(57) **CLAIM**

The ornamental design for a drinking container, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the drinking container wherein the top portion of the drinking container is unscrewed from the bottom storage compartment and the cover is open;

FIG. 2 is a perspective view of the drinking container wherein the top portion of the drinking container is screwed onto the bottom storage compartment and the cover is open;

FIG. 3 is a perspective view of the drinking container wherein the top portion of the drinking container is unscrewed from the bottom storage compartment and the cover is closed;

FIG. 4 is a perspective view of the drinking container wherein the top portion of the drinking container is screwed onto the bottom storage compartment and the cover is closed;

FIG. 5 is a side elevational view of the drinking container wherein the top portion of the drinking container is unscrewed from the bottom storage compartment and the cover is closed;

FIG. 6 is a perspective view of the drinking container wherein the top portion of the drinking container is screwed onto the bottom storage compartment and the cover is closed;

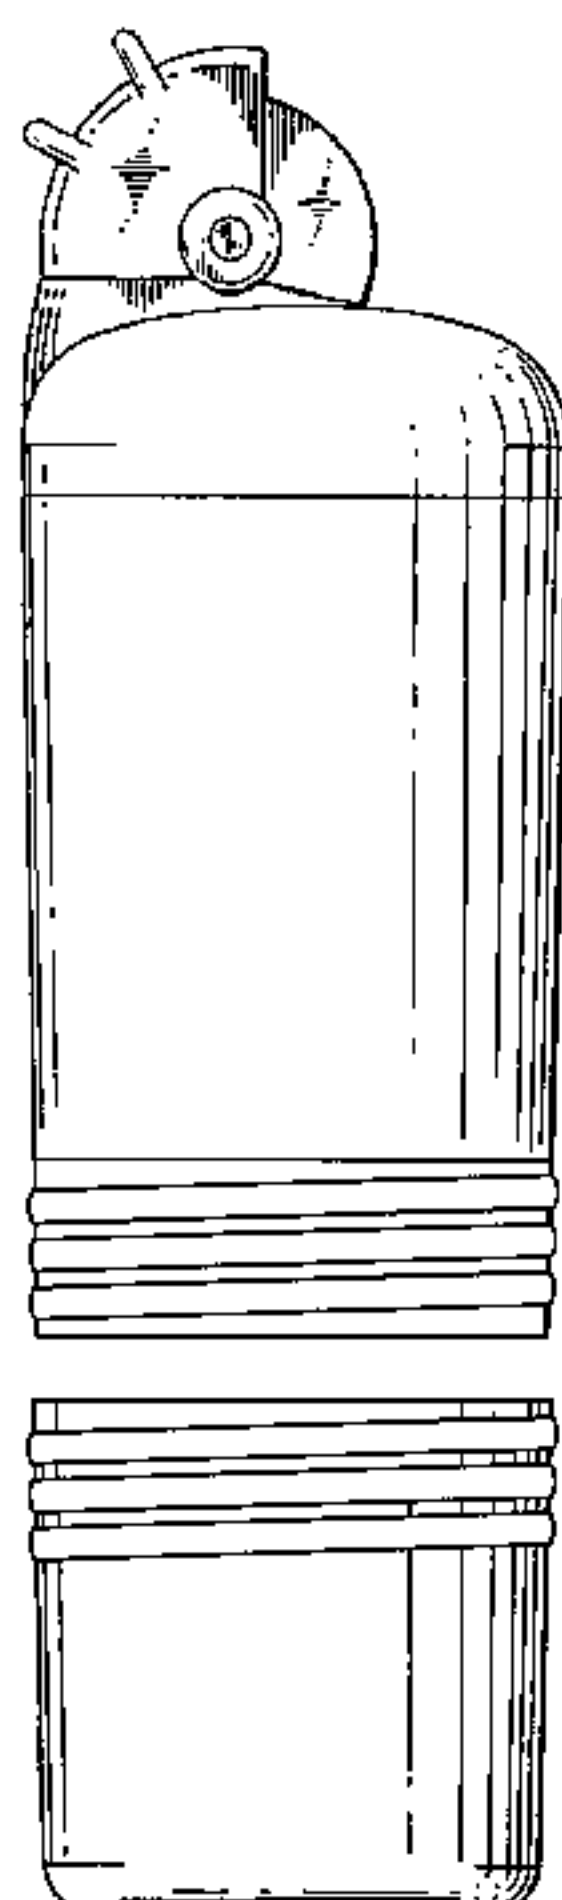

FIG. 7 is a front elevational view of the drinking container wherein the top portion of the drinking container is unscrewed from the bottom storage compartment and the cover is closed;

FIG. 8 is a rear elevational view of the drinking container wherein the top portion of the drinking container is screwed onto the bottom storage compartment and the cover is closed;

FIG. 9 is a top plan view of the drinking container wherein the cover is closed; and,

FIG. 10 is a bottom plan view of the drinking container.
