184, 325, 739, 825

FIG. 1 is a perspective view of the circular stowable display system in accordance with the present invention, with the display being depicted in a stowed orientation;

FIG. 2 is a top view thereof with the display in the stowed orientation;

FIG. 3 is a right-side view thereof with the display in the stowed orientation;

FIG. 4 is a right-side view thereof with the display in a deployed orientation; and,

FIG. 5 is a perspective view thereof with the display in a deployed orientation.

The broken lines shown in FIGS. 1–5 are for illustrative purposes as an environment and form no part of the claimed design.
