(57) **CLAIM**

The ornamental design for a container closure, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a container closure, embodying our new design;

FIG. 2 is a back elevational view thereof, with the front elevational view being a mirror image thereof;

FIG. 3 is a side elevational view with the opposite side elevational view being a mirror image thereof;

FIG. 4 is a top plan view thereof;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is an environmental perspective view showing the container closure applied to a broken line showing of a package which forms no part of the claimed design; and,

FIG. 7 is an environmental perspective view showing the container closure applied to a broken line showing of an alternative package which likewise forms no part of the claimed design.
