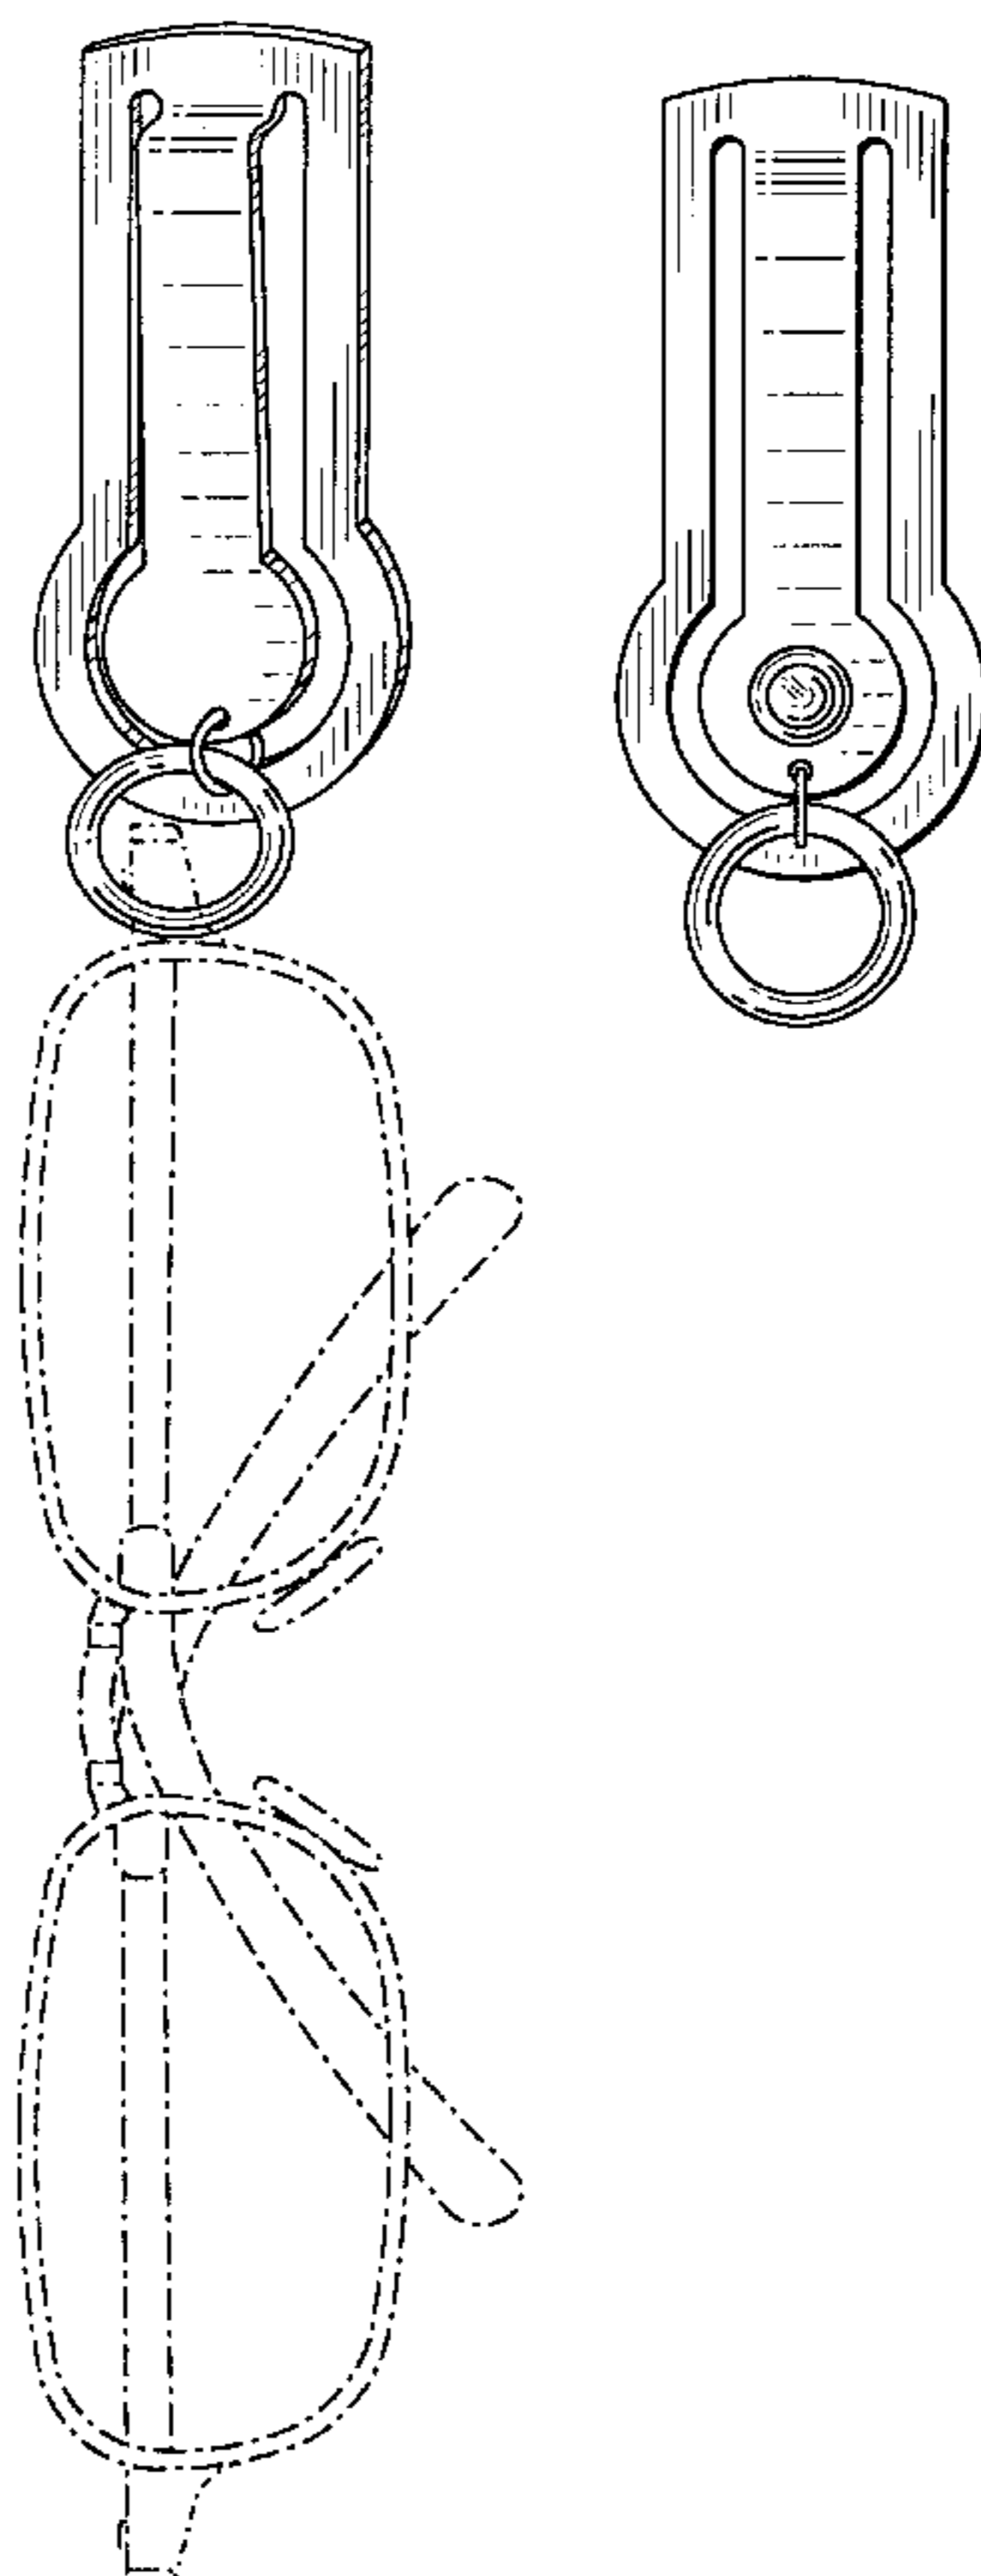

FIG. 6 is a bottom plan view of FIG. 2;

FIG. 7 is a perspective view of a second embodiment of the clip for holding eyeglasses, similar to FIG. 1, but having a decorative motif thereon; and,

FIG. 8 is a front elevational view of FIG. 7, the side and rear elevational and the top and bottom plan views not being shown as such views are substantially similar to the corresponding views in the first embodiment.

The broken lines partially showing eyeglasses in FIGS. 1 and 7 illustrate environmental context and form no part of the claimed design.
