(57)**CLAIM**

The ornamental design for a electronic card lock protective cover, as shown and described.

DESCRIPTION

FIG. 1 is an exploded front elevational view of the electronic card lock protective cover of the present invention;

FIG. 2 is an exploded rear elevational view of the electronic card lock protective cover of FIG. 1;

FIG. 3 is an exploded left side elevational view of the electronic card lock protective cover of FIG. 1, the right view being a mirror image thereof;

FIG. 4 is an exploded top plan view of the electronic card lock protective cover of FIG. 1, the bottom view being a mirror image thereof;

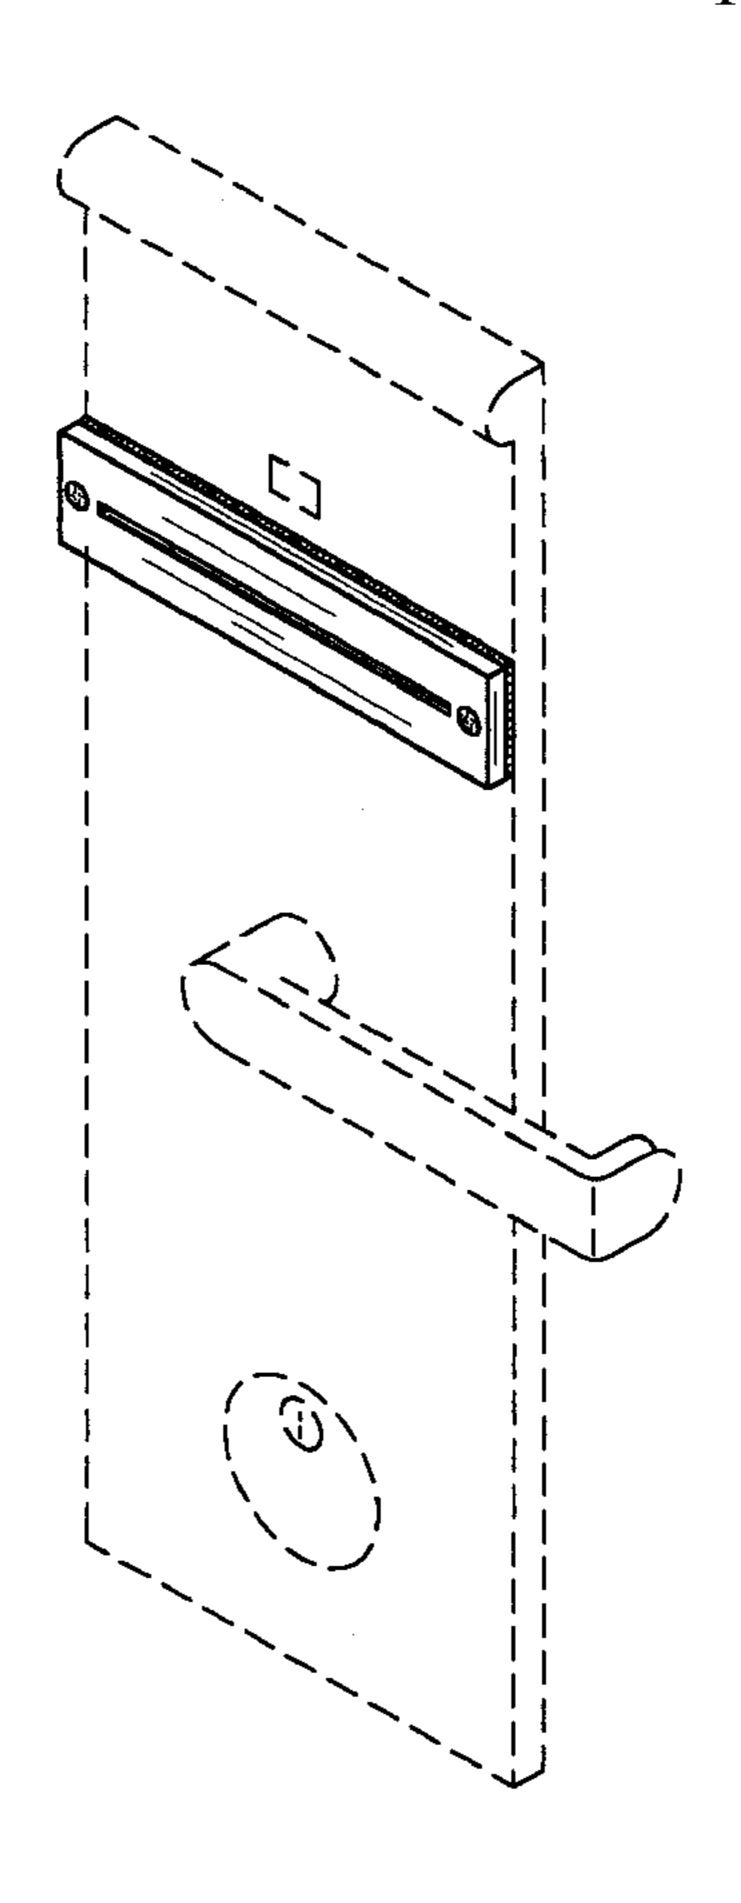

FIG. 5 is a top, front, right side perspective view of the electronic card lock protective cover of FIG. 1; and,

