(57)**CLAIM**

The ornamental design for a coordinate loop garment hanger, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a coordinate loop garment hanger showing the new design of the present invention.

FIG. 2 is an enlarged perspective view of primarily the dependent hook-receiving closed loop element of the coordinate loop garment hanger.

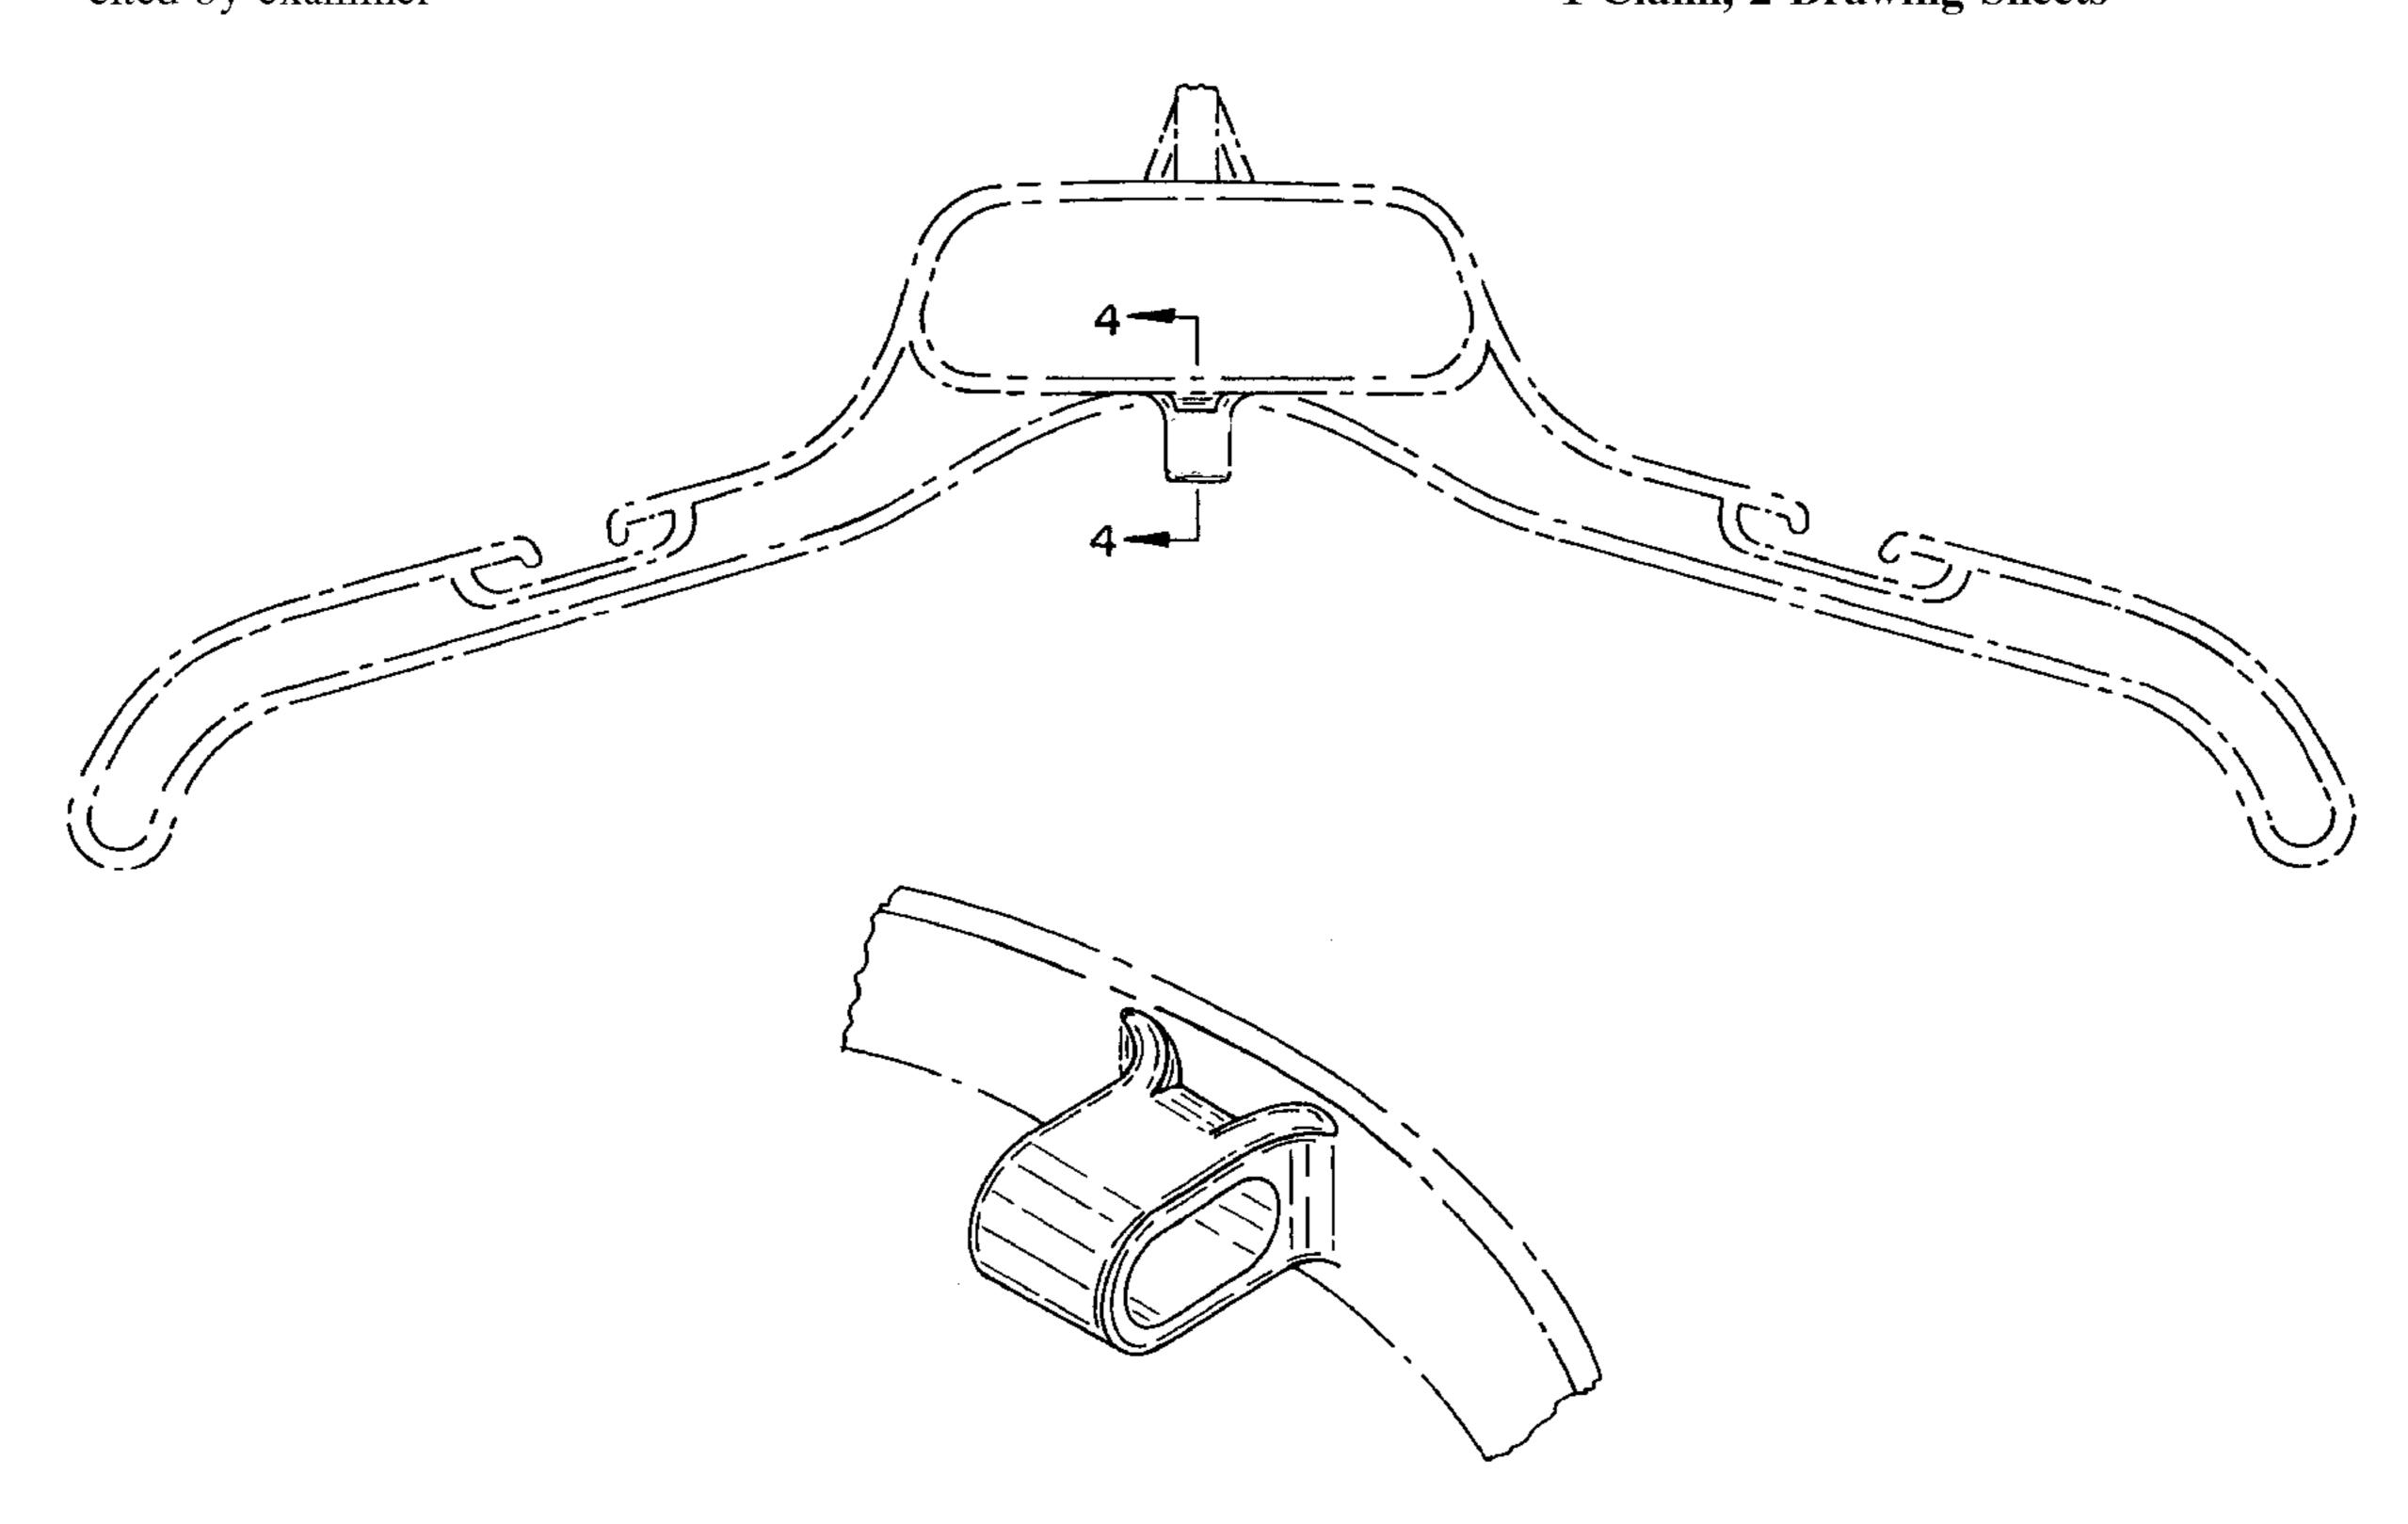

FIG. 3 is a front elevational view of primarily the dependent hook-receiving closed loop element of the coordinate loop garment hanger.

