(57) **CLAIM**

The ornamental design for an elevated visor for a cap and other headworn articles, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view, as seen from the lower front, of my design for a low brim embodiment of an elevated visor for a cap and other headworn articles, shown as an integral portion of a cap depicted in phantom lines for context. The design forms an integral portion of a cap or other headworn article;

FIG. 2 is a perspective view of my design shown in FIG. 1 as seen from the upper front;

FIG. 3 is a front elevation view of my design shown in FIG. 1;

FIG. 4 is a rear elevation view of my design shown in FIG. 1;

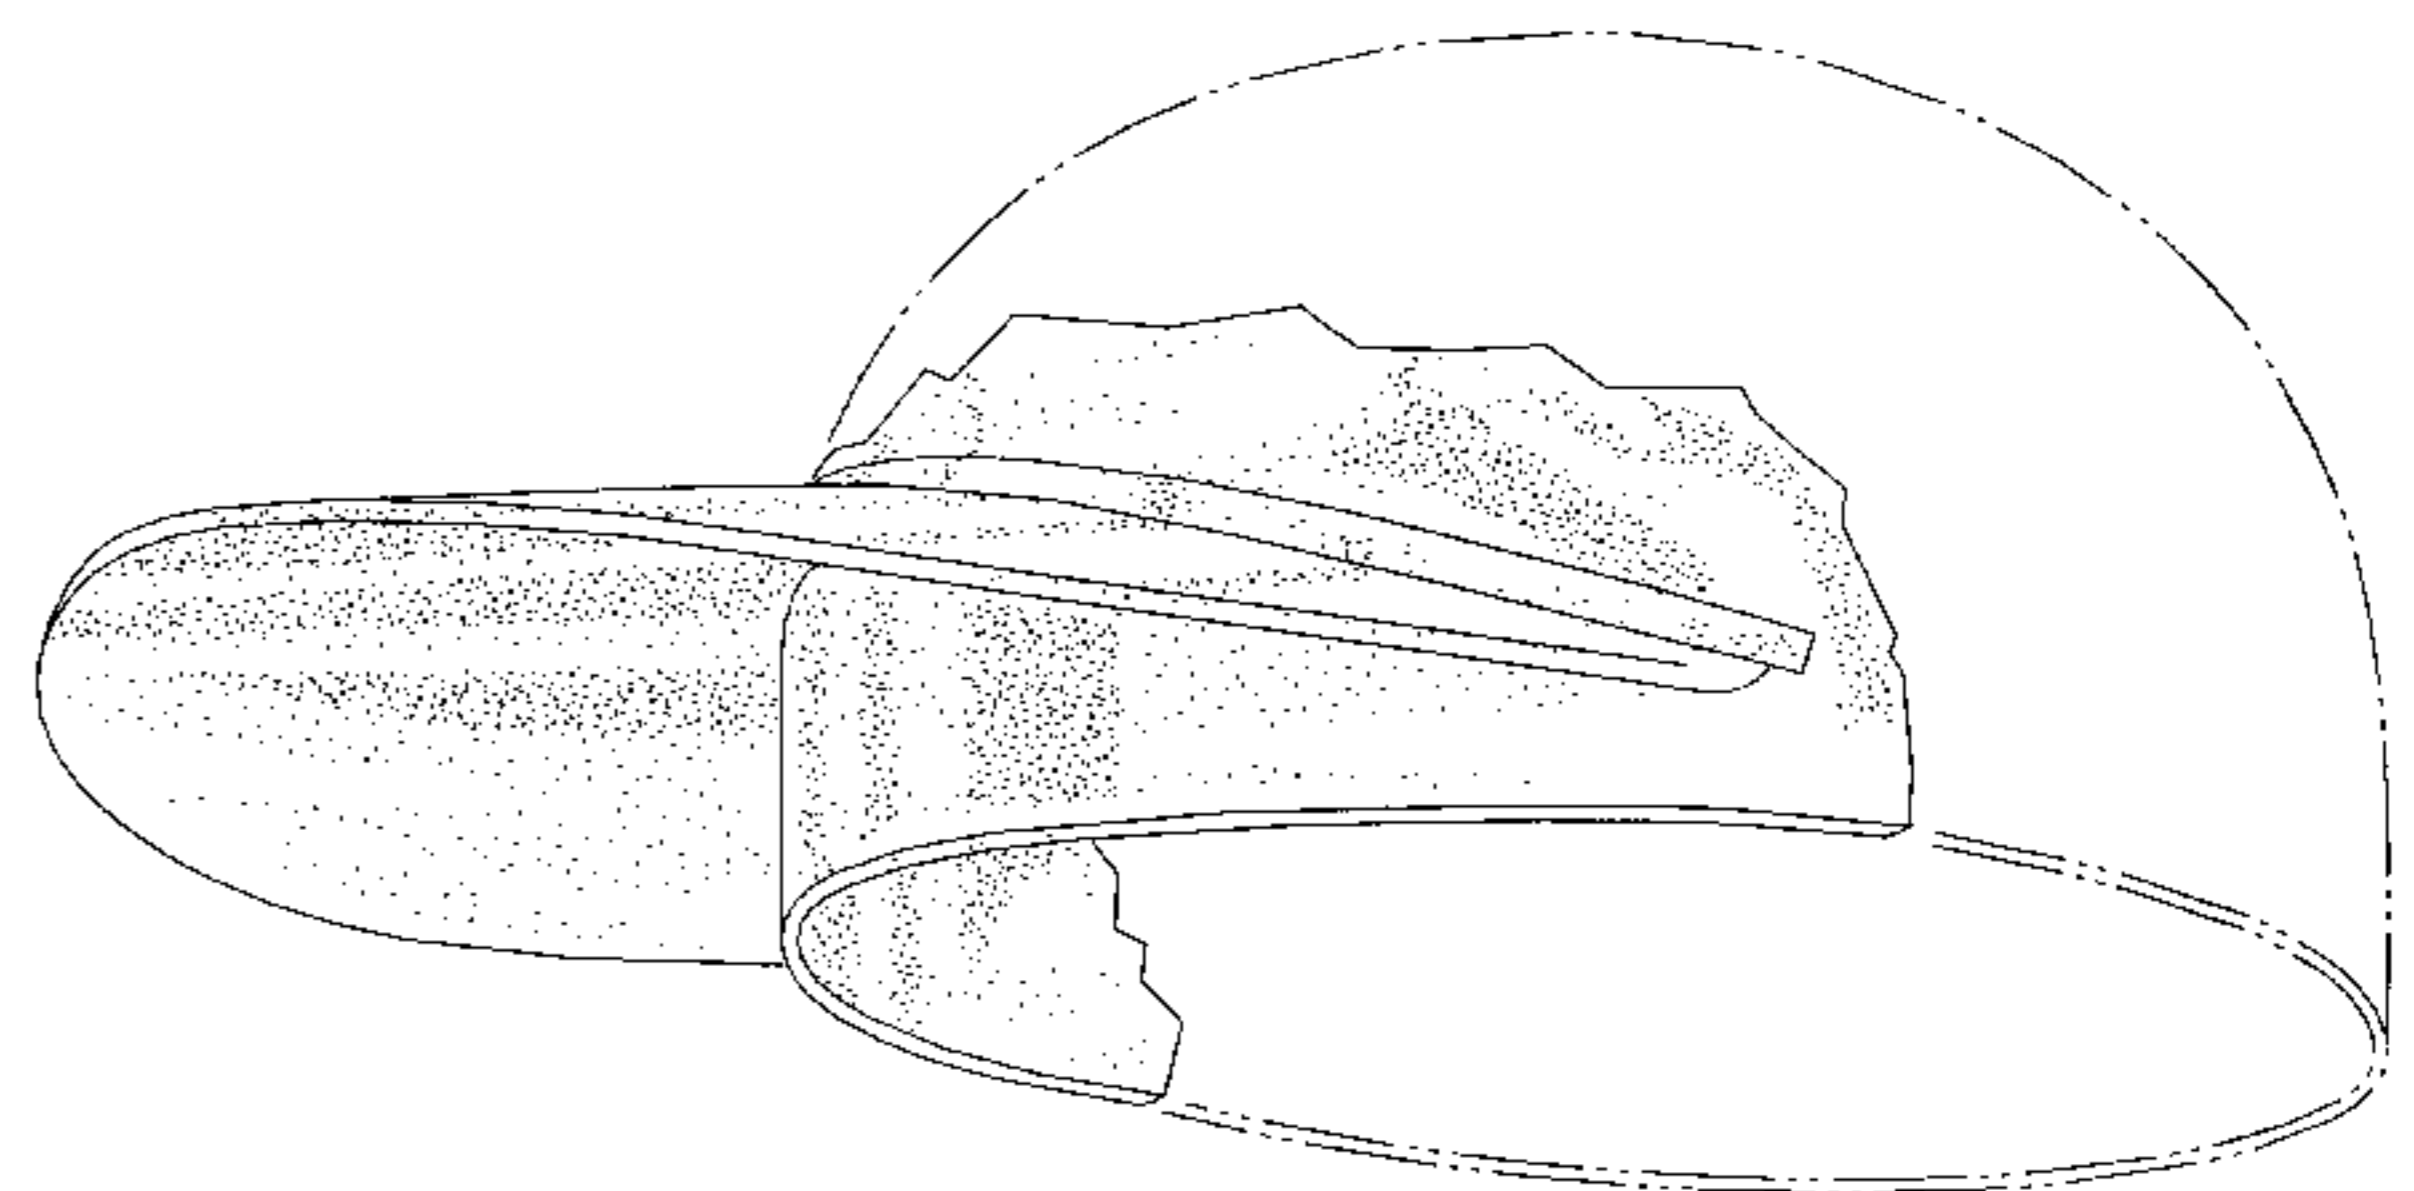

