(57) **CLAIM**

We claim the ornamental design for an automotive battery cover with power distribution and fuse connections, as shown and described.

DESCRIPTION

FIG. 1 is a left front perspective view of an automotive battery cover with power distribution and fuse connections, showing a preferred embodiment of our design. The battery structure shown in dotted line is environmental structure, and does not form part of the claimed design;

FIG. 2 is a top plan view of FIG. 1;

FIG. 3 is a bottom plan view of FIG. 1;

FIG. 4 is a right side elevation view of FIG. 1;

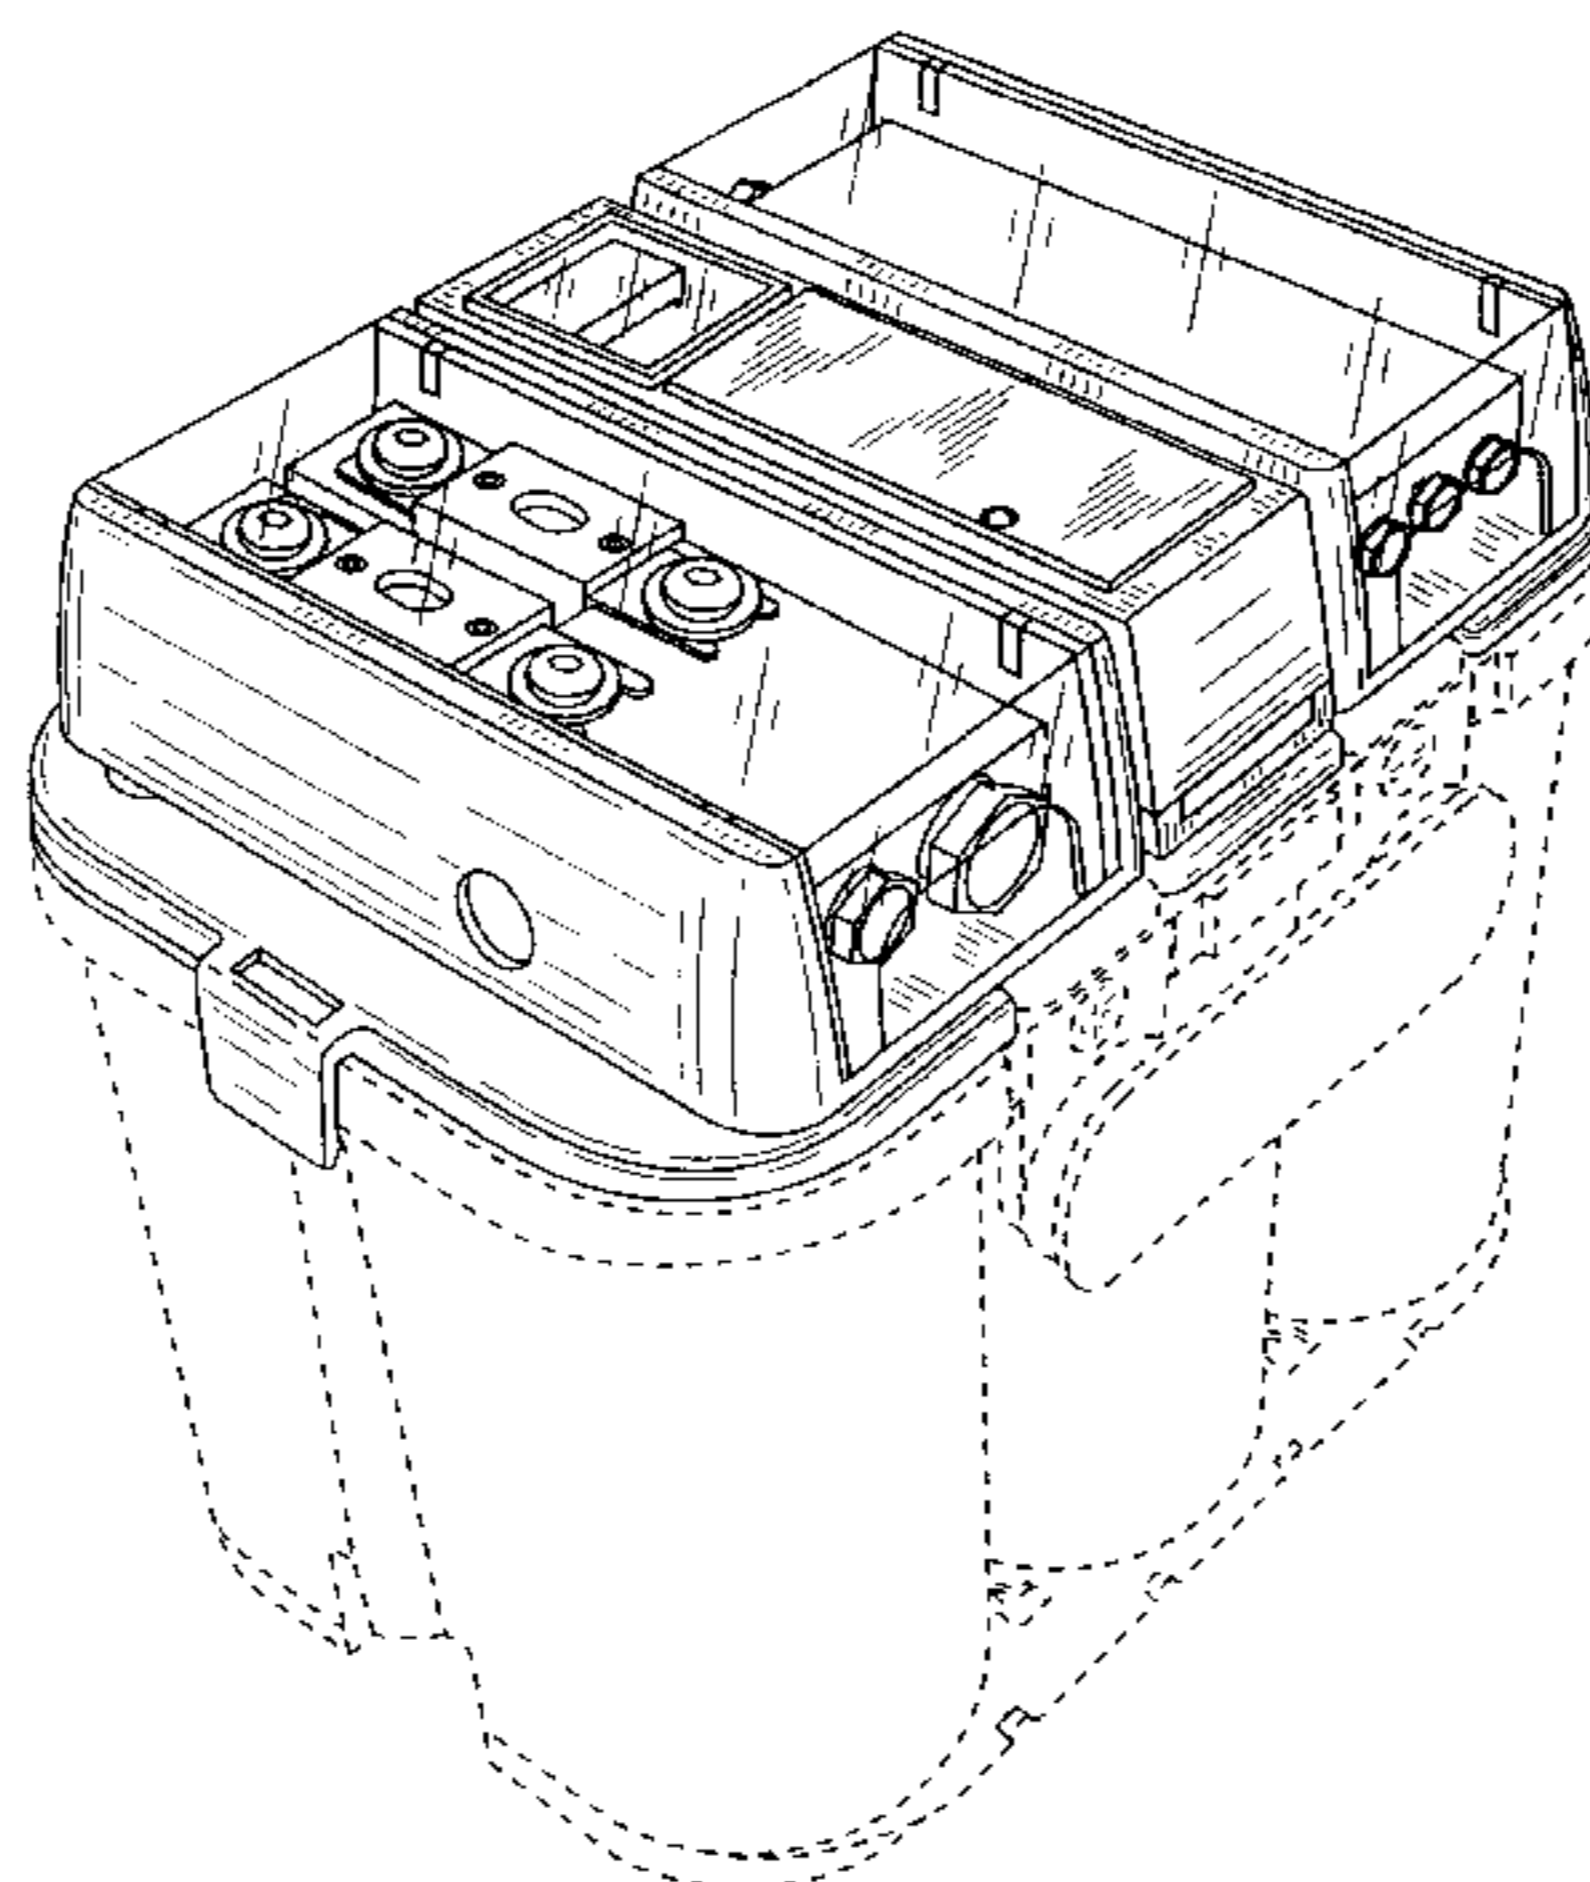

FIG. 5 is a left side elevation view of FIG. 1;

FIG. 6 is a rear side elevation view of FIG. 1; and,

FIG. 7 is a front side elevation view of FIG. 1.

The appearance of our design for an automotive battery cover with power distribution and fuse connections characterized by a pair of transparent covers with openings for access to novel metal distribution blocks which comprise battery connectors, fuse holders and external power wire connections, as shown.