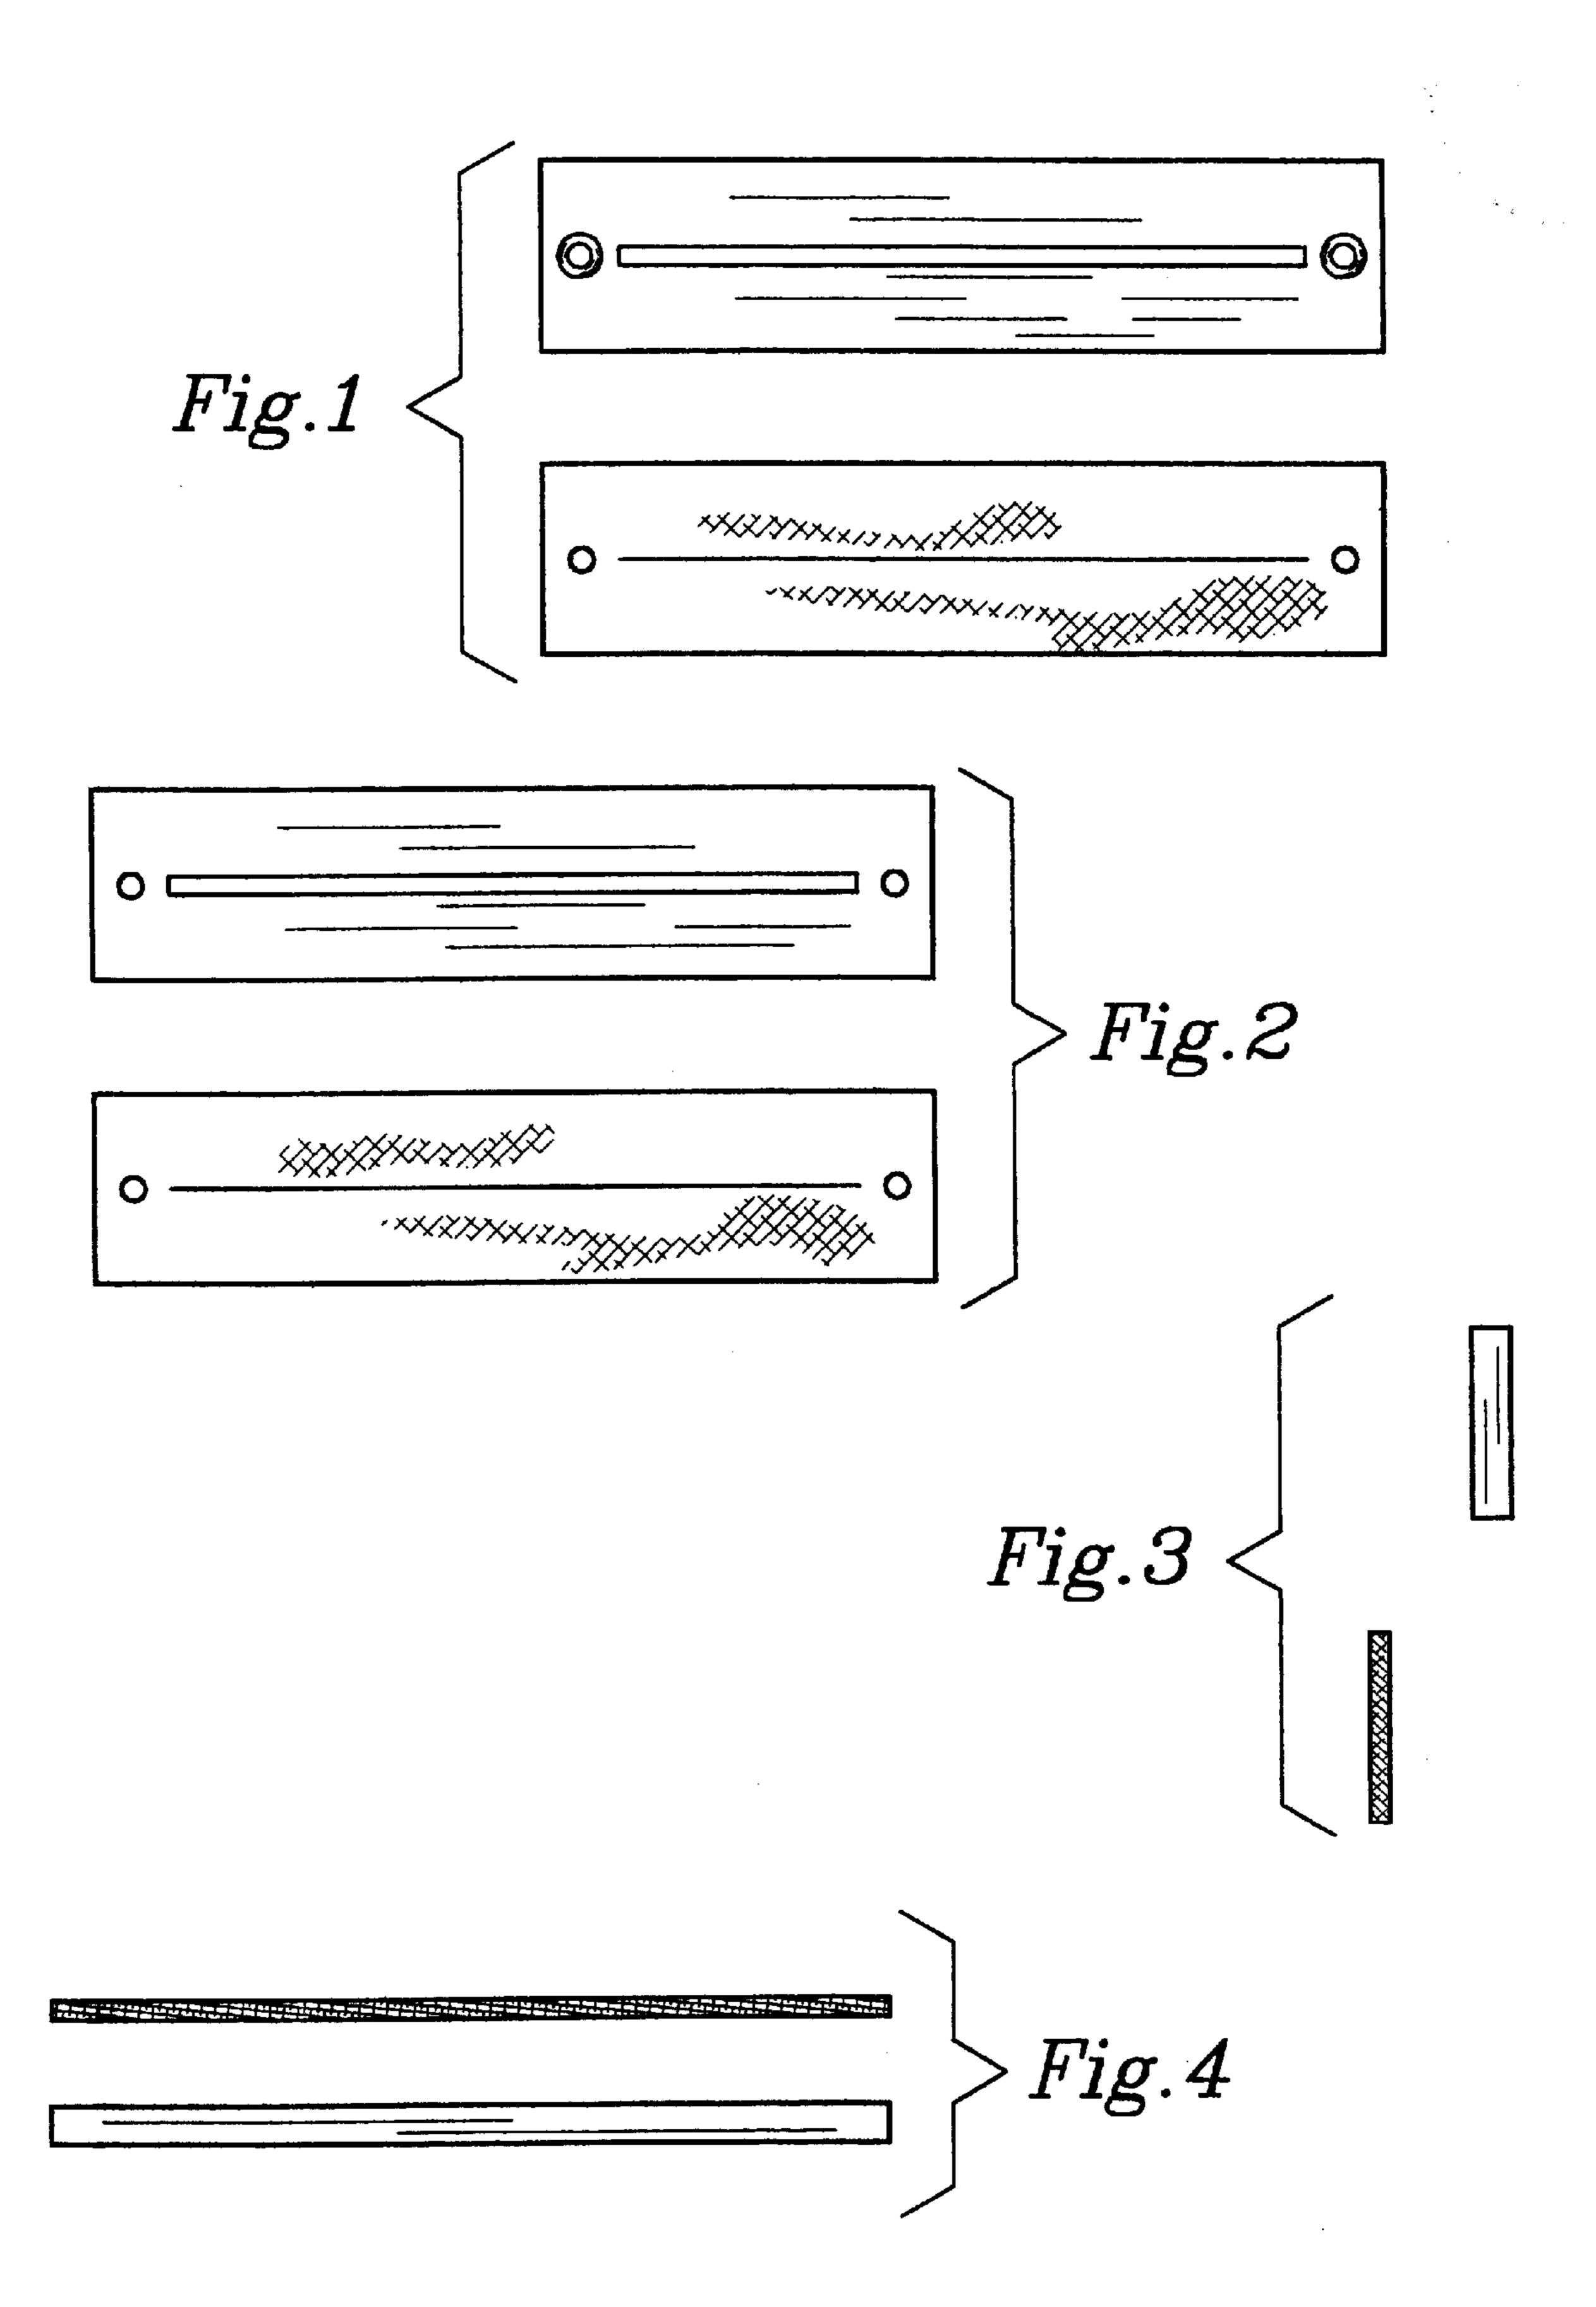

FIG. 6 is a top, rear, left side perspective view of the electronic card lock protective cover of FIG. 1.

The cross-hatching as shown in FIGS. 1 through 6 is to continued throughout the object and is indicative of a flexible material.

The broken lines showing of a door handle, lock and plate in FIG. 5 are for illustrative purposes only and form no part of the claimed design.