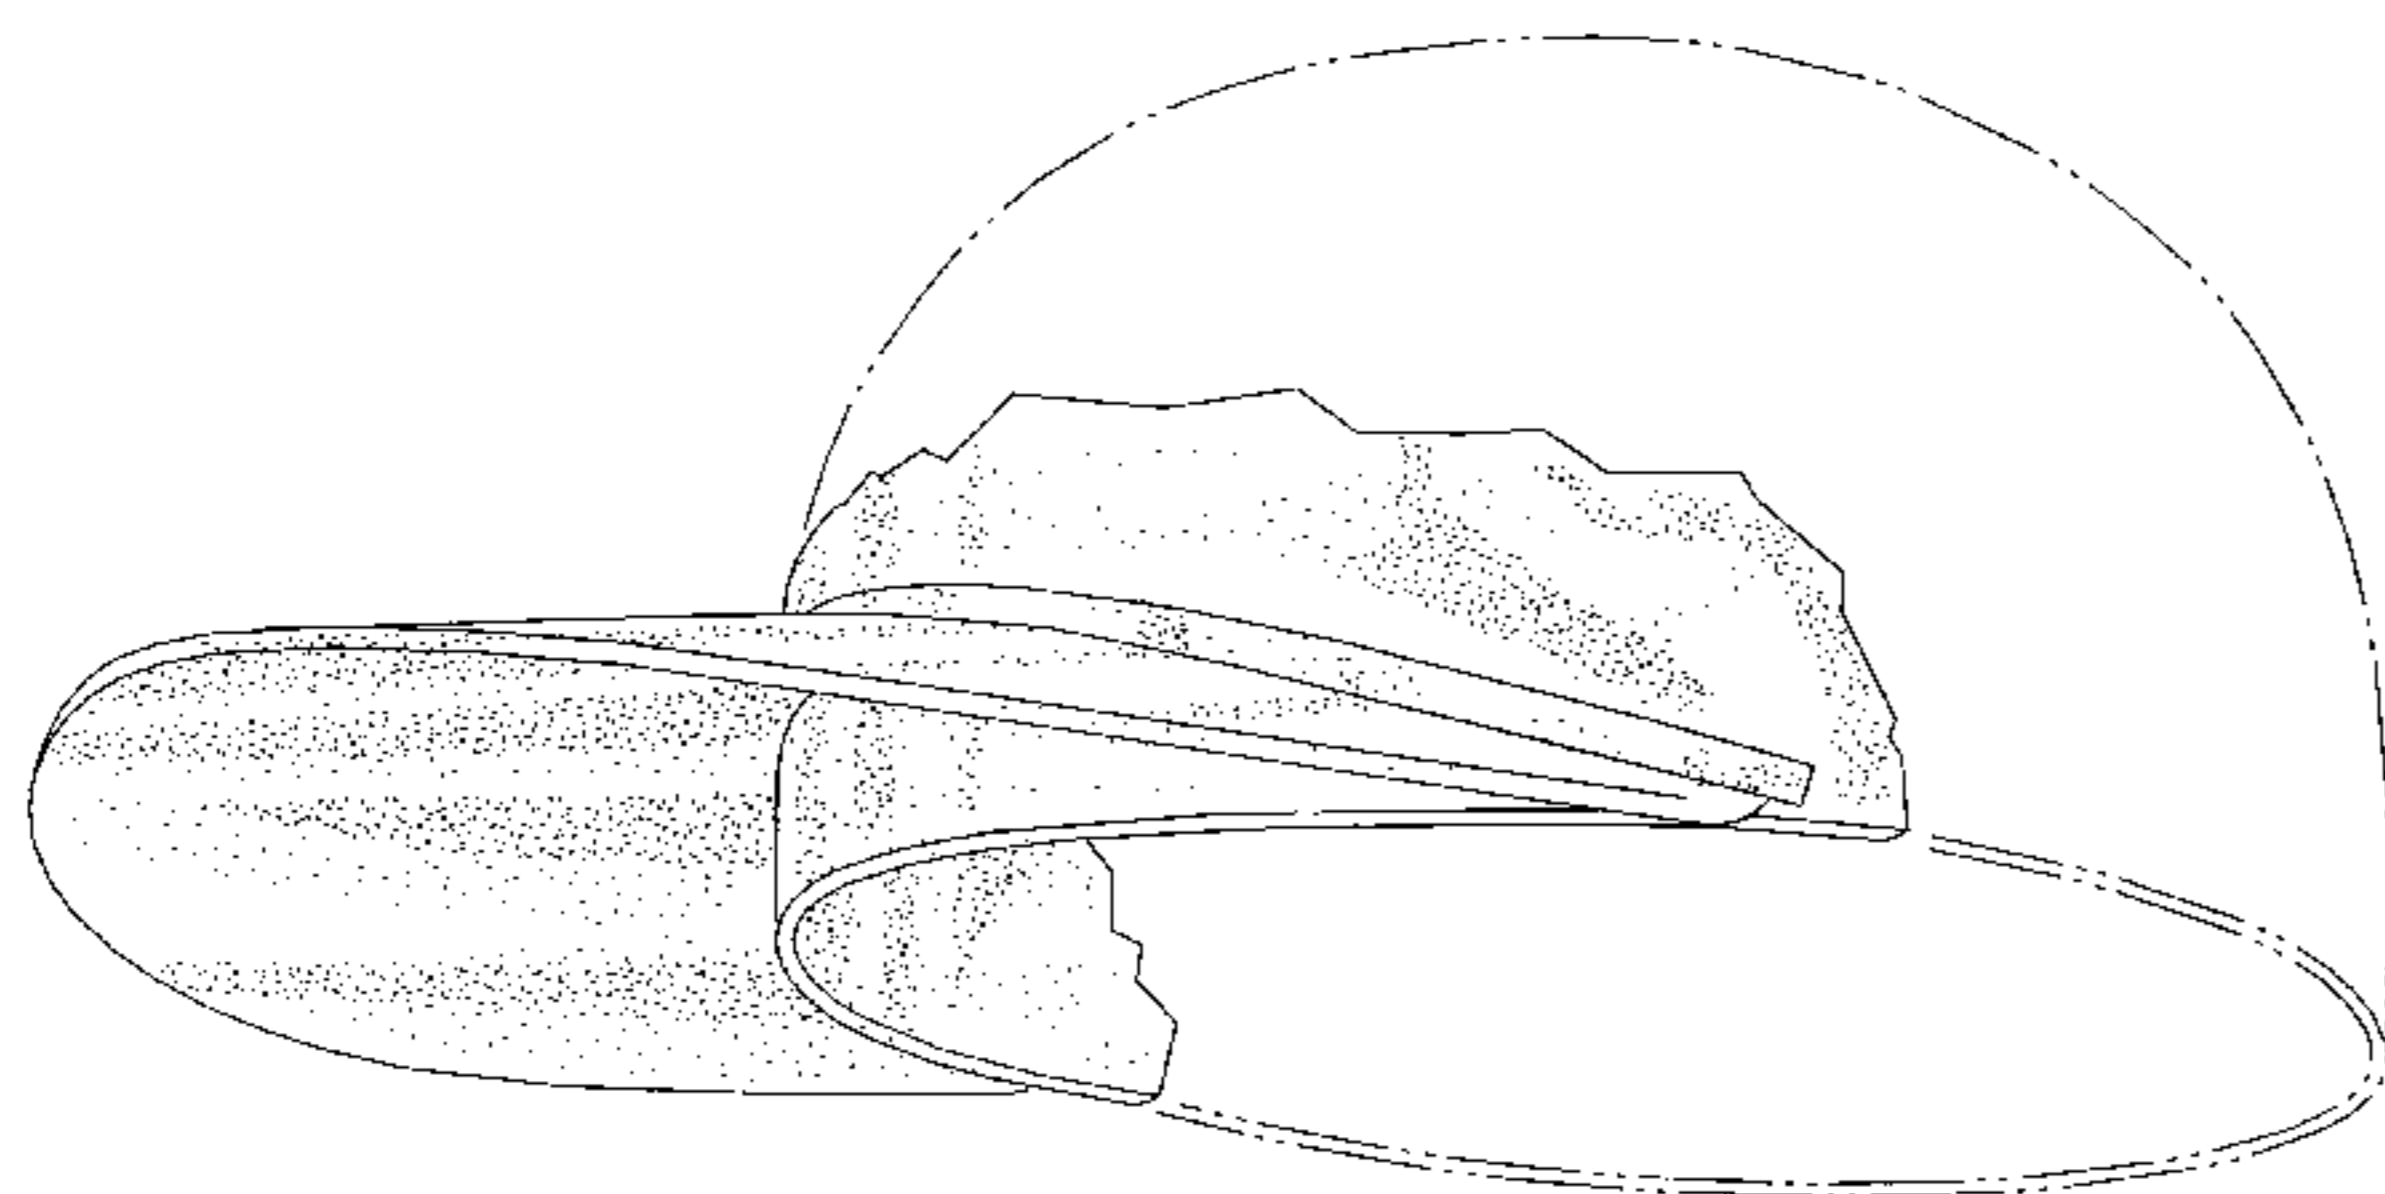

FIG. 5 is a left side elevation view of my design shown in FIG. 1;

FIG. 6 is a top plan view of my design shown in FIG. 1;

FIG. 7 is a bottom plan view of my design shown in FIG. 1; and,

FIG. 8 is a perspective view, as seen from the lower front, of a second embodiment of my design for an elevated visor for a cap and other headworn articles, the only different being a high brim configuration.
