(57) **CLAIM**

The ornamental design for a mobile telephone holder, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the mobile telephone holder; FIG. 2 is a front view of the mobile telephone holder shown in FIG. 1;

FIG. 3 is a left side view of the mobile telephone holder shown in FIG. 2;

FIG. 4 is a right side view of the mobile telephone holder shown in FIG. 2;

FIG. 5 is a top view of the mobile telephone holder shown in FIG. 2;

FIG. 6 is a bottom view of the mobile telephone holder shown in FIG. 2;

FIG. 7 is a rear view of the mobile telephone holder shown in FIG. 2 showing attachment openings for the attachment to various support structures;

FIG. 8 is a left side view of the mobile telephone holder shown in FIG. 2 with an adhesive film at its rear wall for the attachment to a support surface;

FIG. 9 is a right side view of the mobile telephone holder shown in FIG. 2 with an adhesive film at its rear wall for the attachment to a support surface;

FIG. 10 is a top view of the mobile telephone holder shown in FIG. 2 with an adhesive film at its rear wall for the attachment to a support surface;

FIG. 11 is a bottom view of the mobile telephone holder shown in FIG. 2 with an adhesive film at its rear wall for the attachment to a support surface; and,

FIG. 12 is a rear view of the mobile telephone holder shown in FIG. 10 showing the adhesive film at its rear wall for the attachment to a support surface.

The patterned surface treatment schematically depicted in FIGS. 5, 10, and 12 is continuous about the surfaces on which it is shown. The second embodiment differs from the first only in the attachment means at the rear thereof.