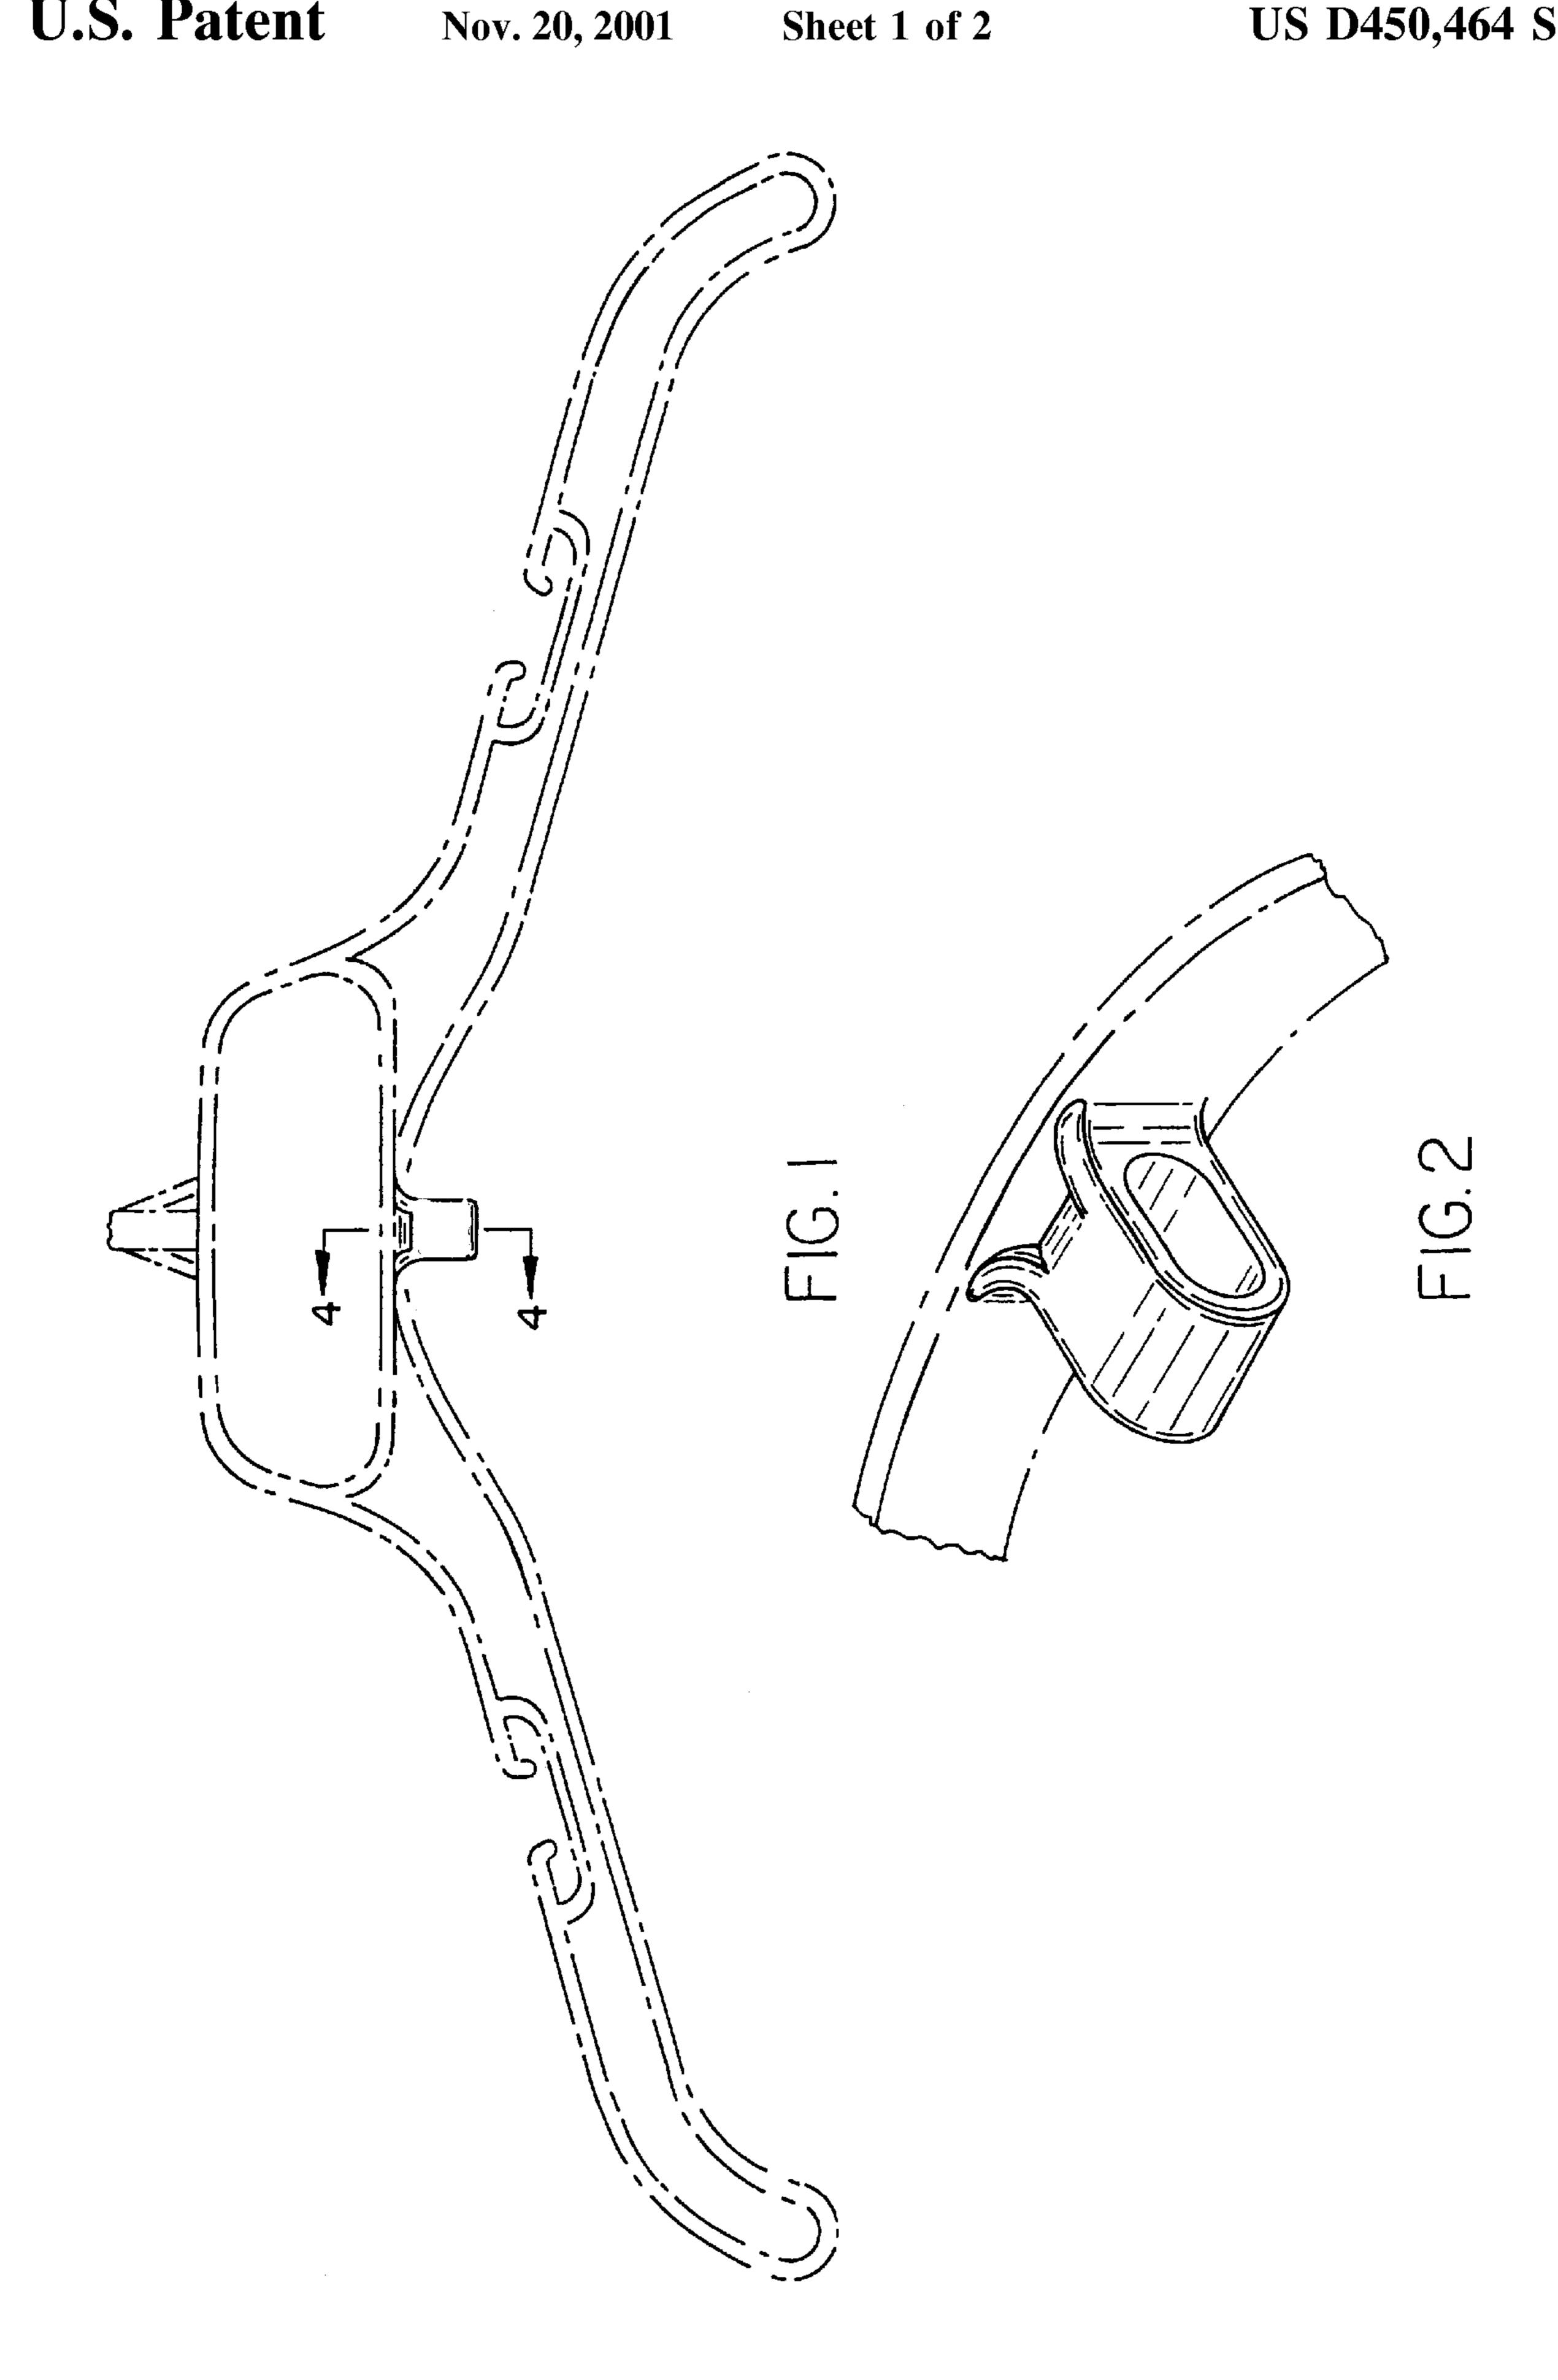

FIG. 4 is a sectional view taken along arrows 4—4 of FIG. 1; and,

FIG. 5 is a bottom view of the dependent hook-receiving closed loop element of the coordinate loop garment hanger. The broken lines are for illustrative purposes only and form no part of the embodiment.

While the views use a variety of scales to illustrate the design, the claim is directed to a single embodiment with consistent proportions.
