(57) **CLAIM**

The ornamental design for a container assembly of two nested containers, as shown and described.

**DESCRIPTION**

FIG. 1 is a side elevational view of a container assembly of two nested containers, showing our new design; FIG. 2 is a perspective view thereof with the containers separated; FIG. 3 is a perspective view of an individual such container; FIG. 4 is a side elevational view of the mating side of an individual said container; and, FIG. 5 is a further perspective view of an individual said container.
