(57) **CLAIM**

We claim the ornamental design for a surface pattern for a footwear sole, as shown and described.

DESCRIPTION

The sole FIGURE is a view of a surface pattern for a footwear sole, showing our new design.

The broken lines, immediately outside the solid, claimed, outlines; and the broken-line shapes, on the surface of the design, illustrate the boundaries of the design, yet they form no part of the claimed design. The broken lines showing the outermost broken lines, as well as the areas within the broken-line shapes, illustrate those portions of the surface pattern that form no part of the claimed design.
