(57) **CLAIM**

The ornamental design of a picture hook unit, as shown and described.

DESCRIPTION

FIG. 1 is an exploded perspective view of a picture hook unit showing my new design;
 FIG. 2 is a perspective view from the rear of the picture hook unit with the component parts coupled together;
 FIG. 3 is a perspective view from the front of the coupled picture hook unit;
 FIG. 4 is a perspective view from the front of a first component part of the picture hook unit;
 FIG. 5 is a perspective view from the front of a second component part of the picture hook unit;
 FIG. 6 is a front elevational view of the first component part;
 FIG. 7 is a rear elevational view of the first component part;
 FIG. 8 is a front elevational view of the second component part of the picture hook unit;
 FIG. 9 is a rear elevational view of the second component part;
 FIG. 10 is a left end elevational view of the second component part;
 FIG. 11 is a right end elevational view of the first component part; and,
 FIG. 12 is a left end elevational view of the coupled picture hook unit.

The components of the claimed design are shown separated for ease of illustration.
